

The background of the slide is a complex, abstract pattern of concentric, irregular shapes in various shades of green and brown. These shapes, which resemble blobs or organic forms, are layered and nested, creating a sense of depth and movement. The colors range from dark, almost black, to a vibrant, bright green. The overall effect is a dense, textured field of organic-looking patterns.

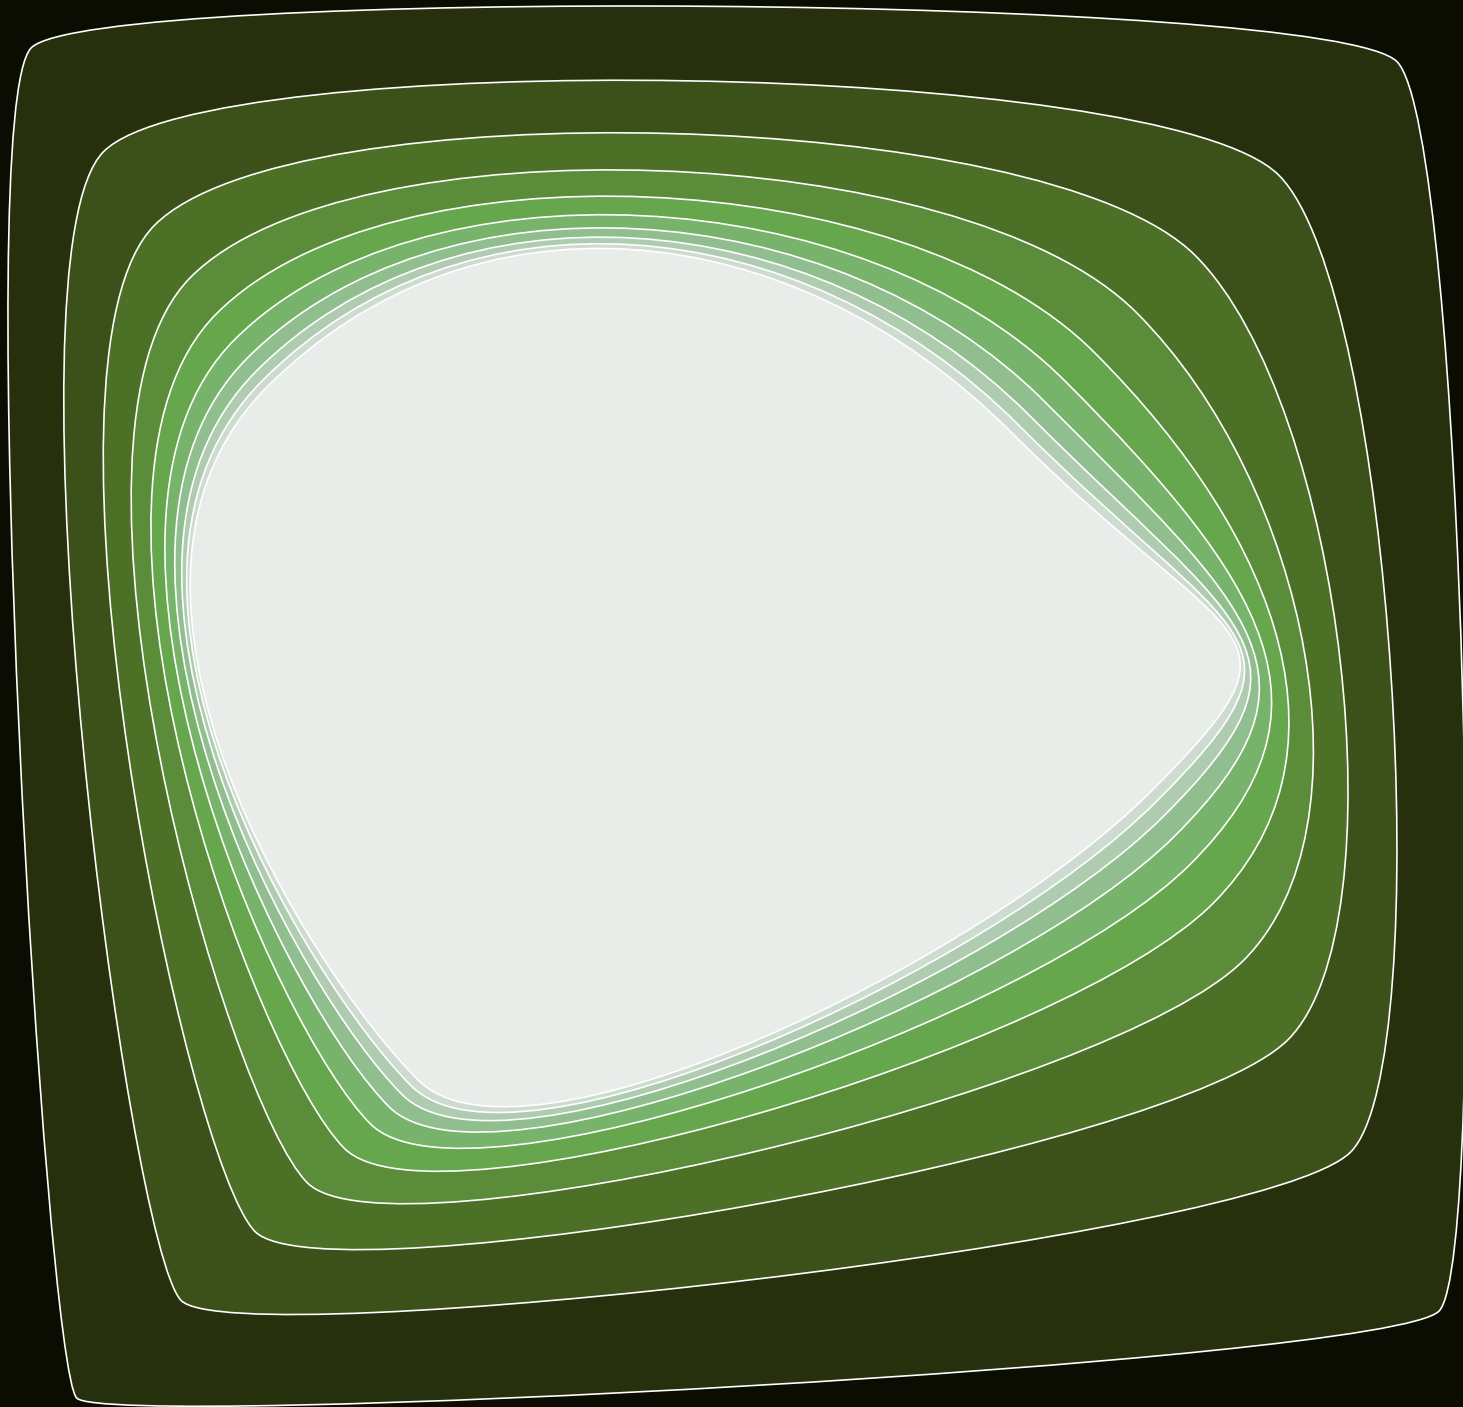

100 random blobs

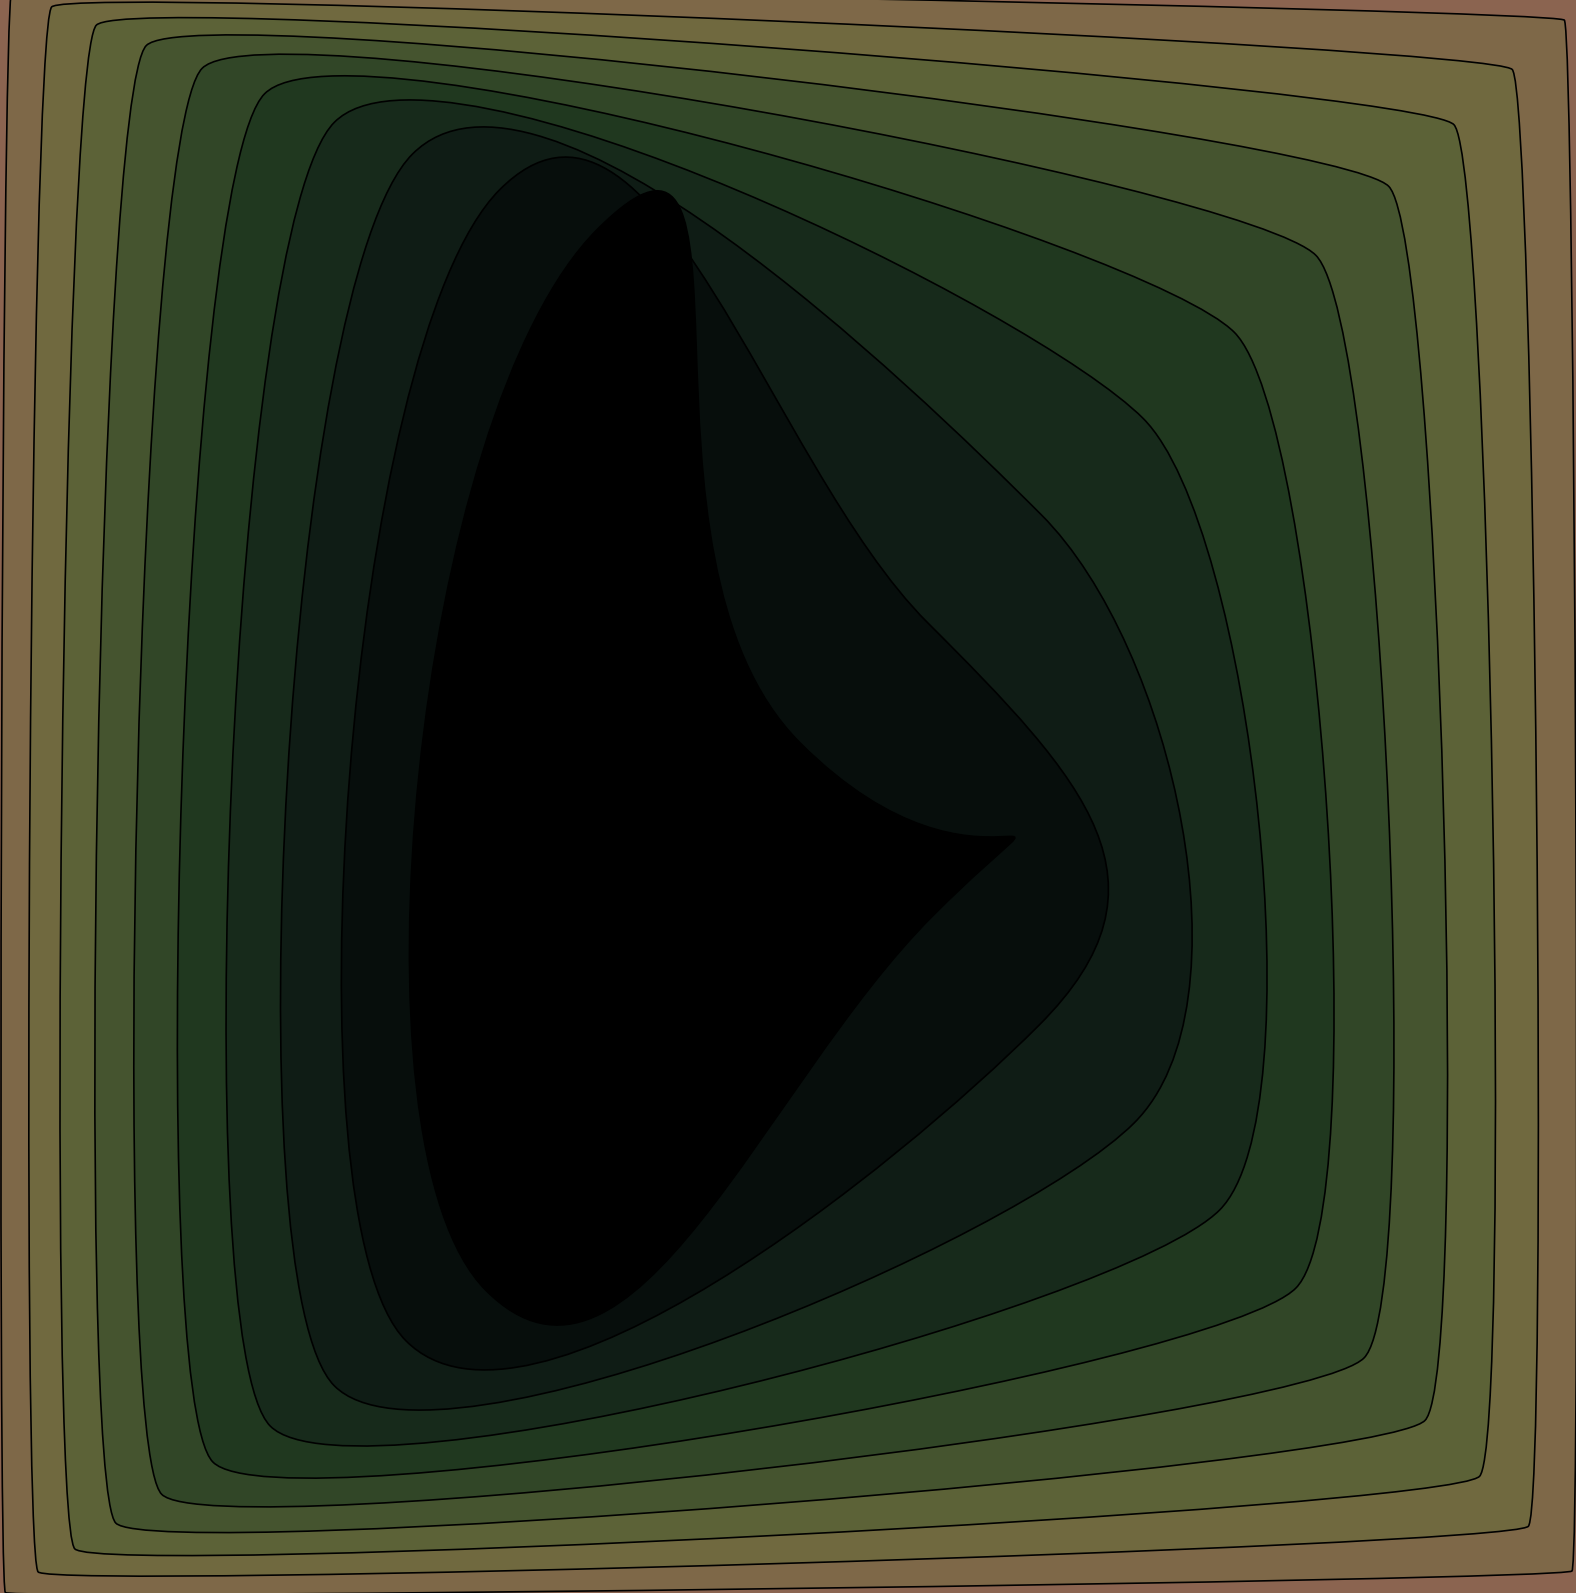

November the 9th, 2015 — Vasilis van Gemert

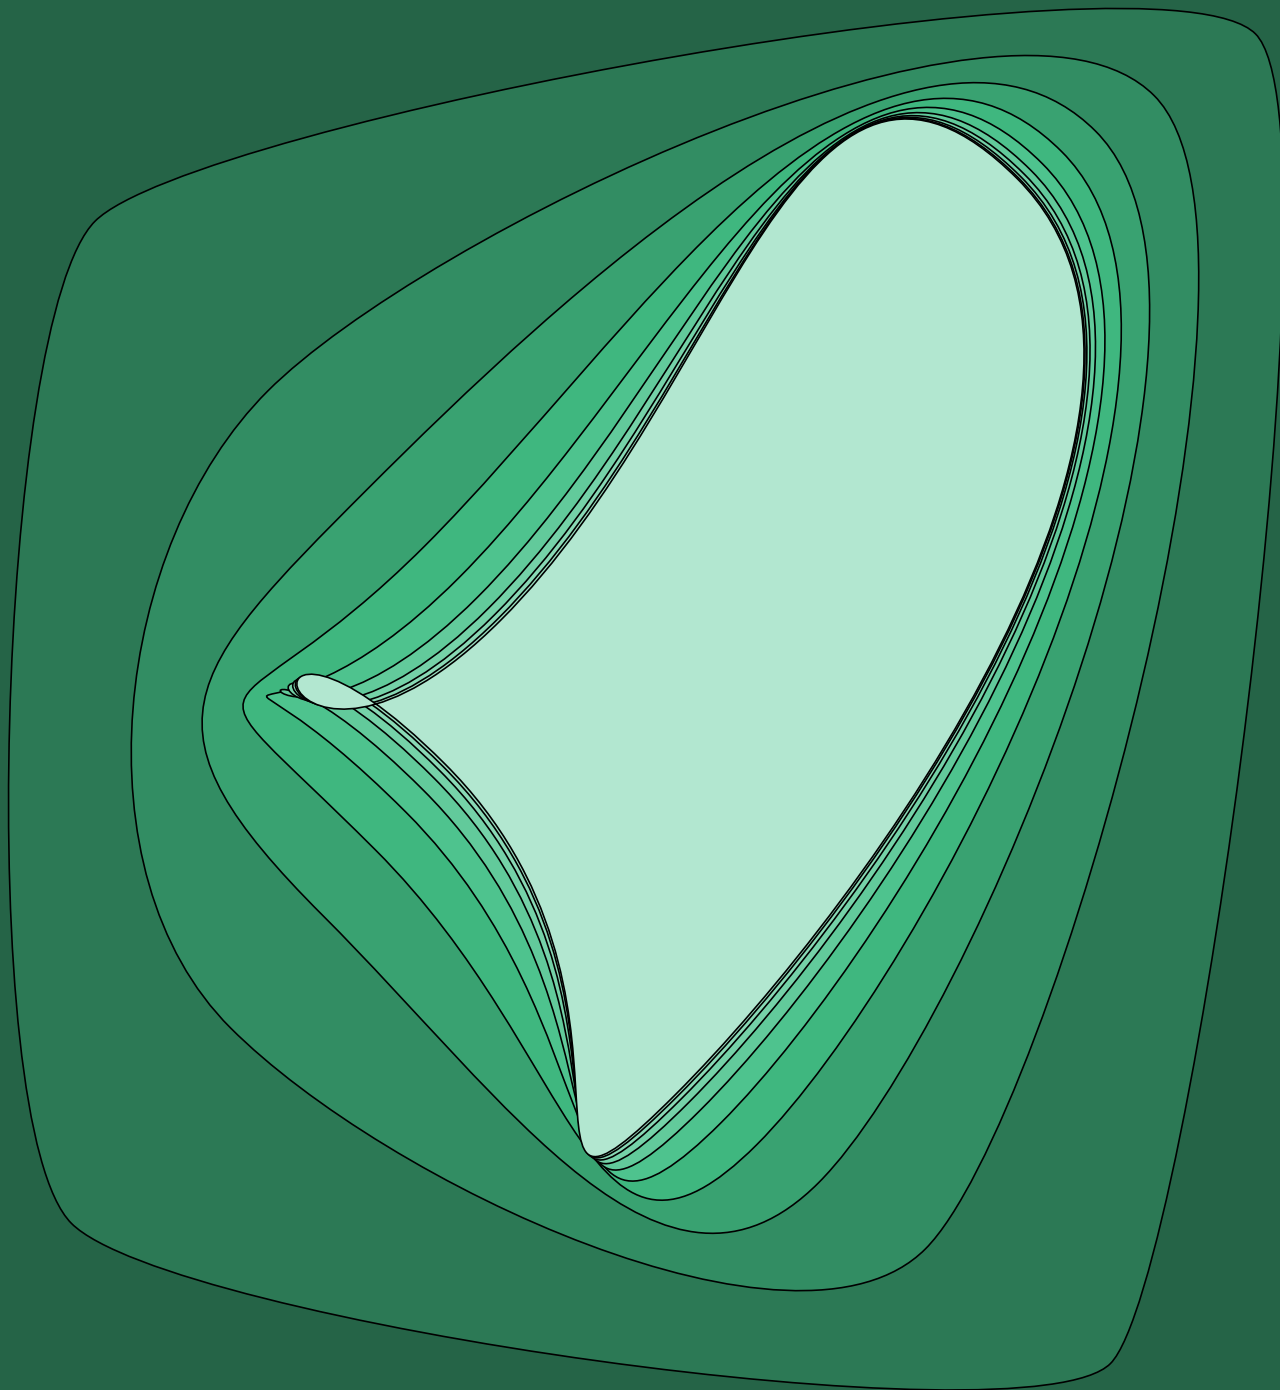

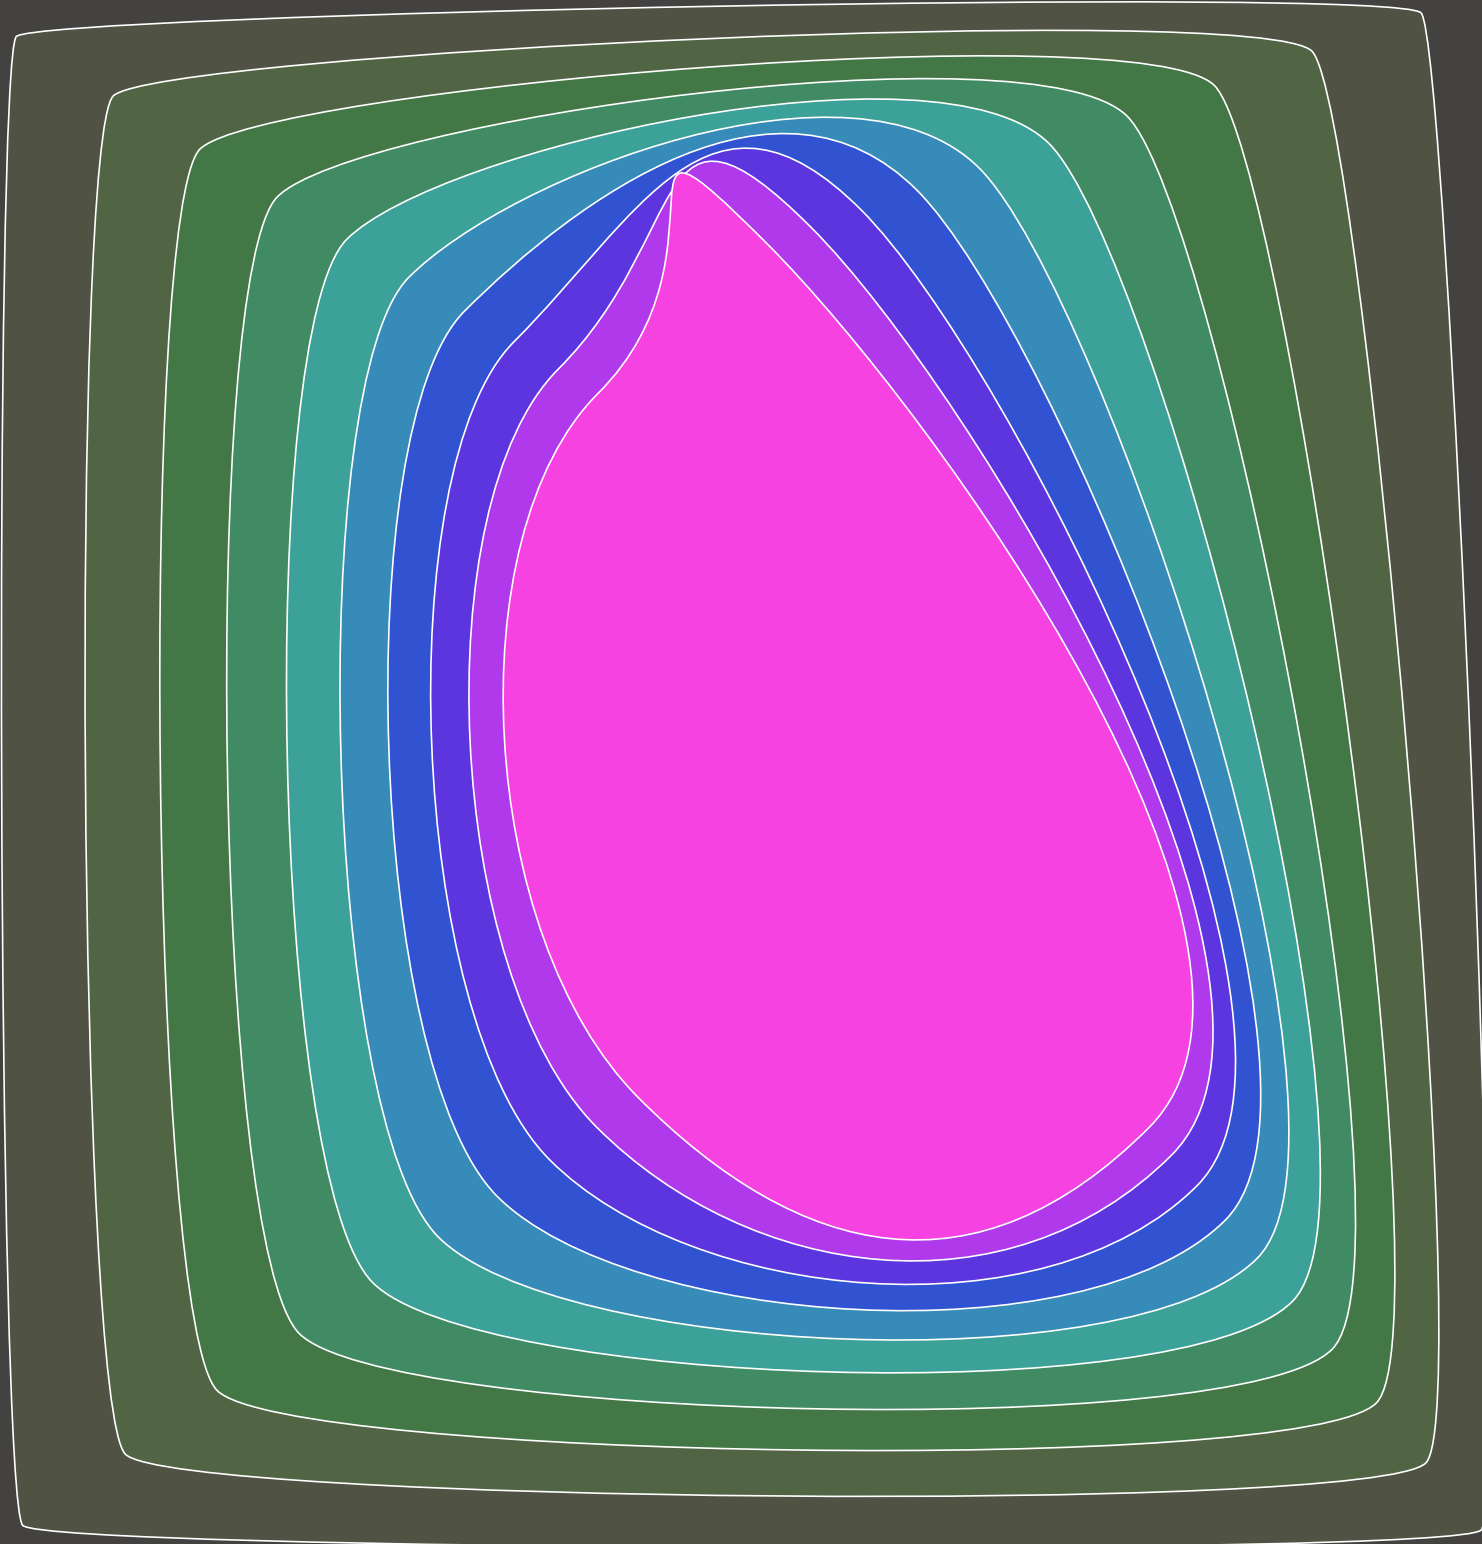

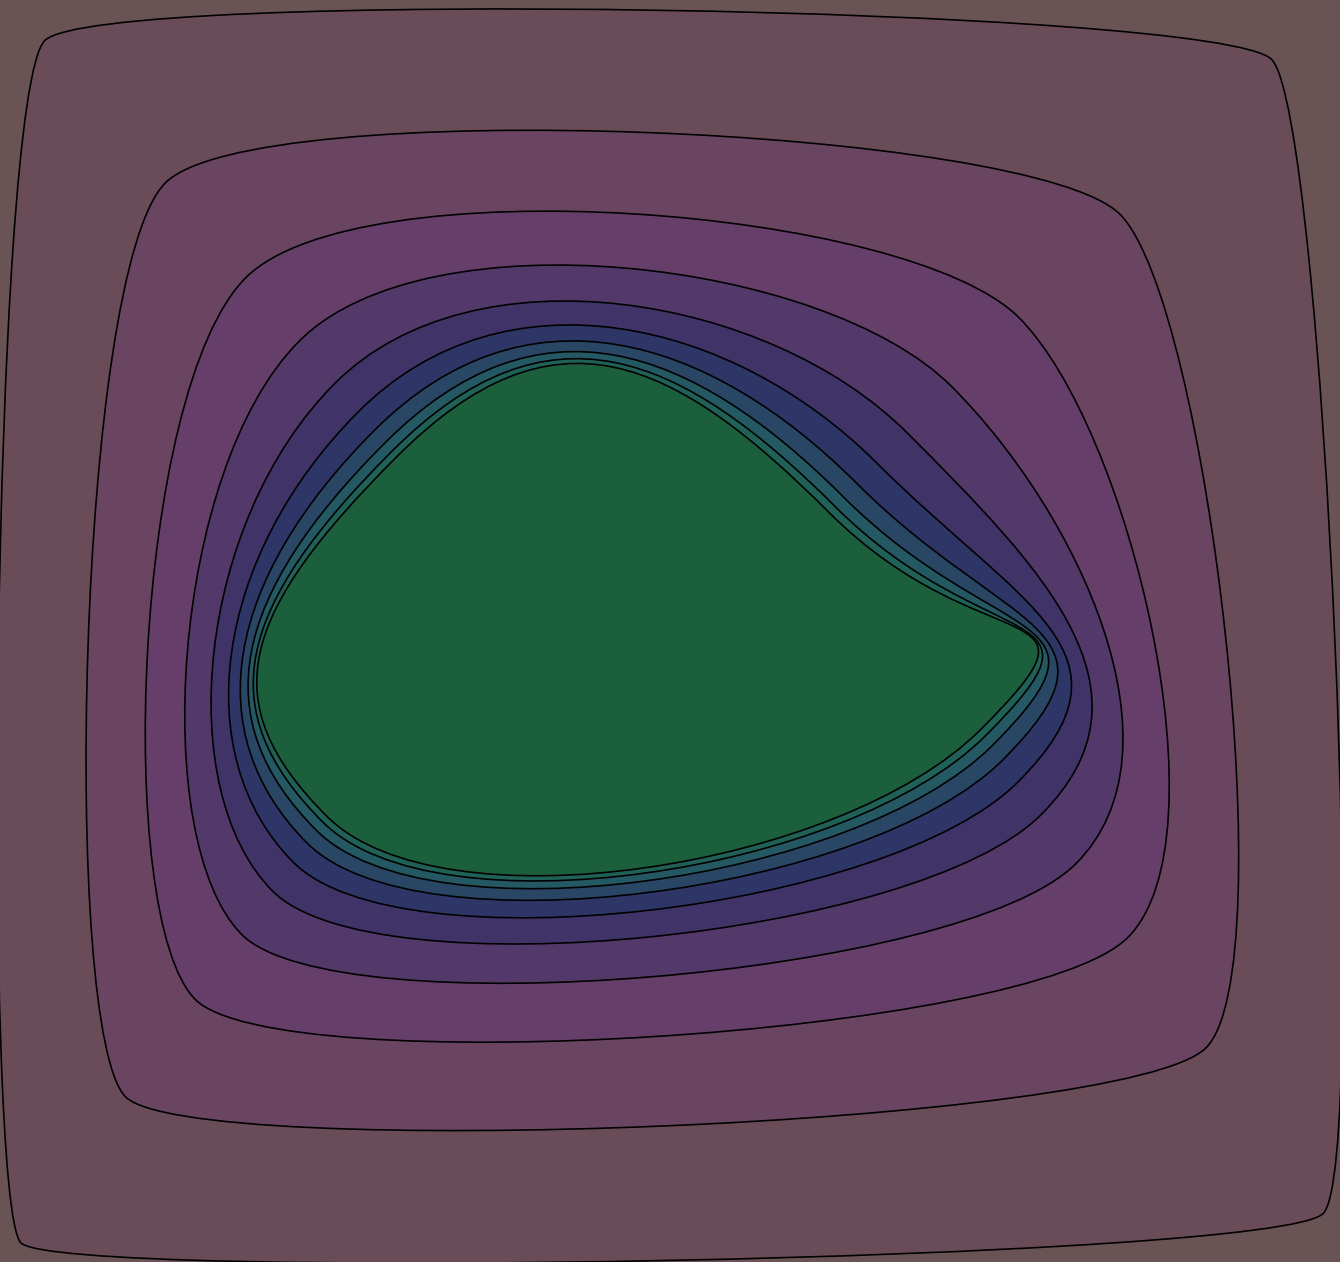

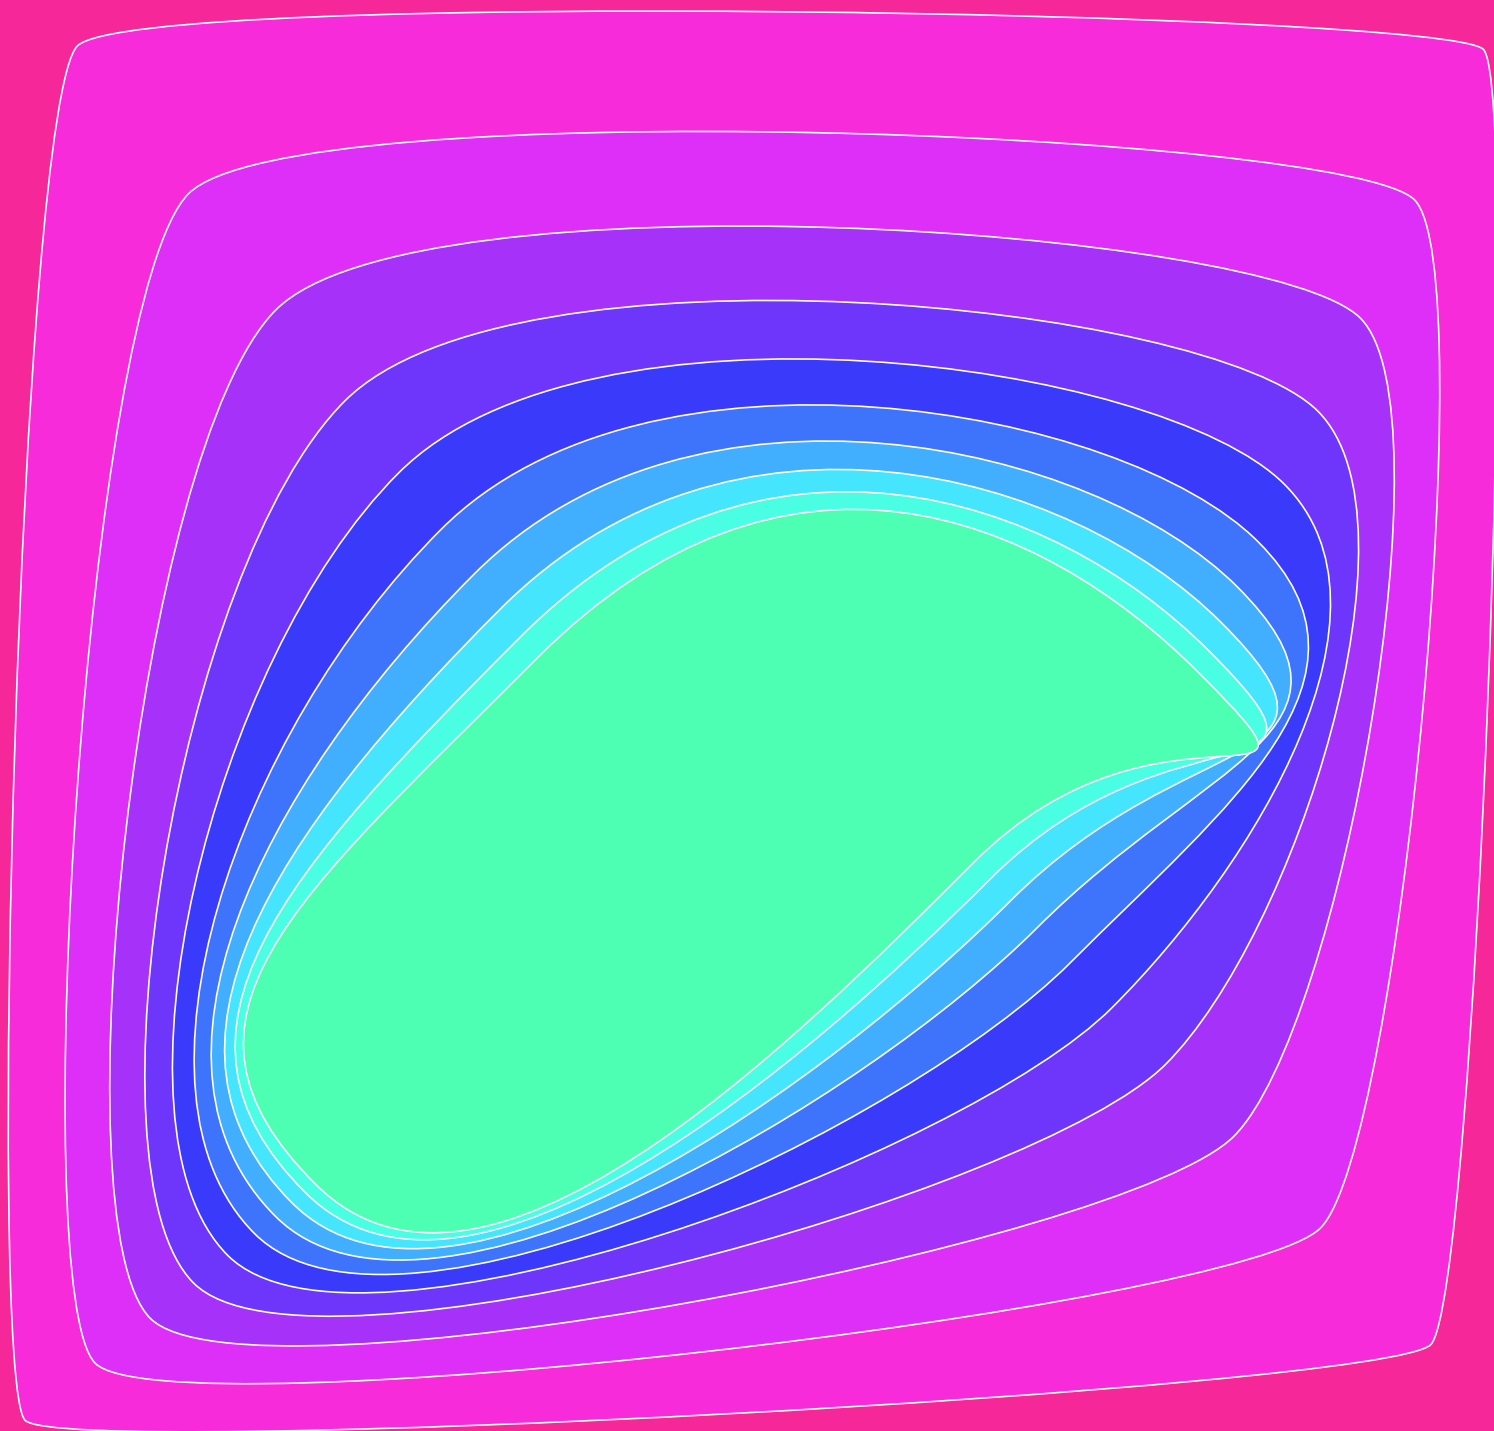

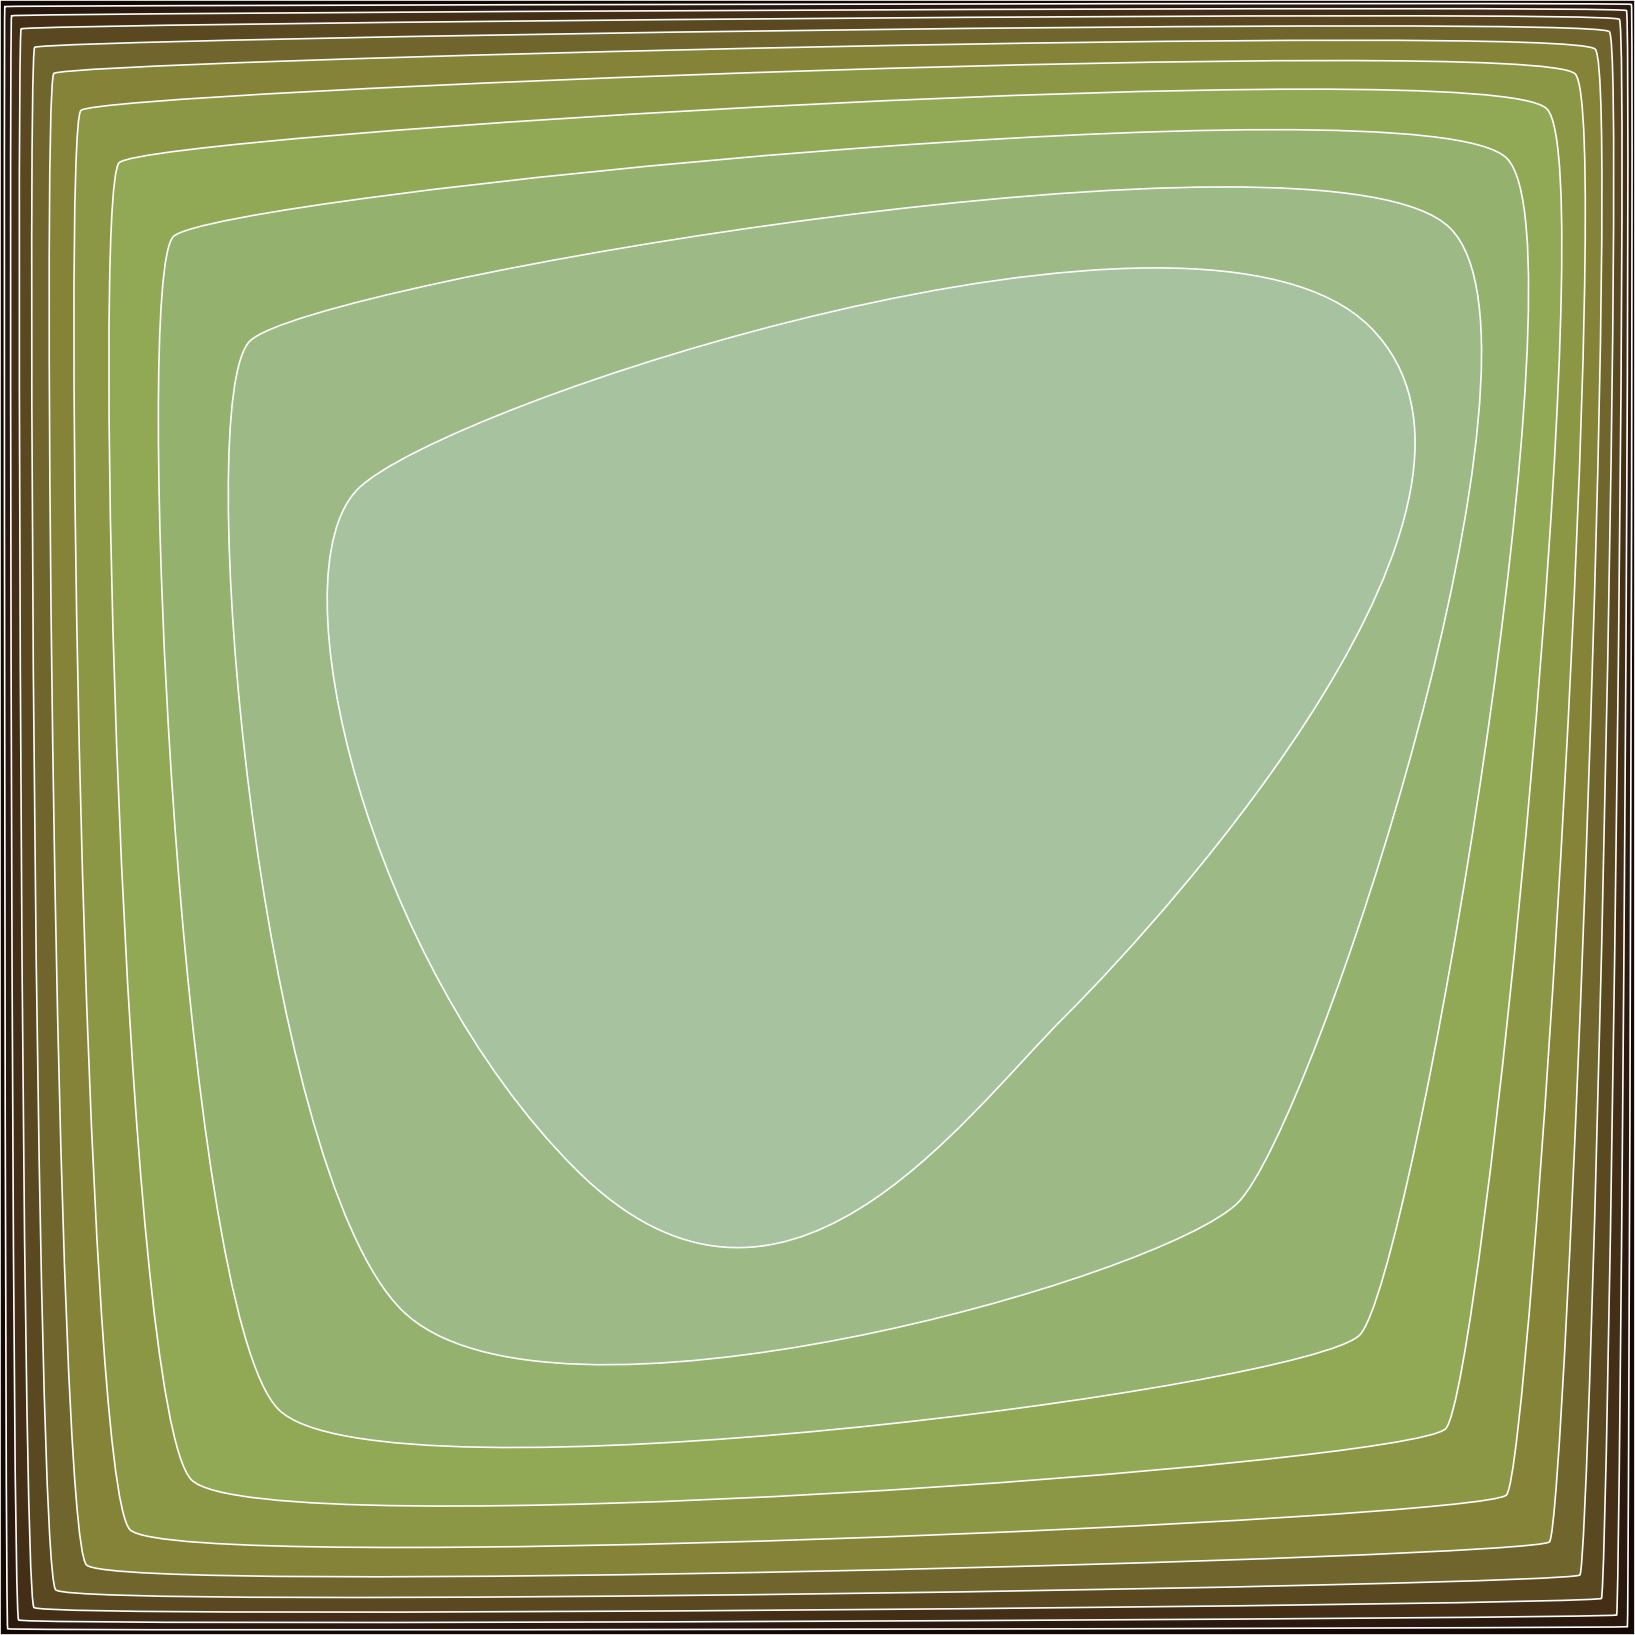

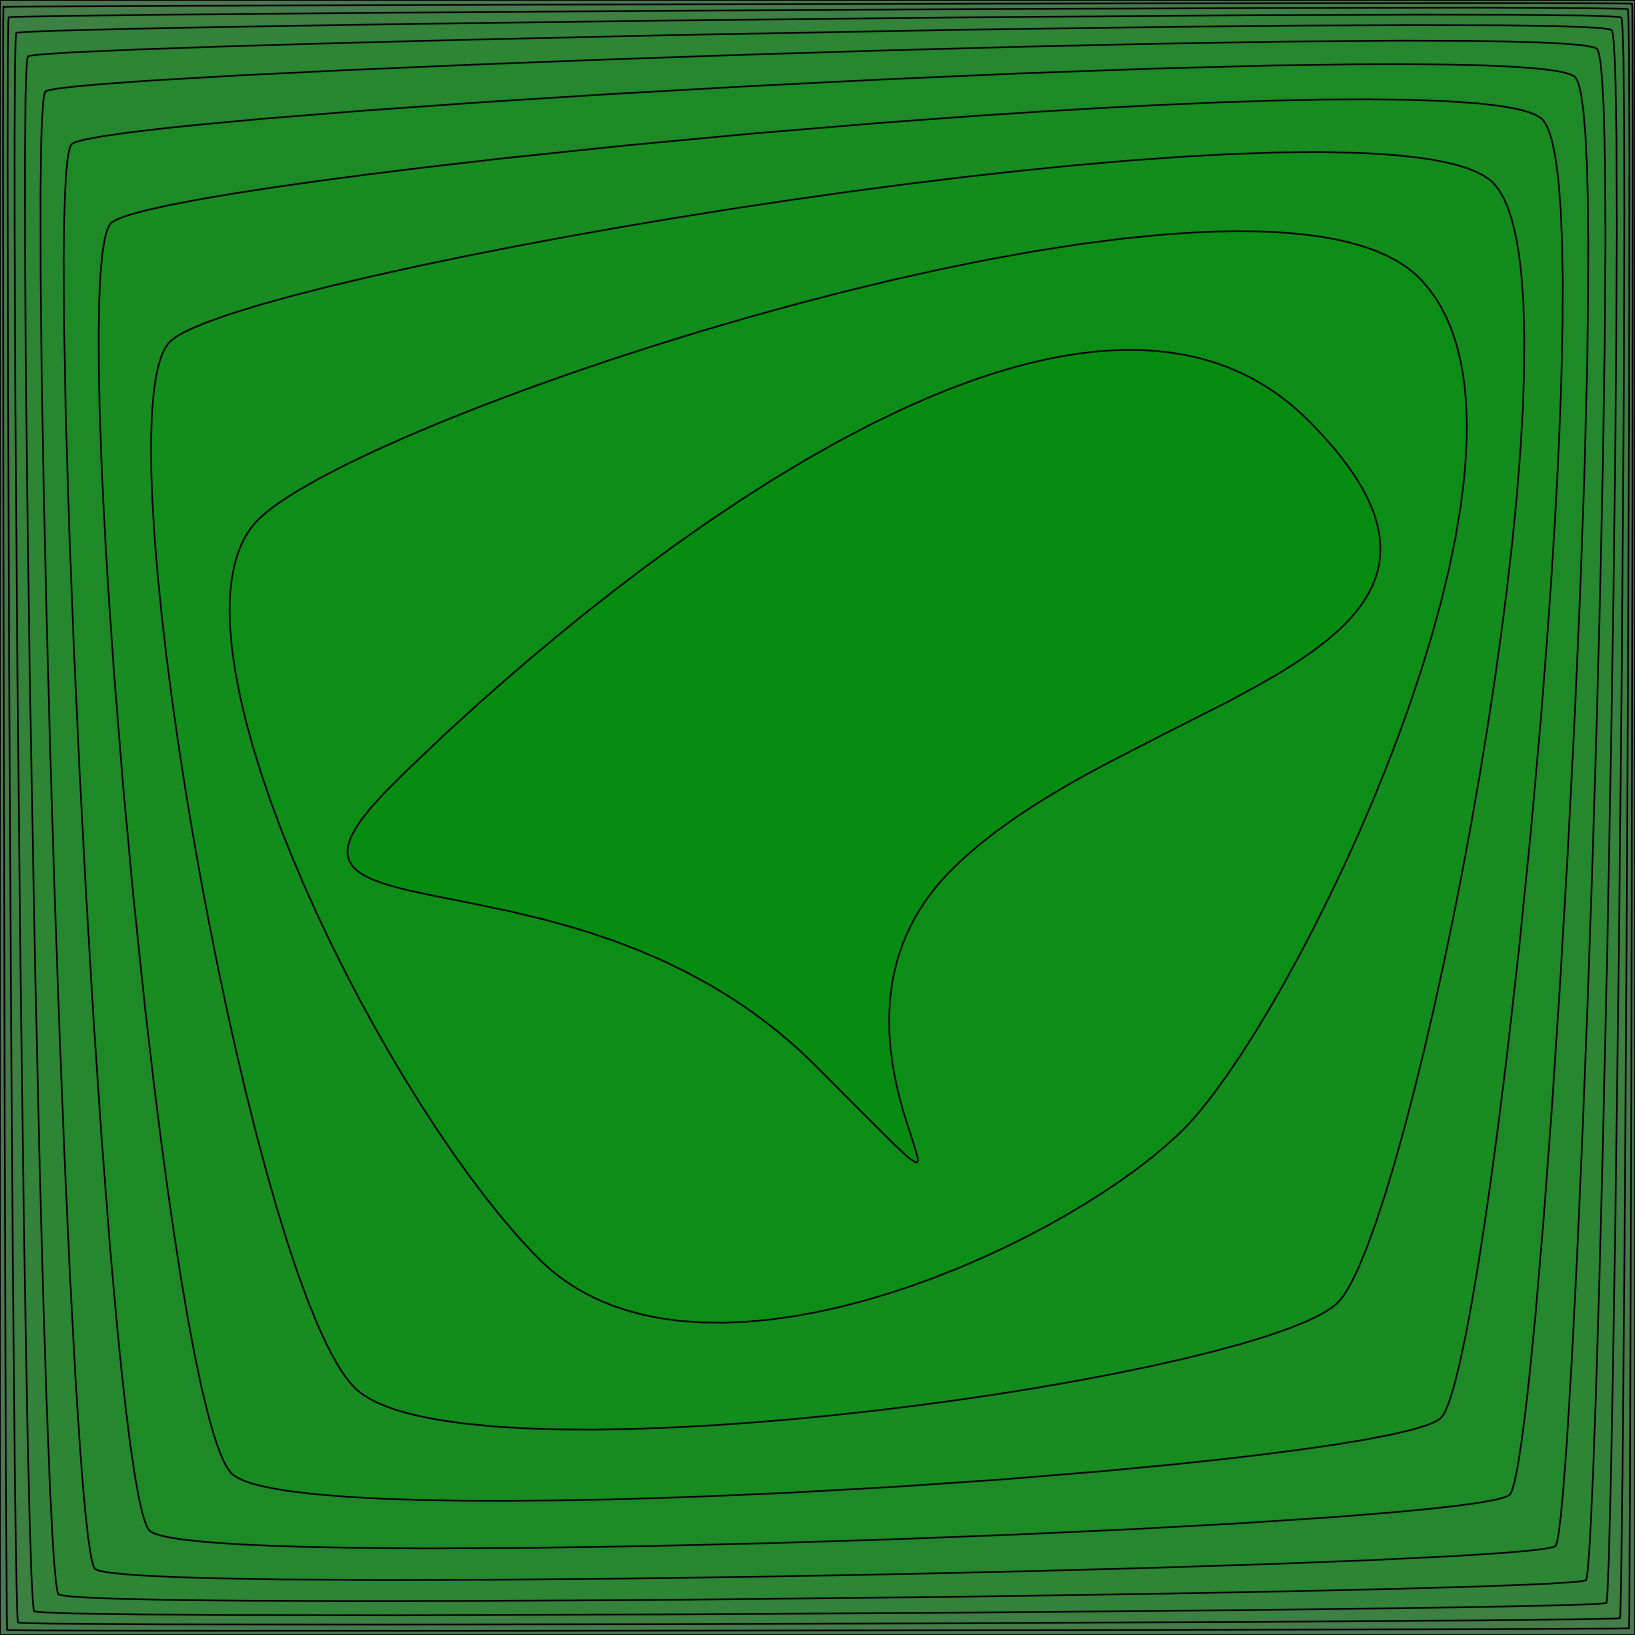

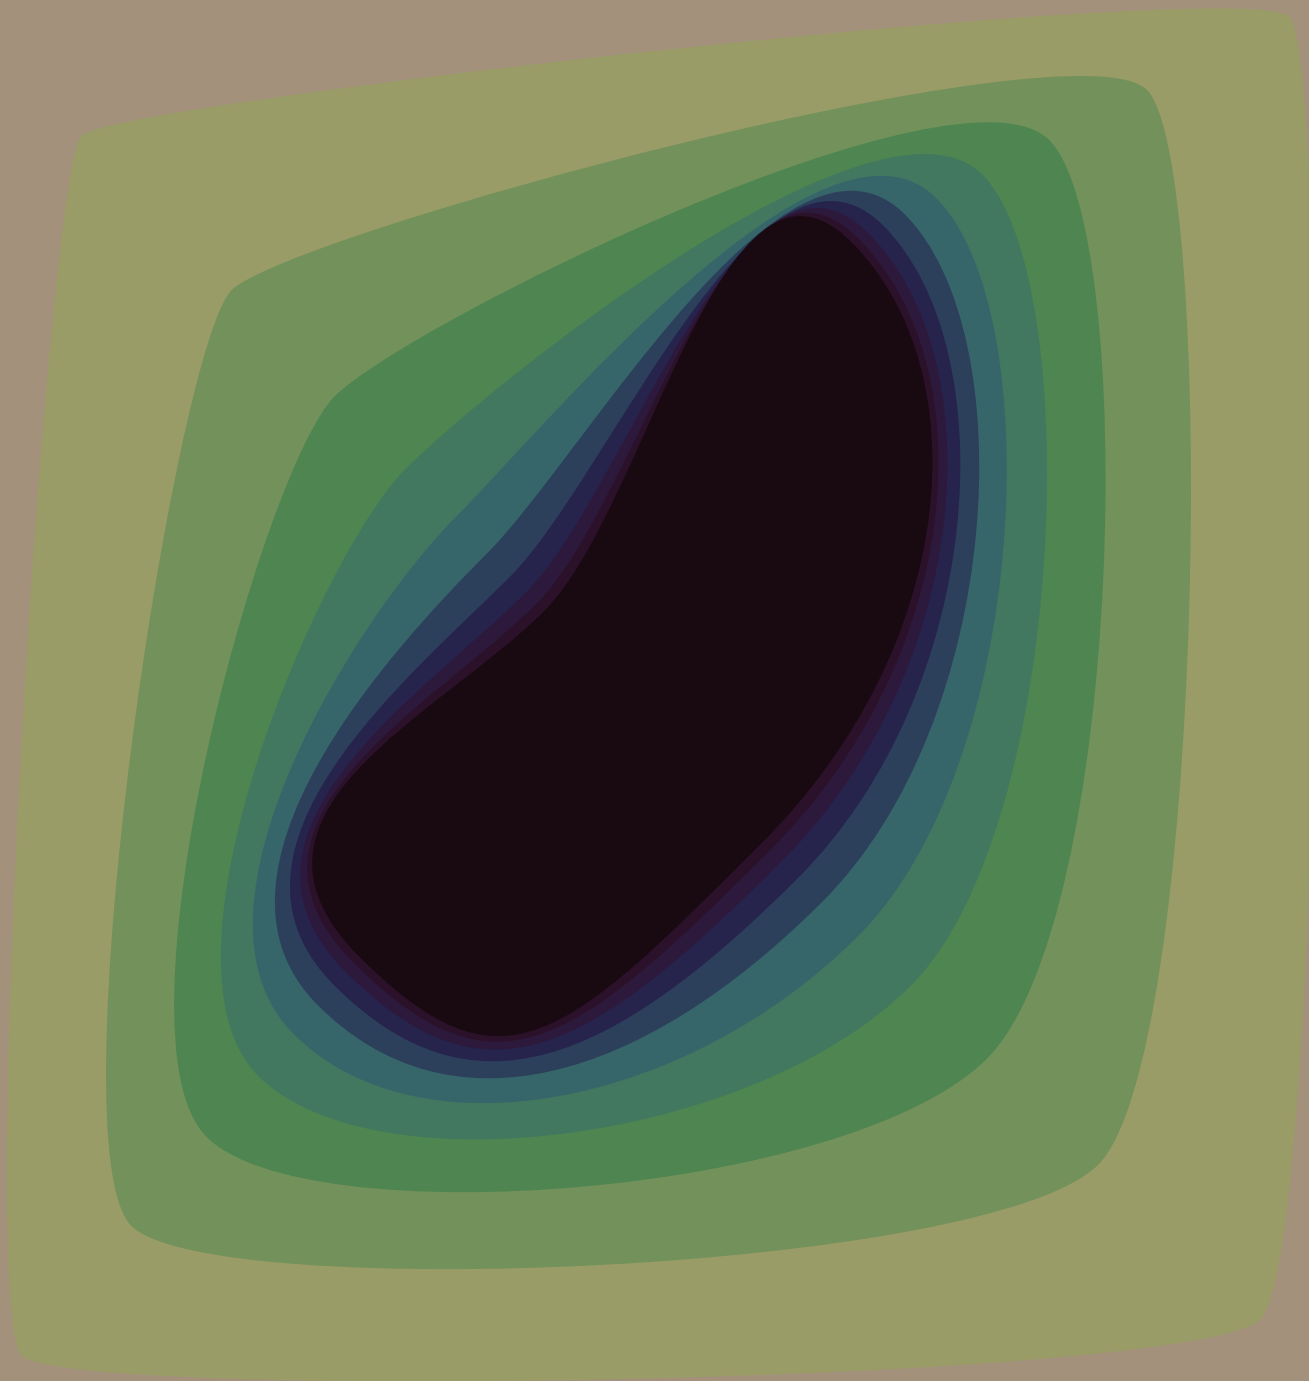

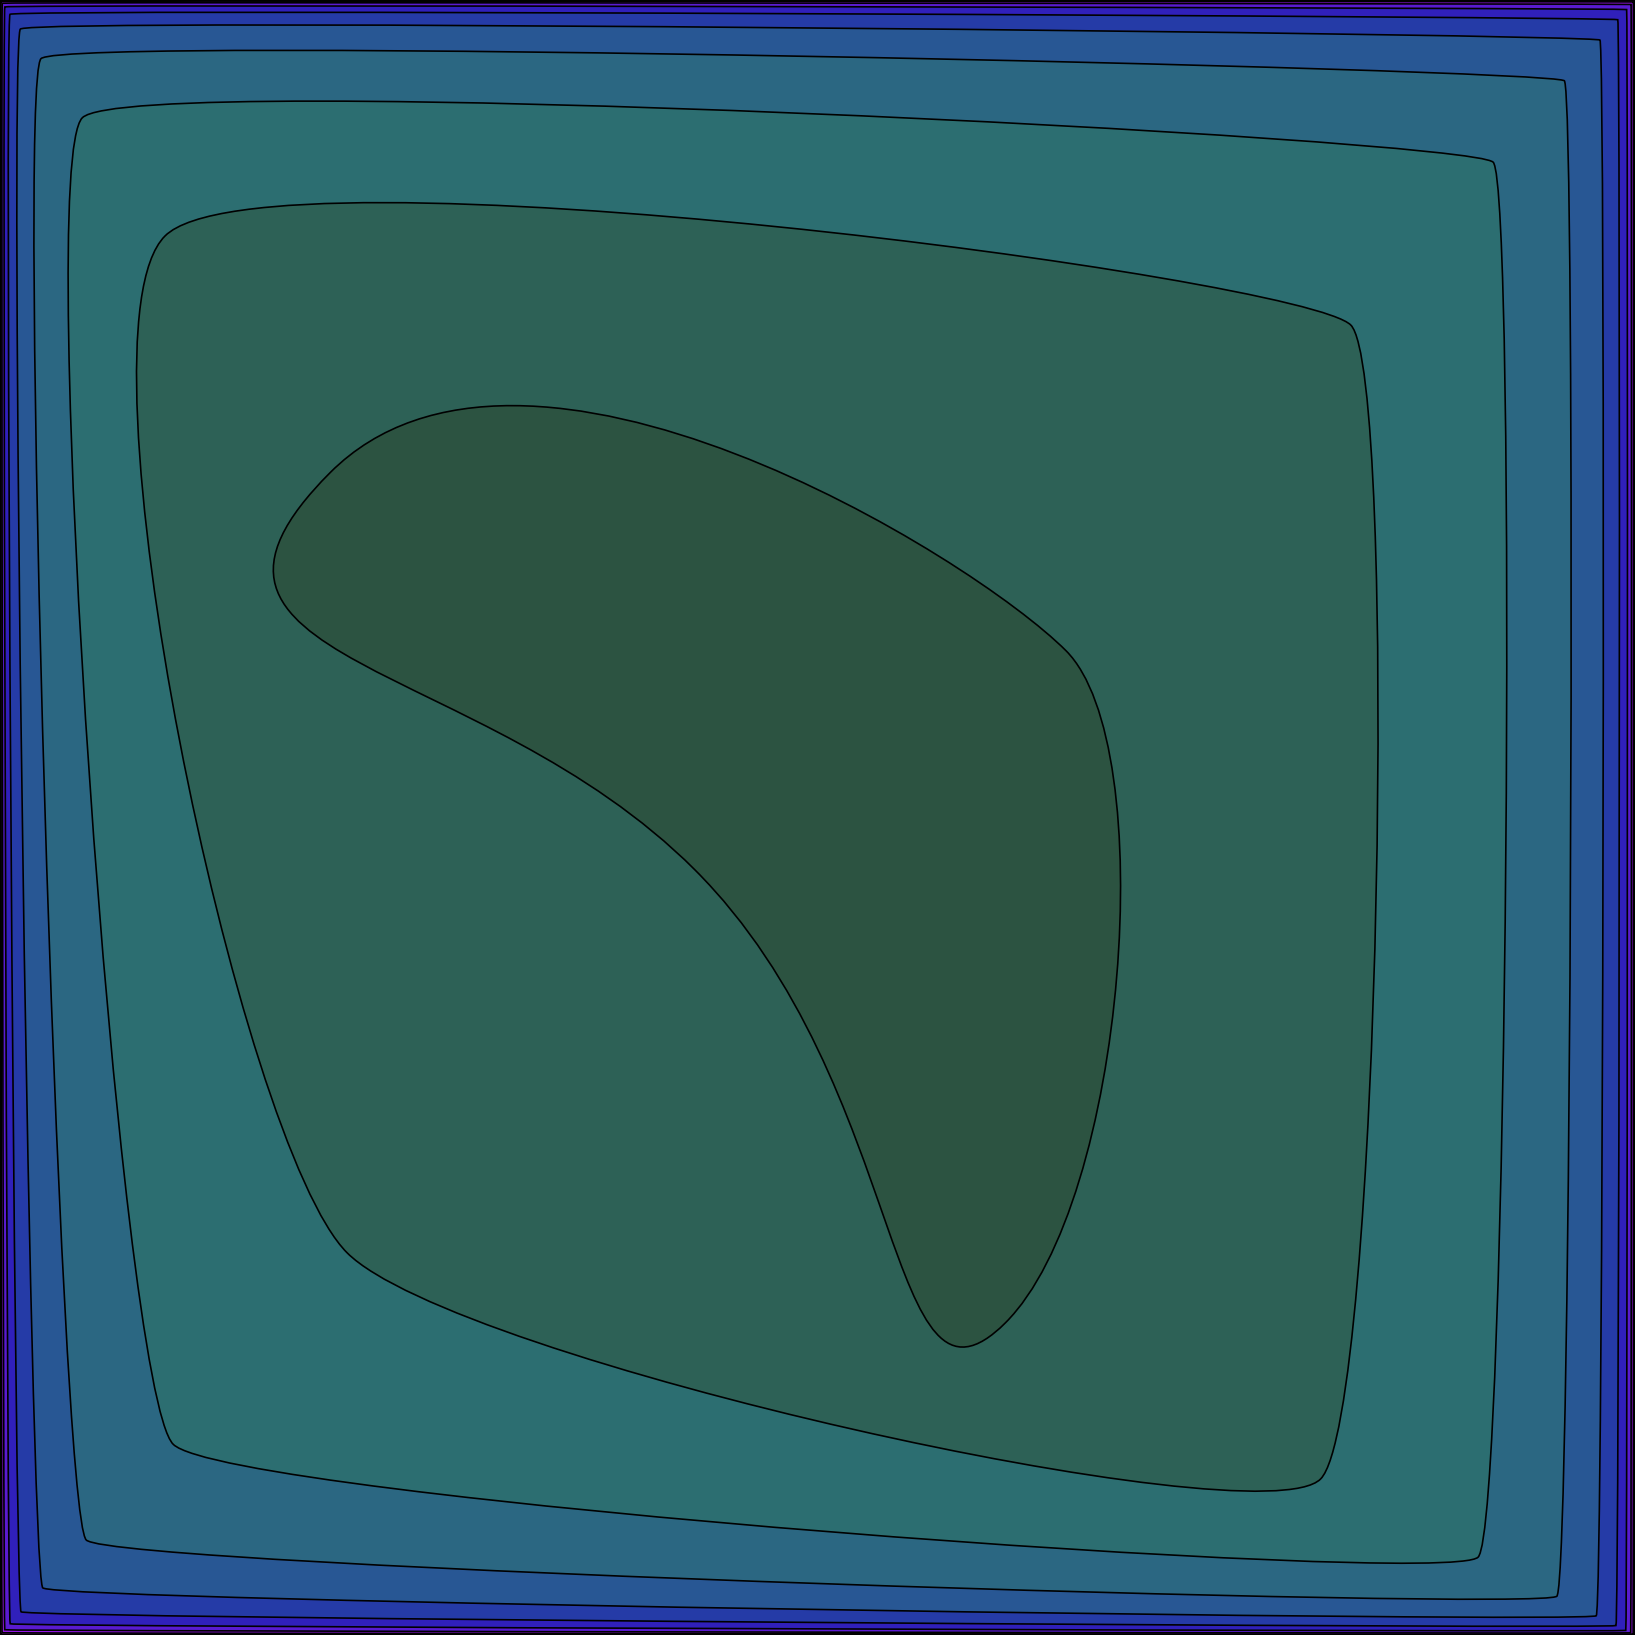

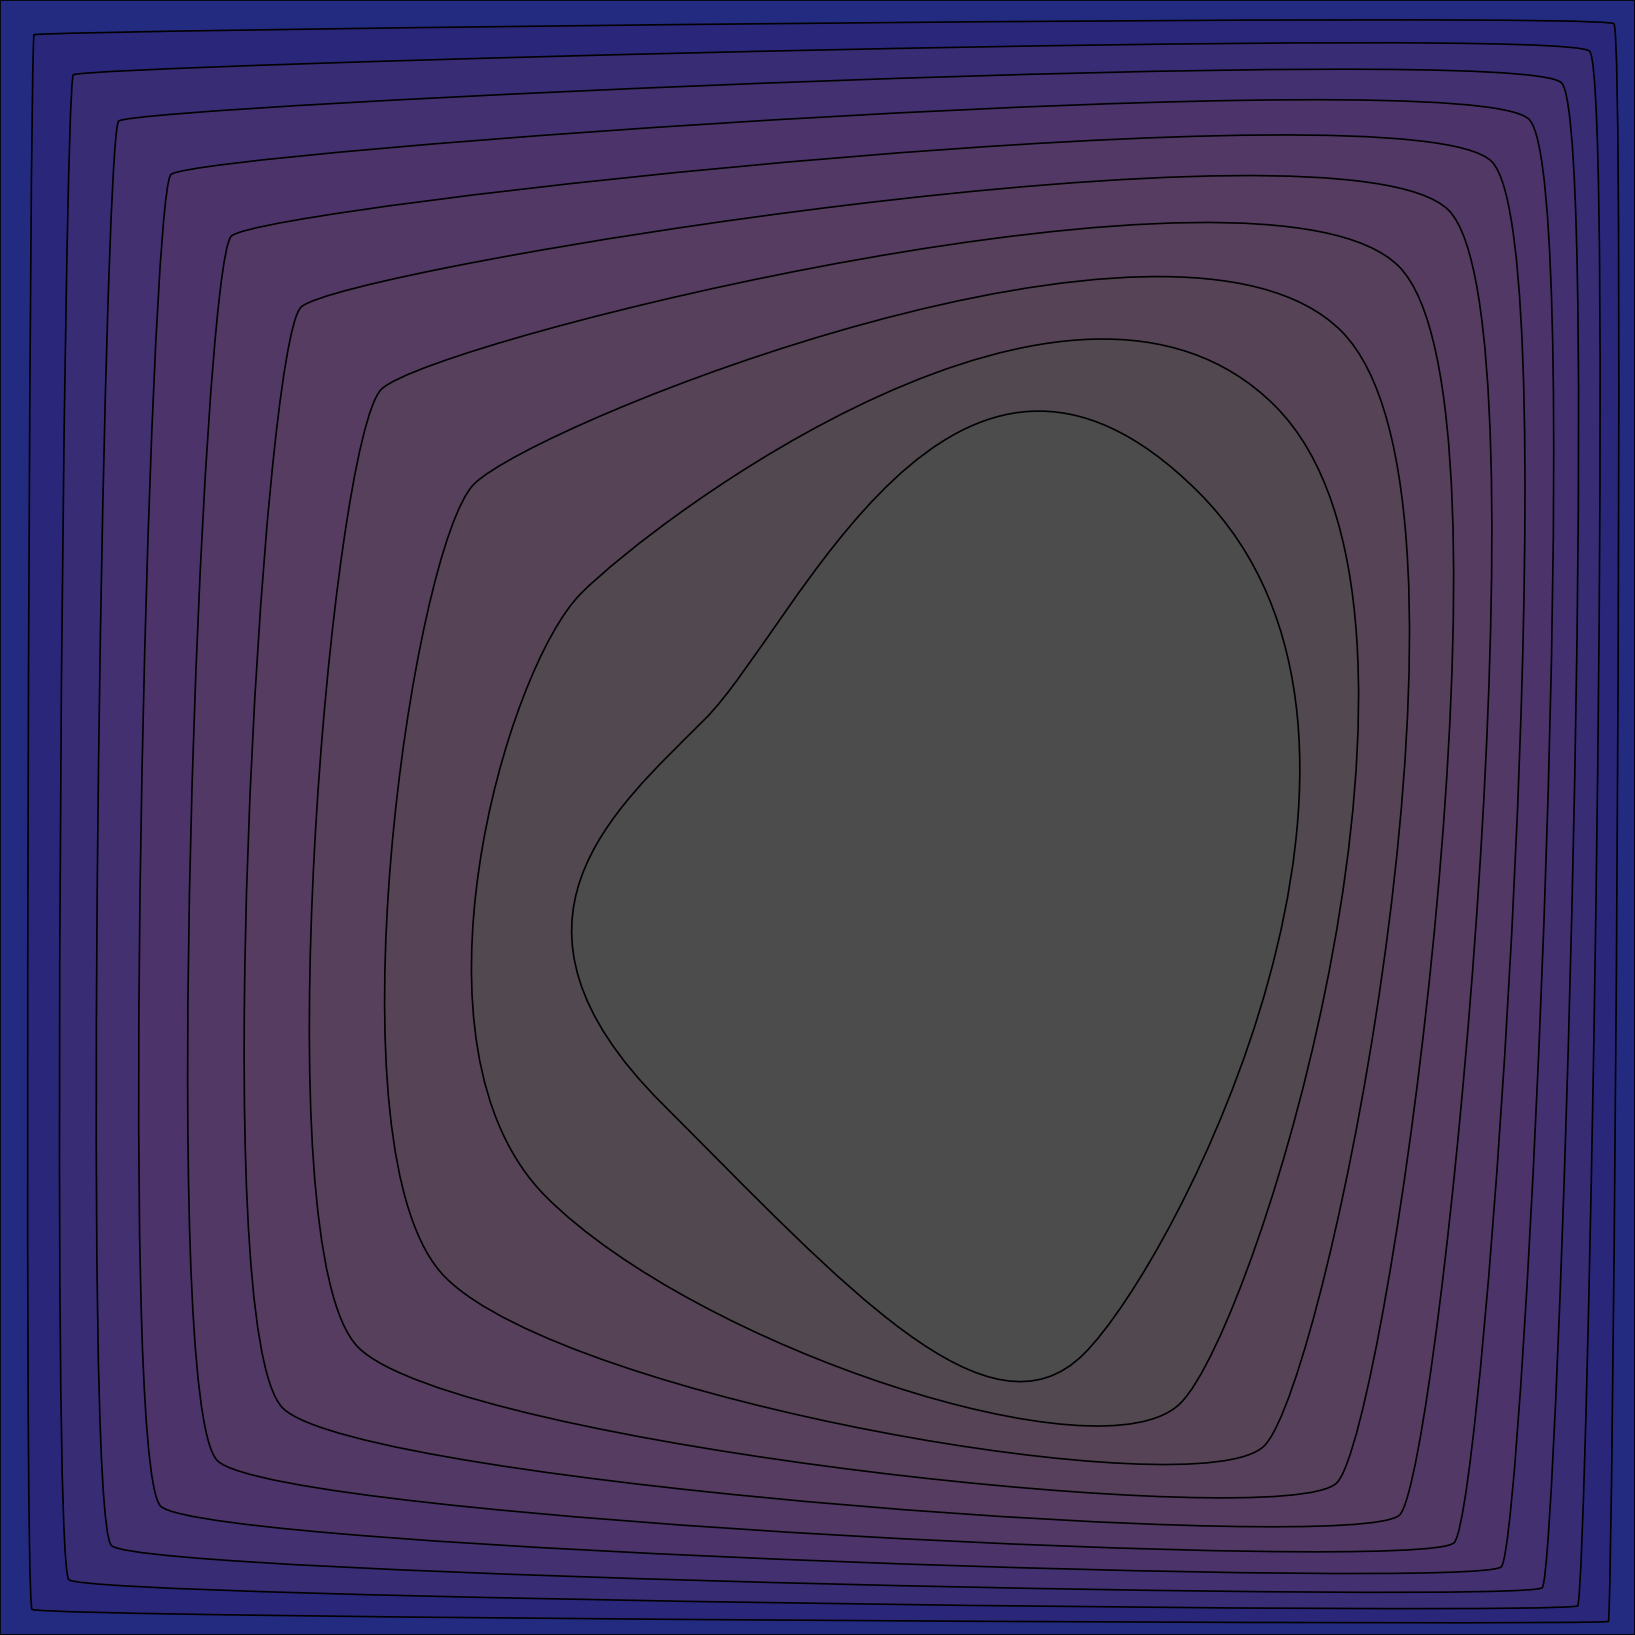

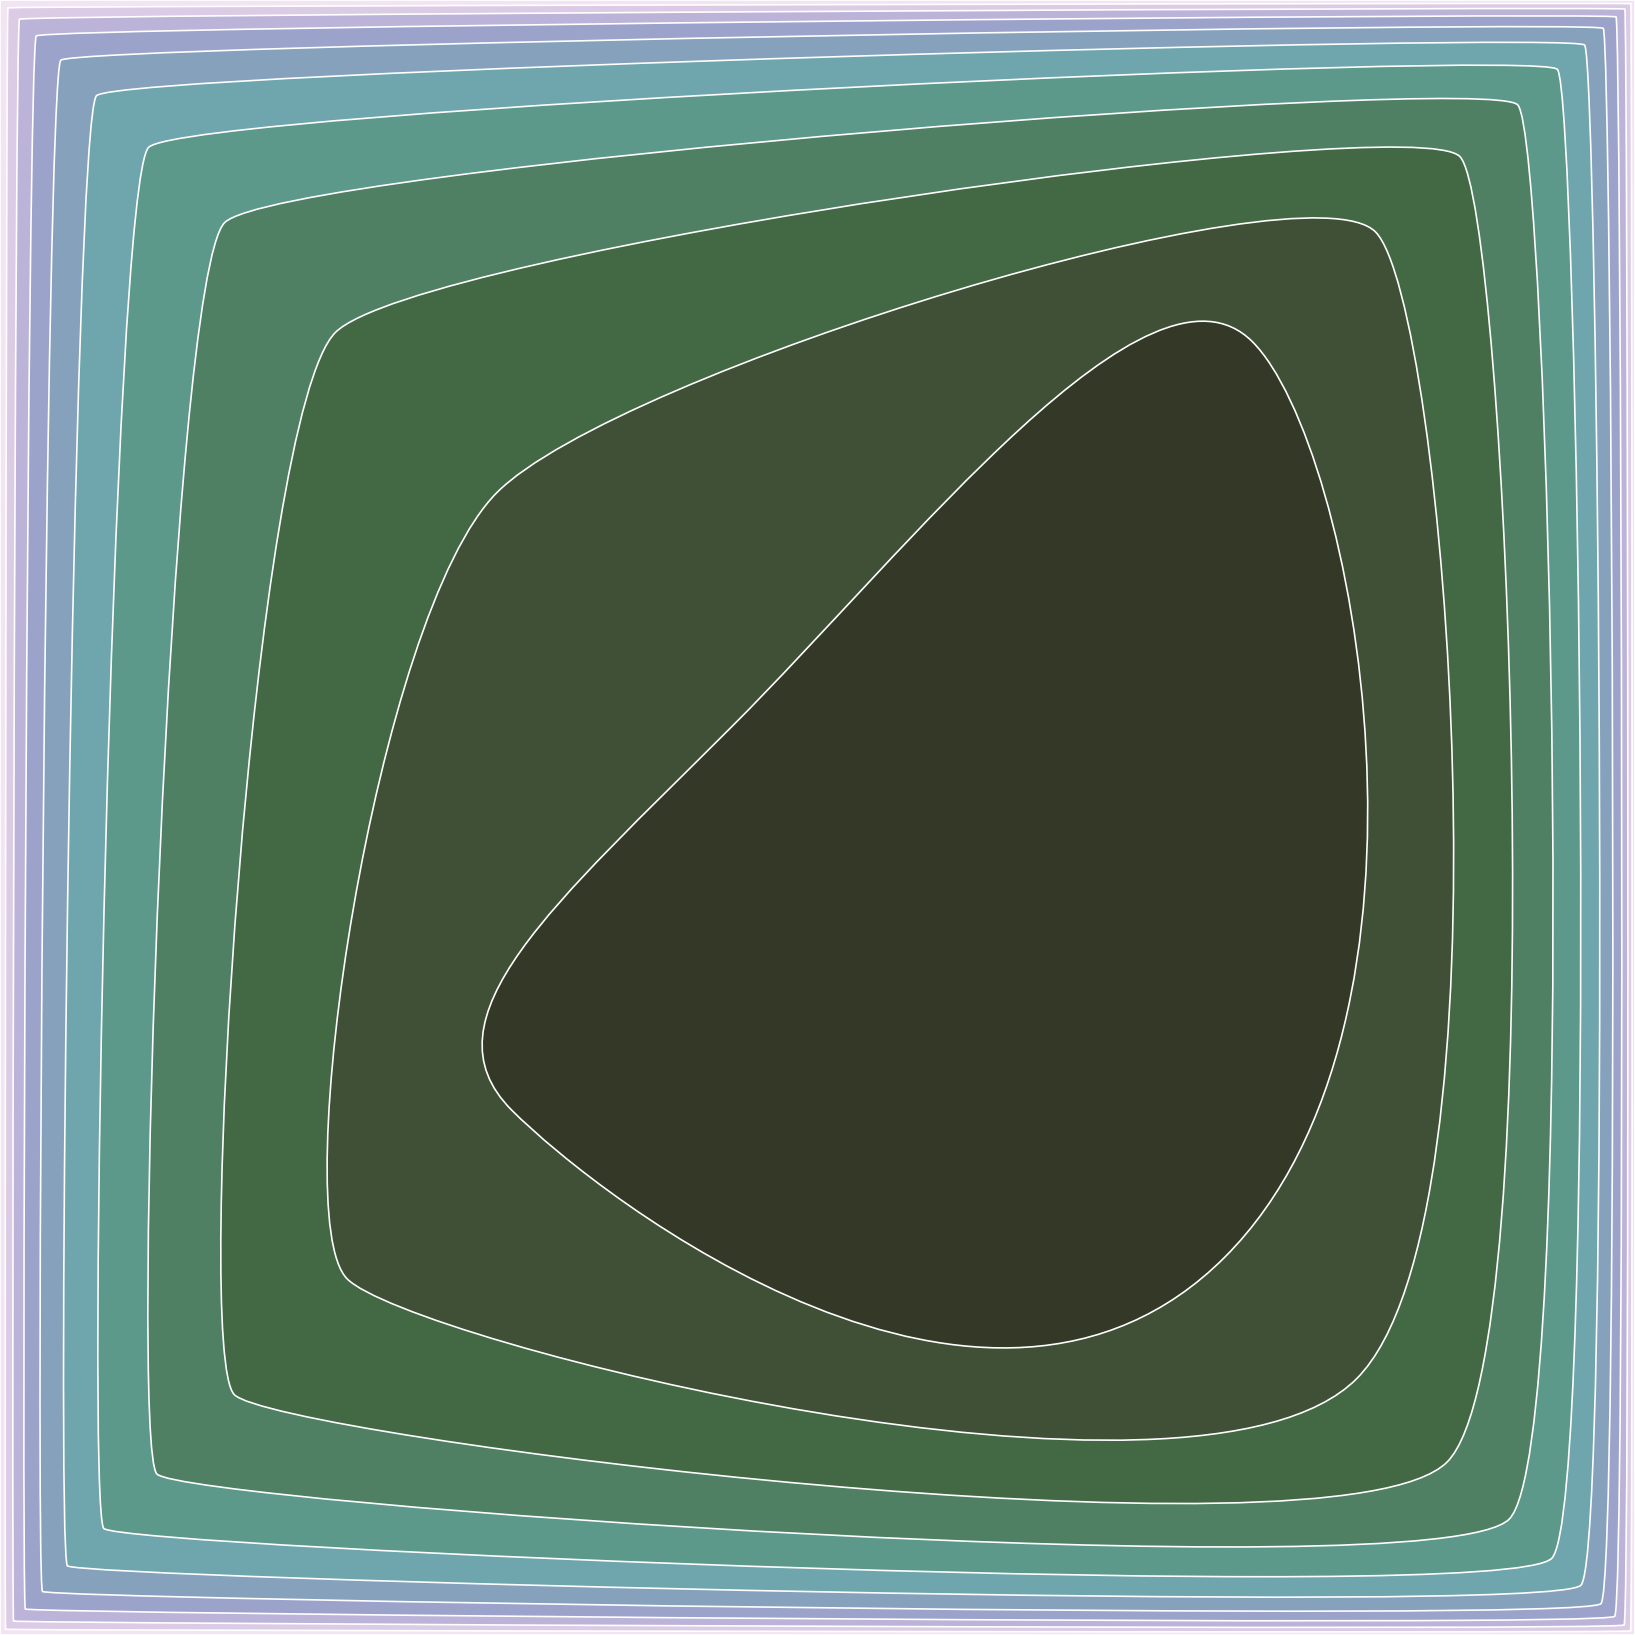

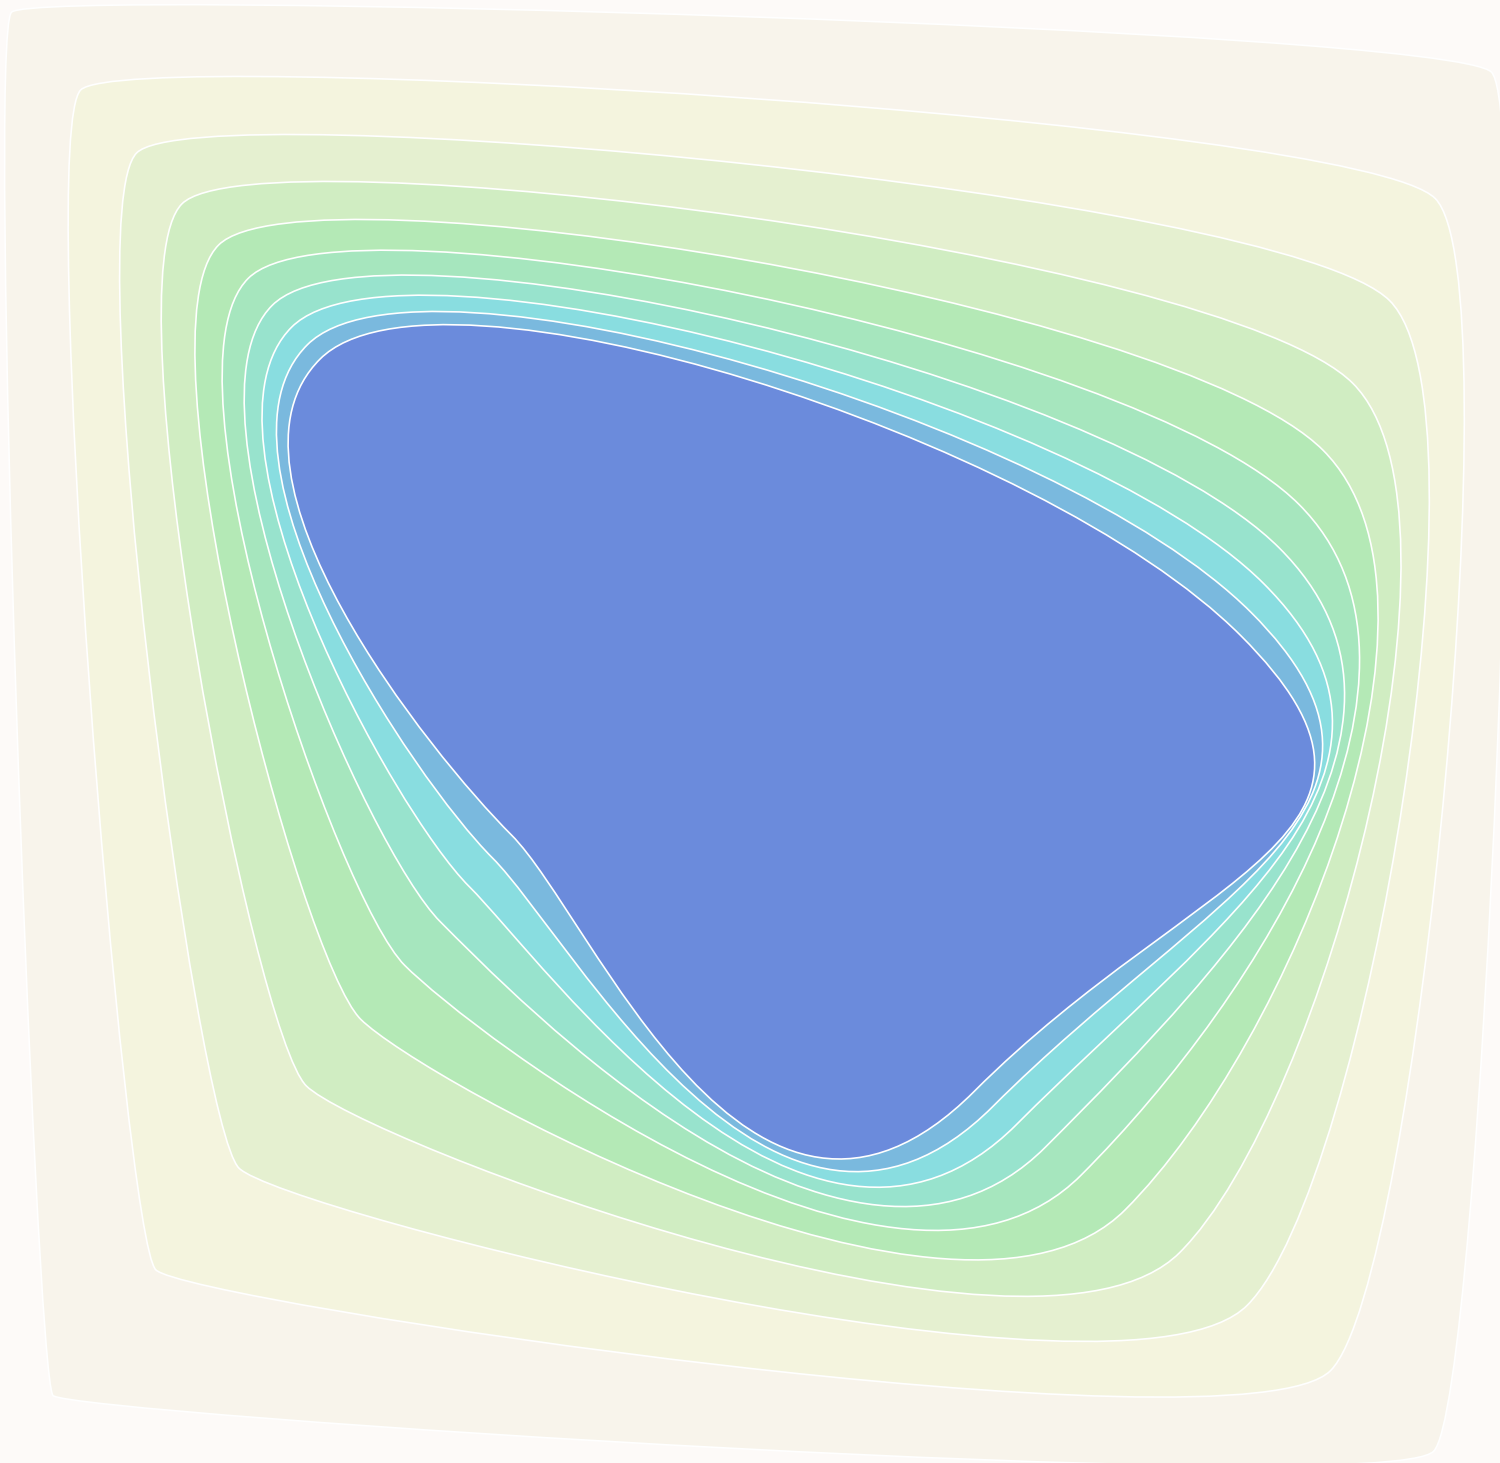

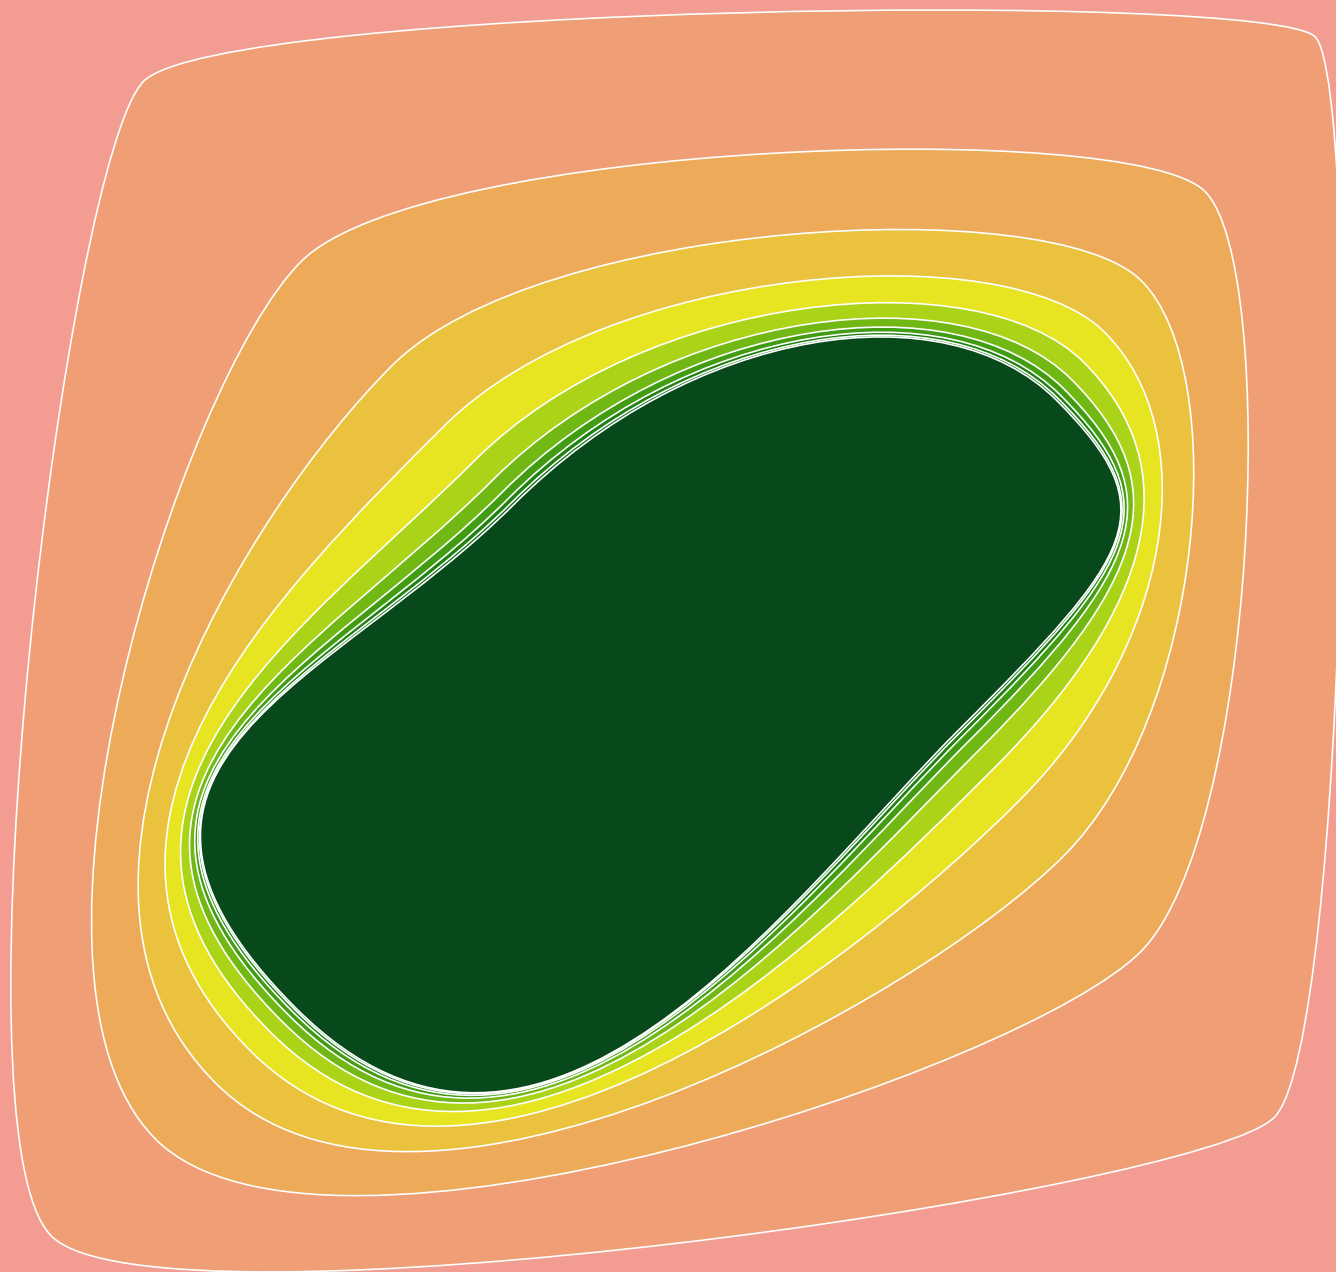

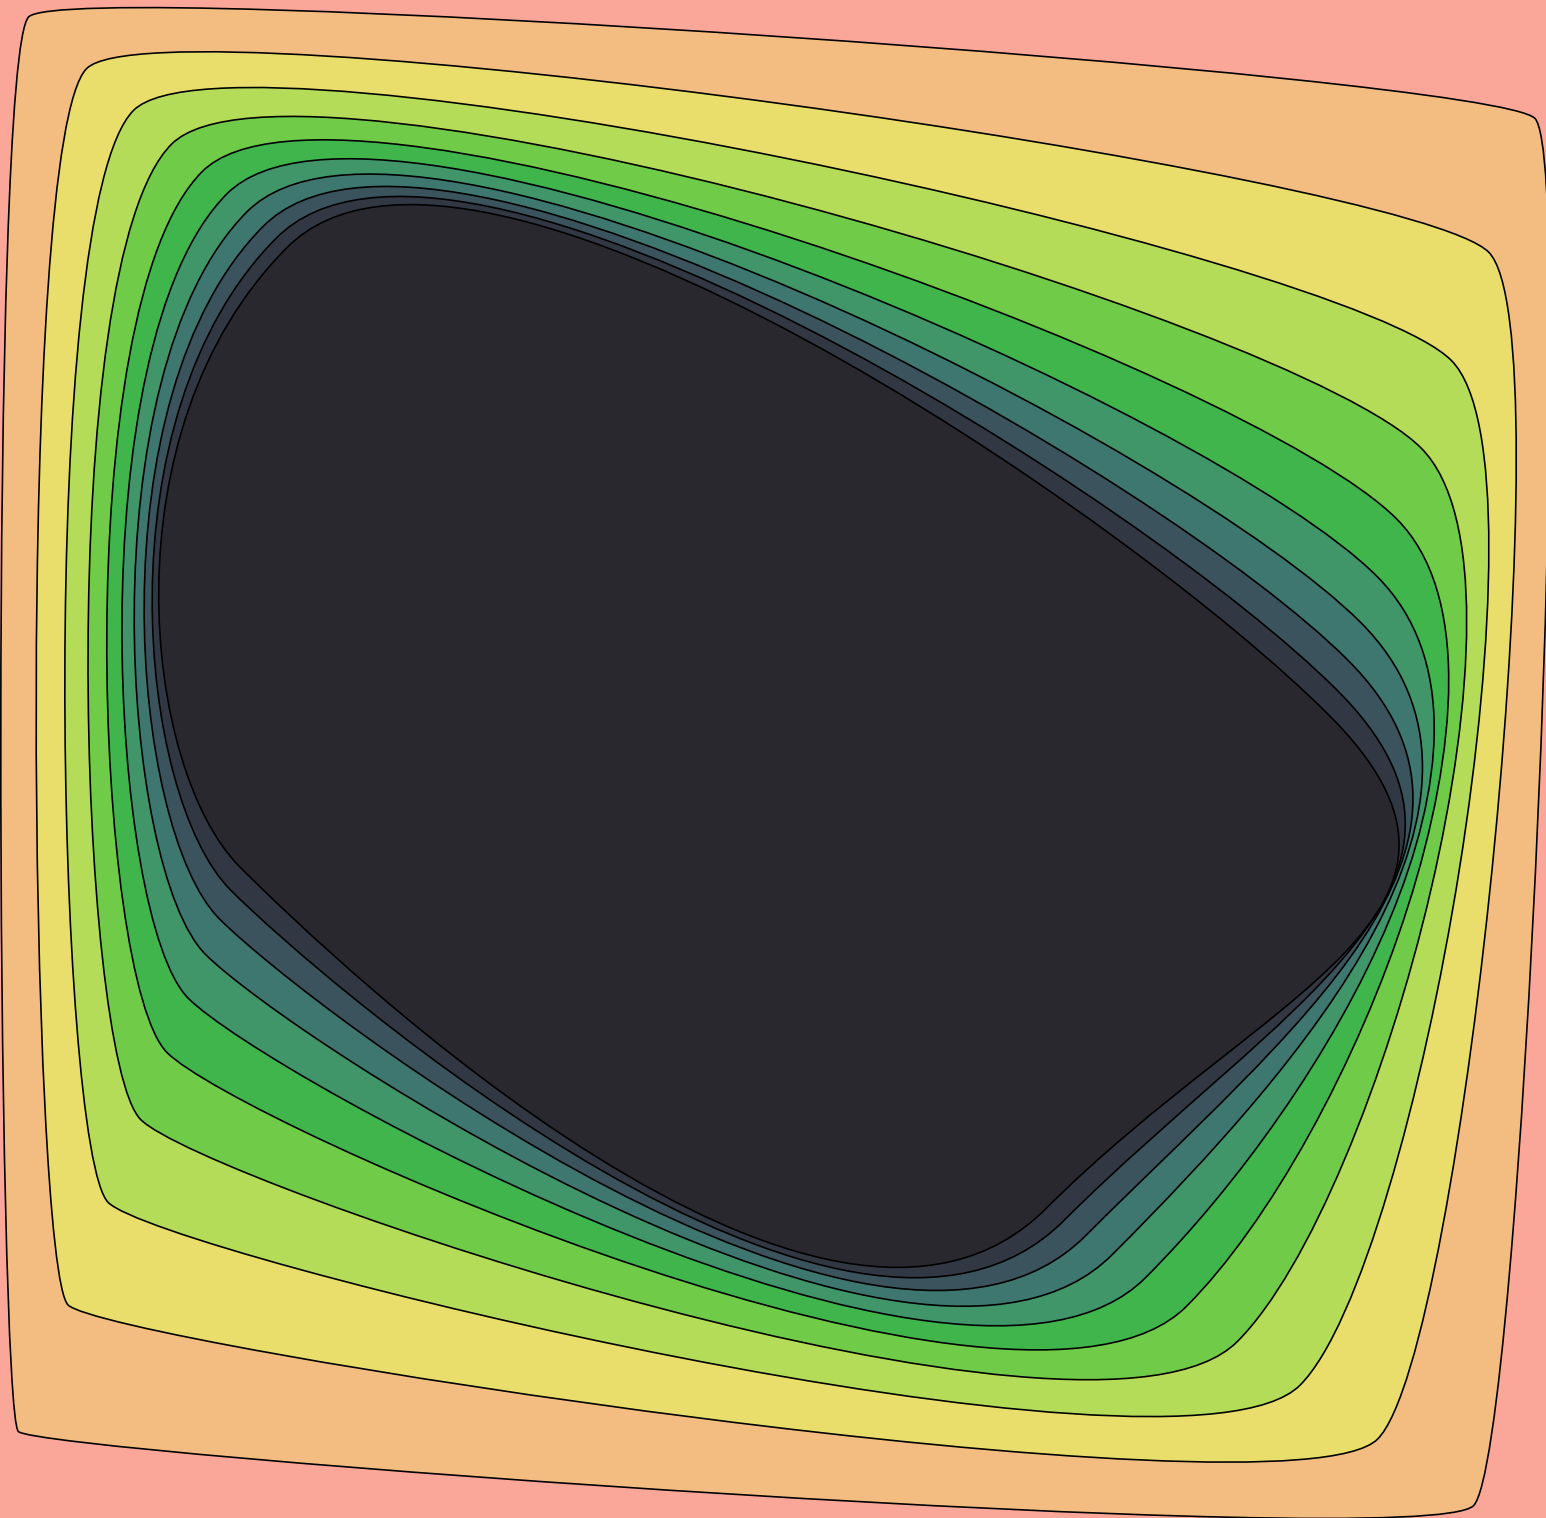

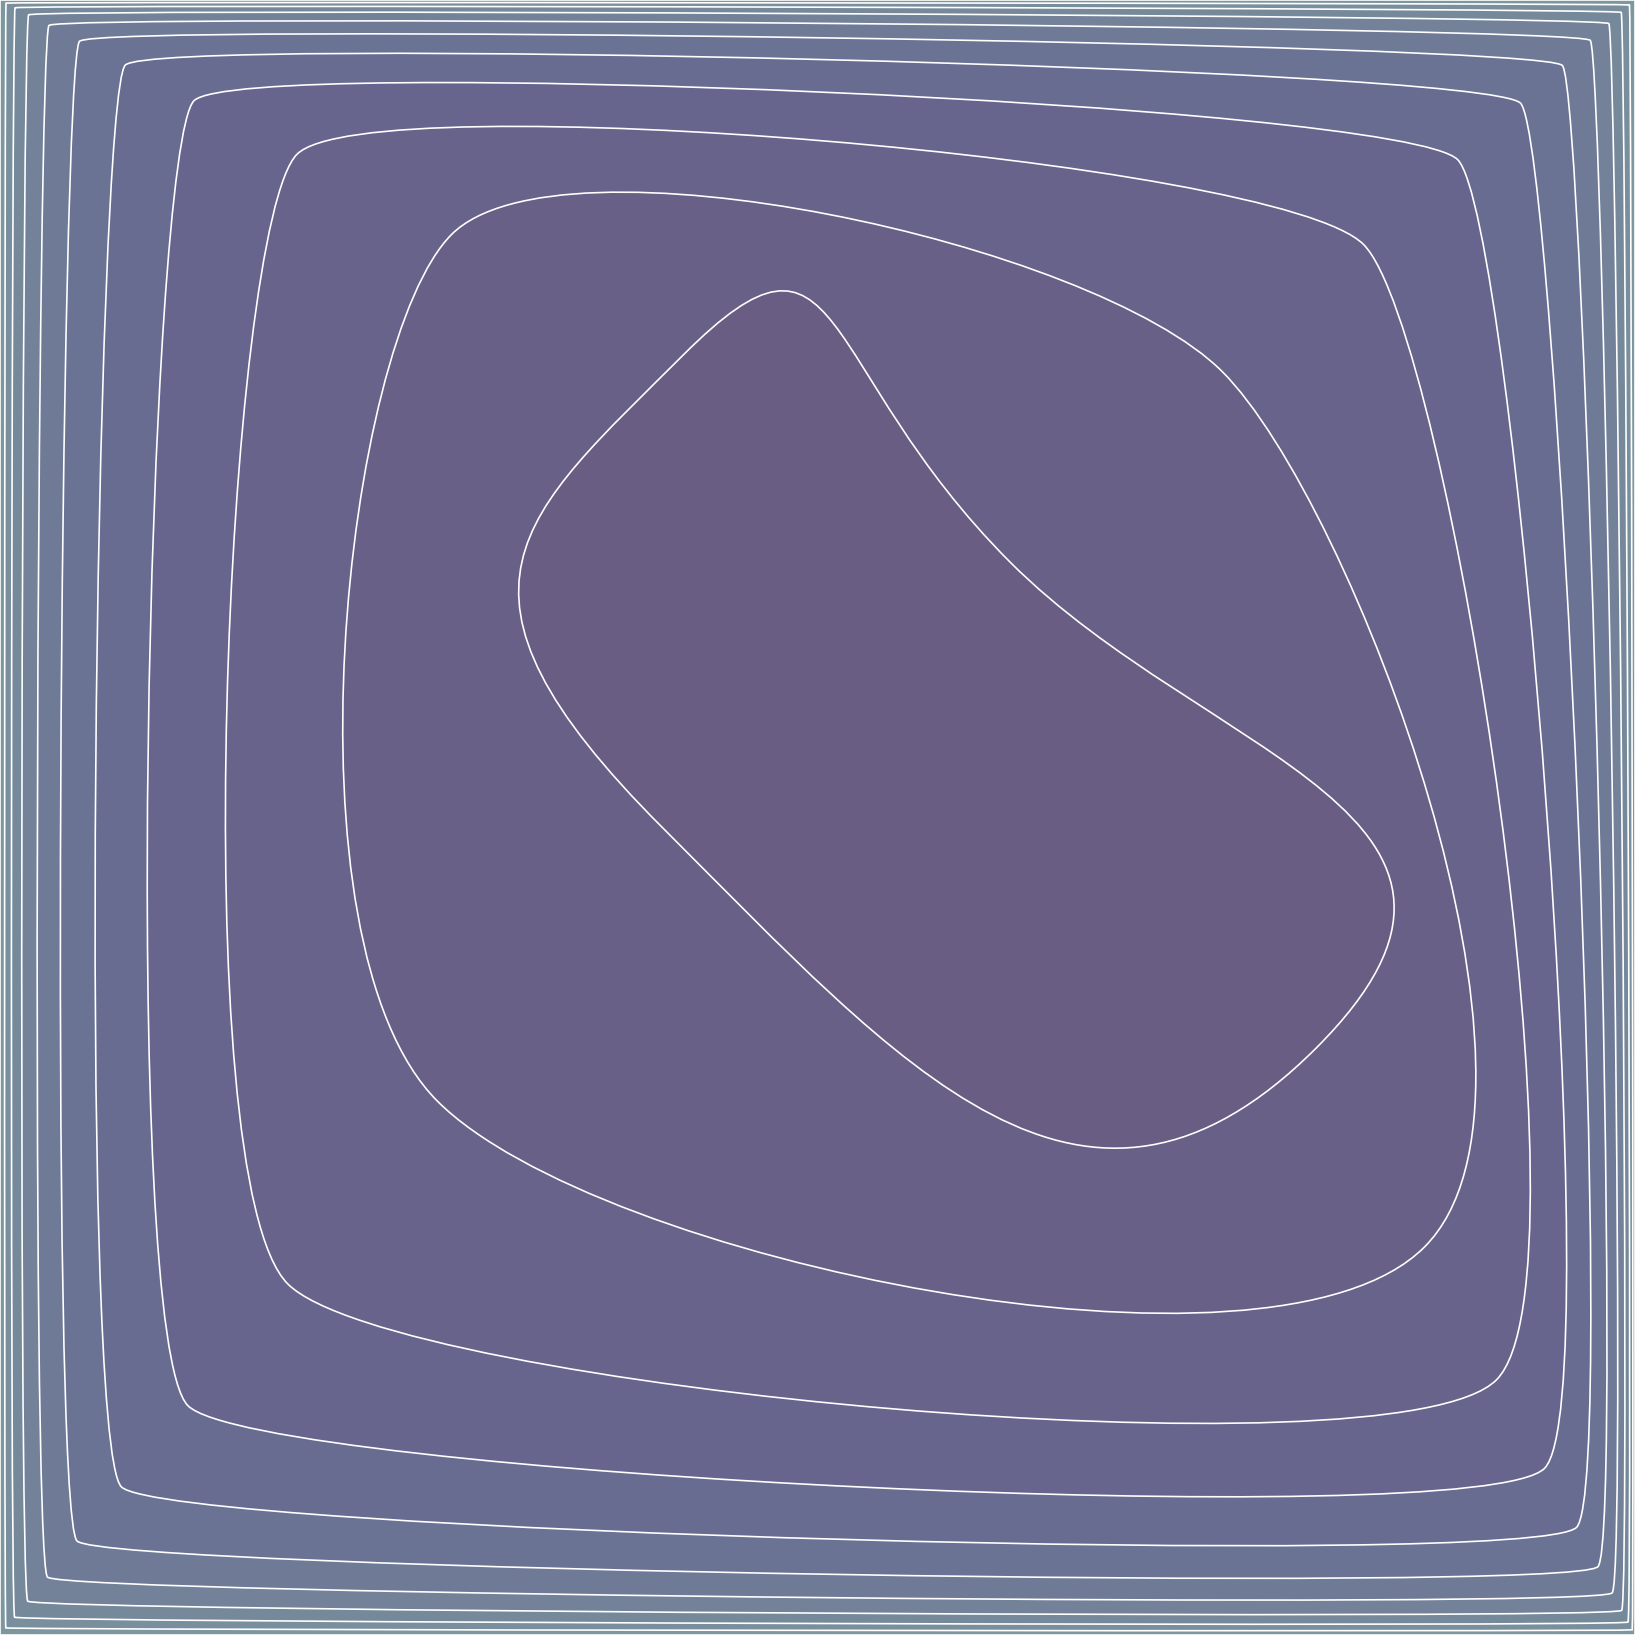

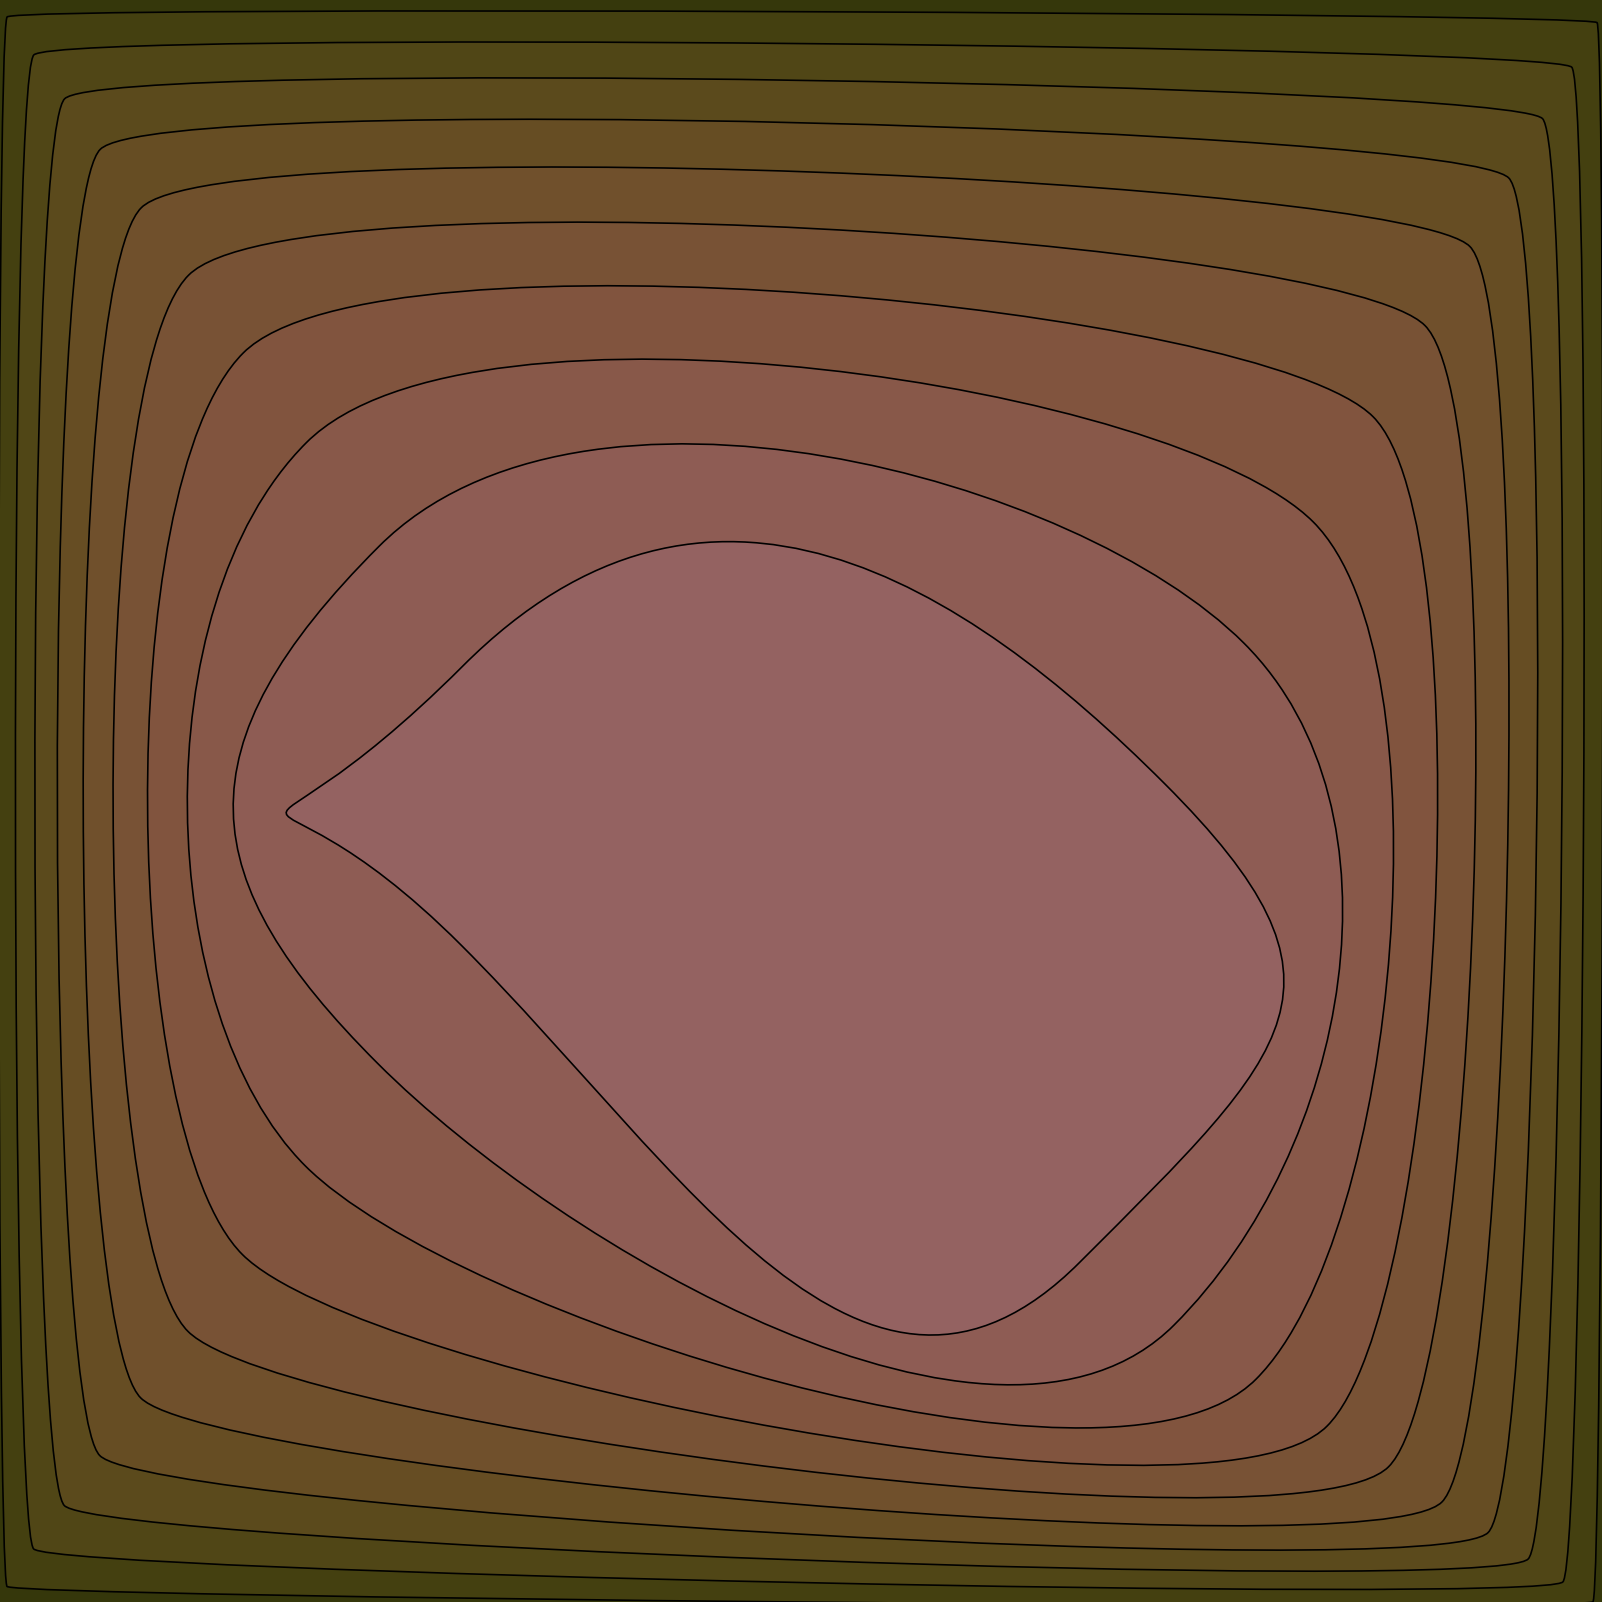

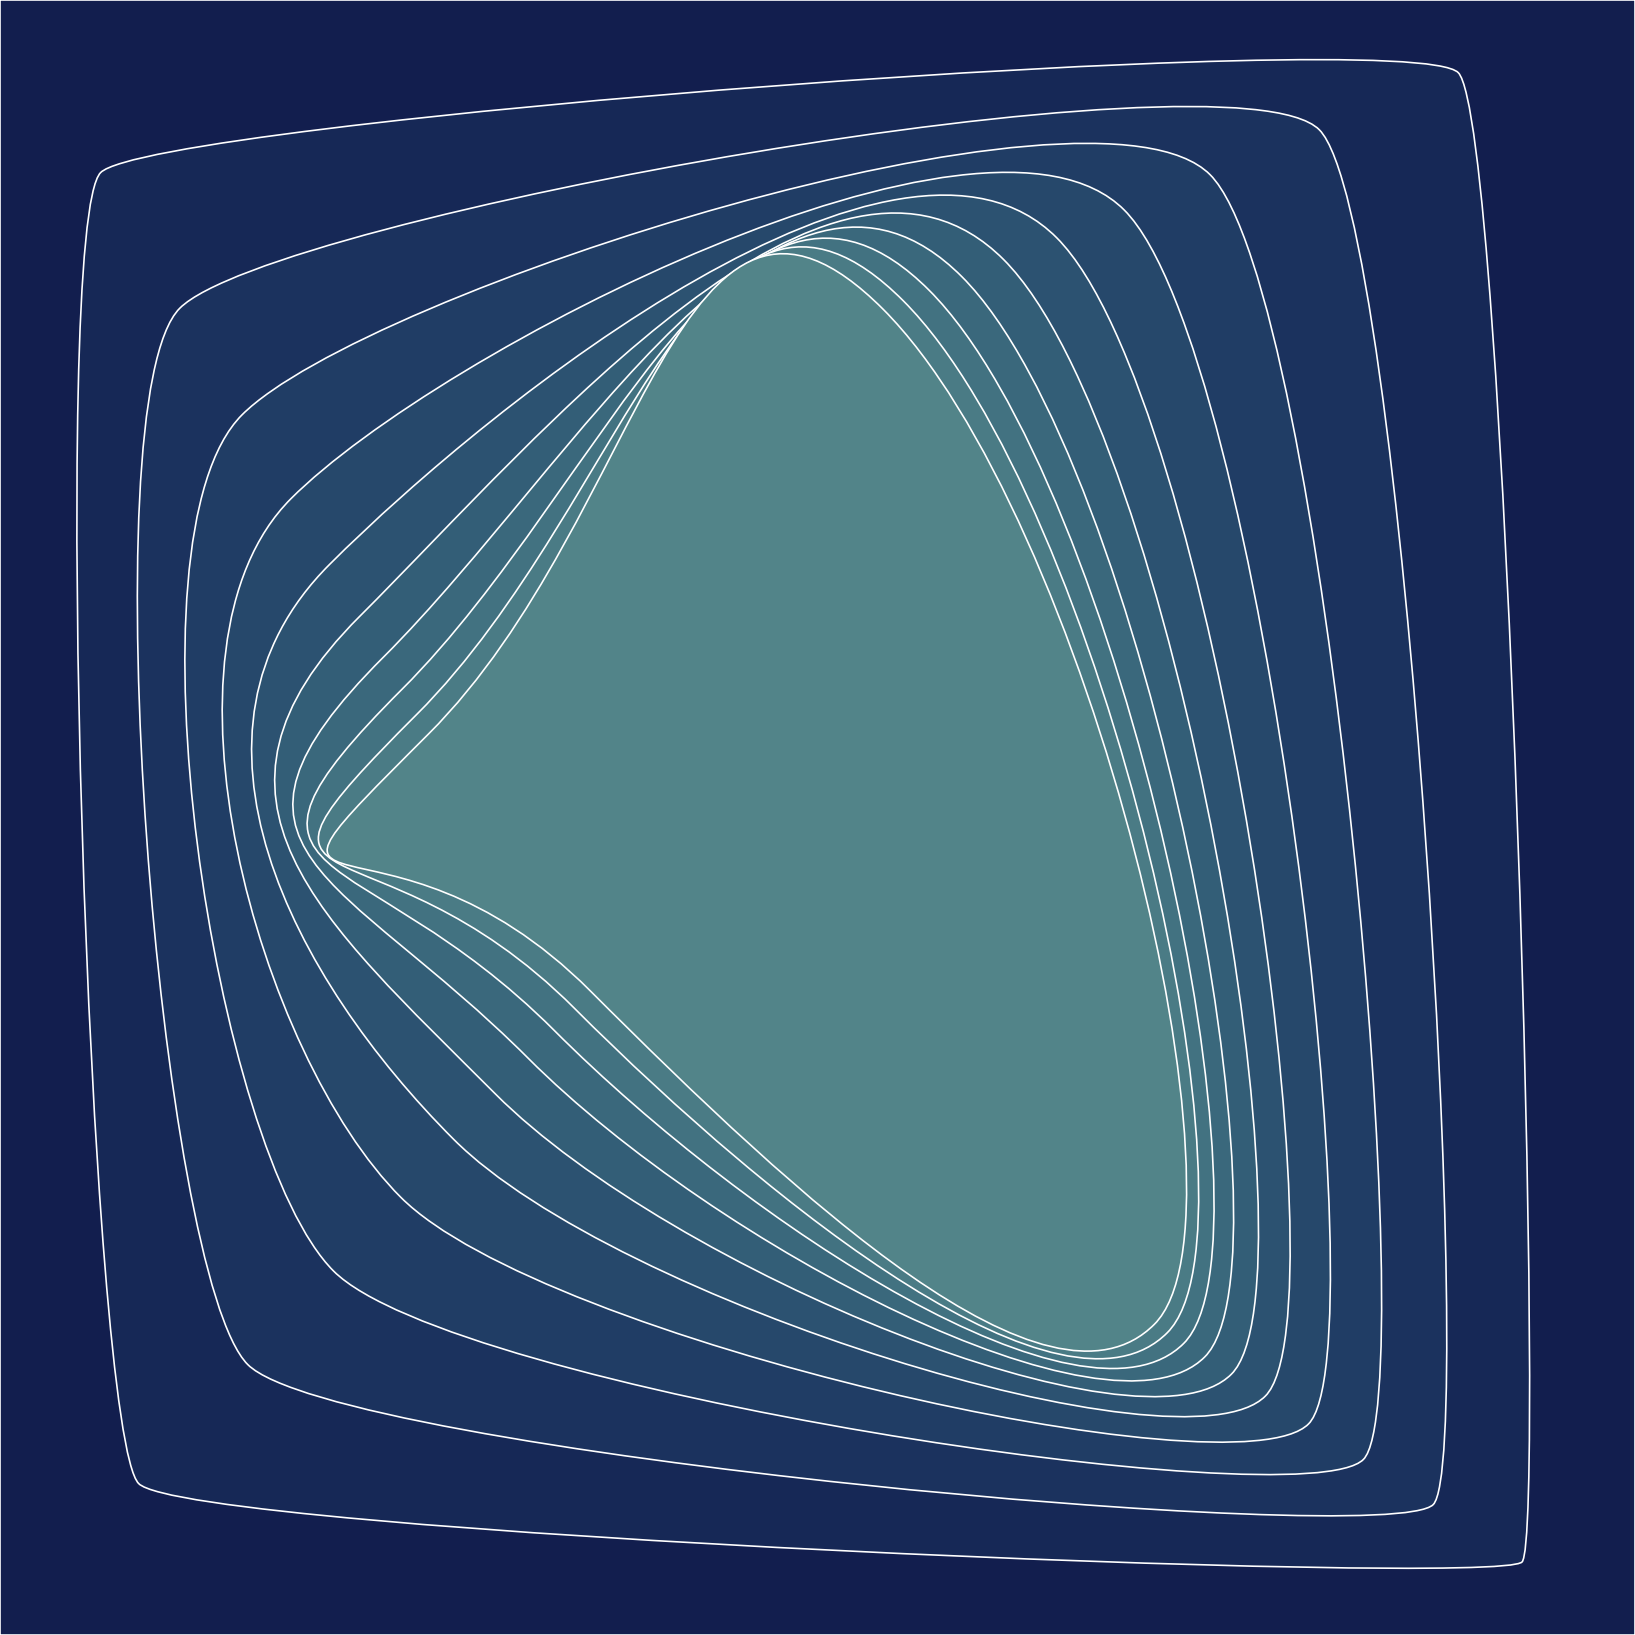

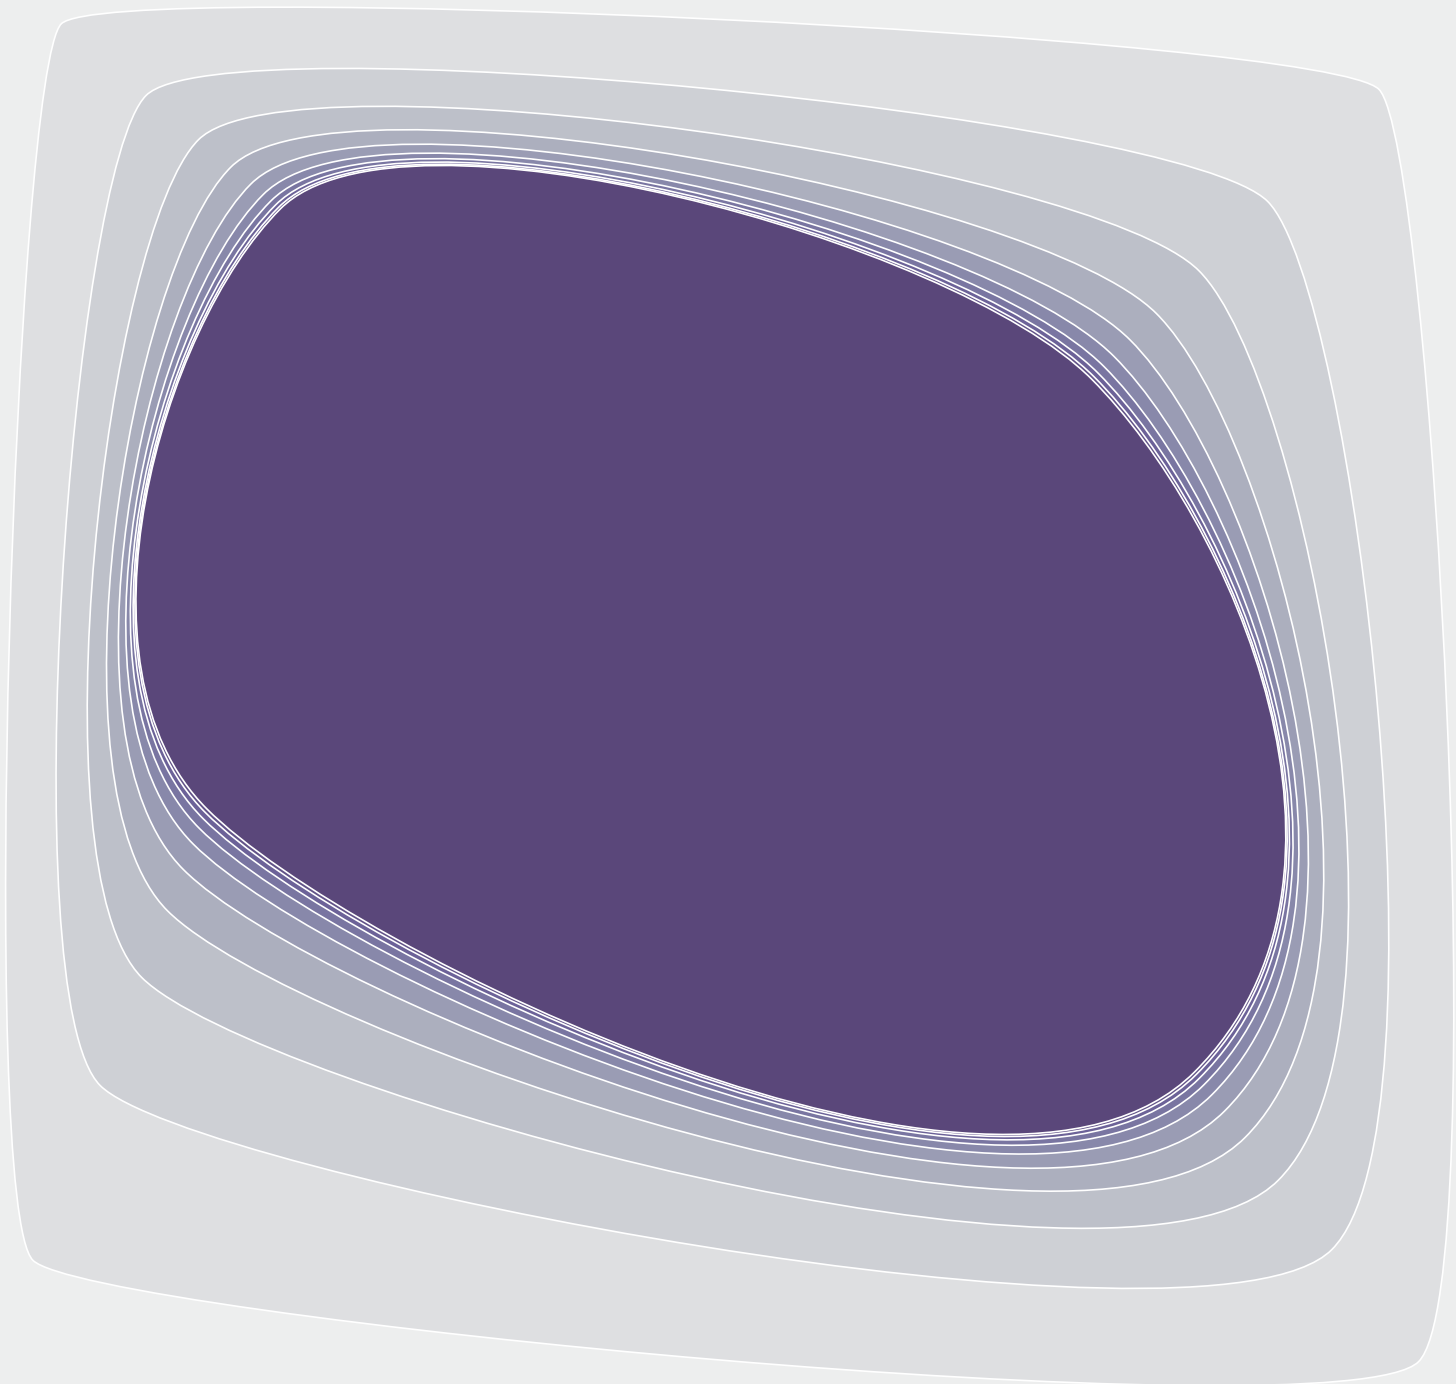

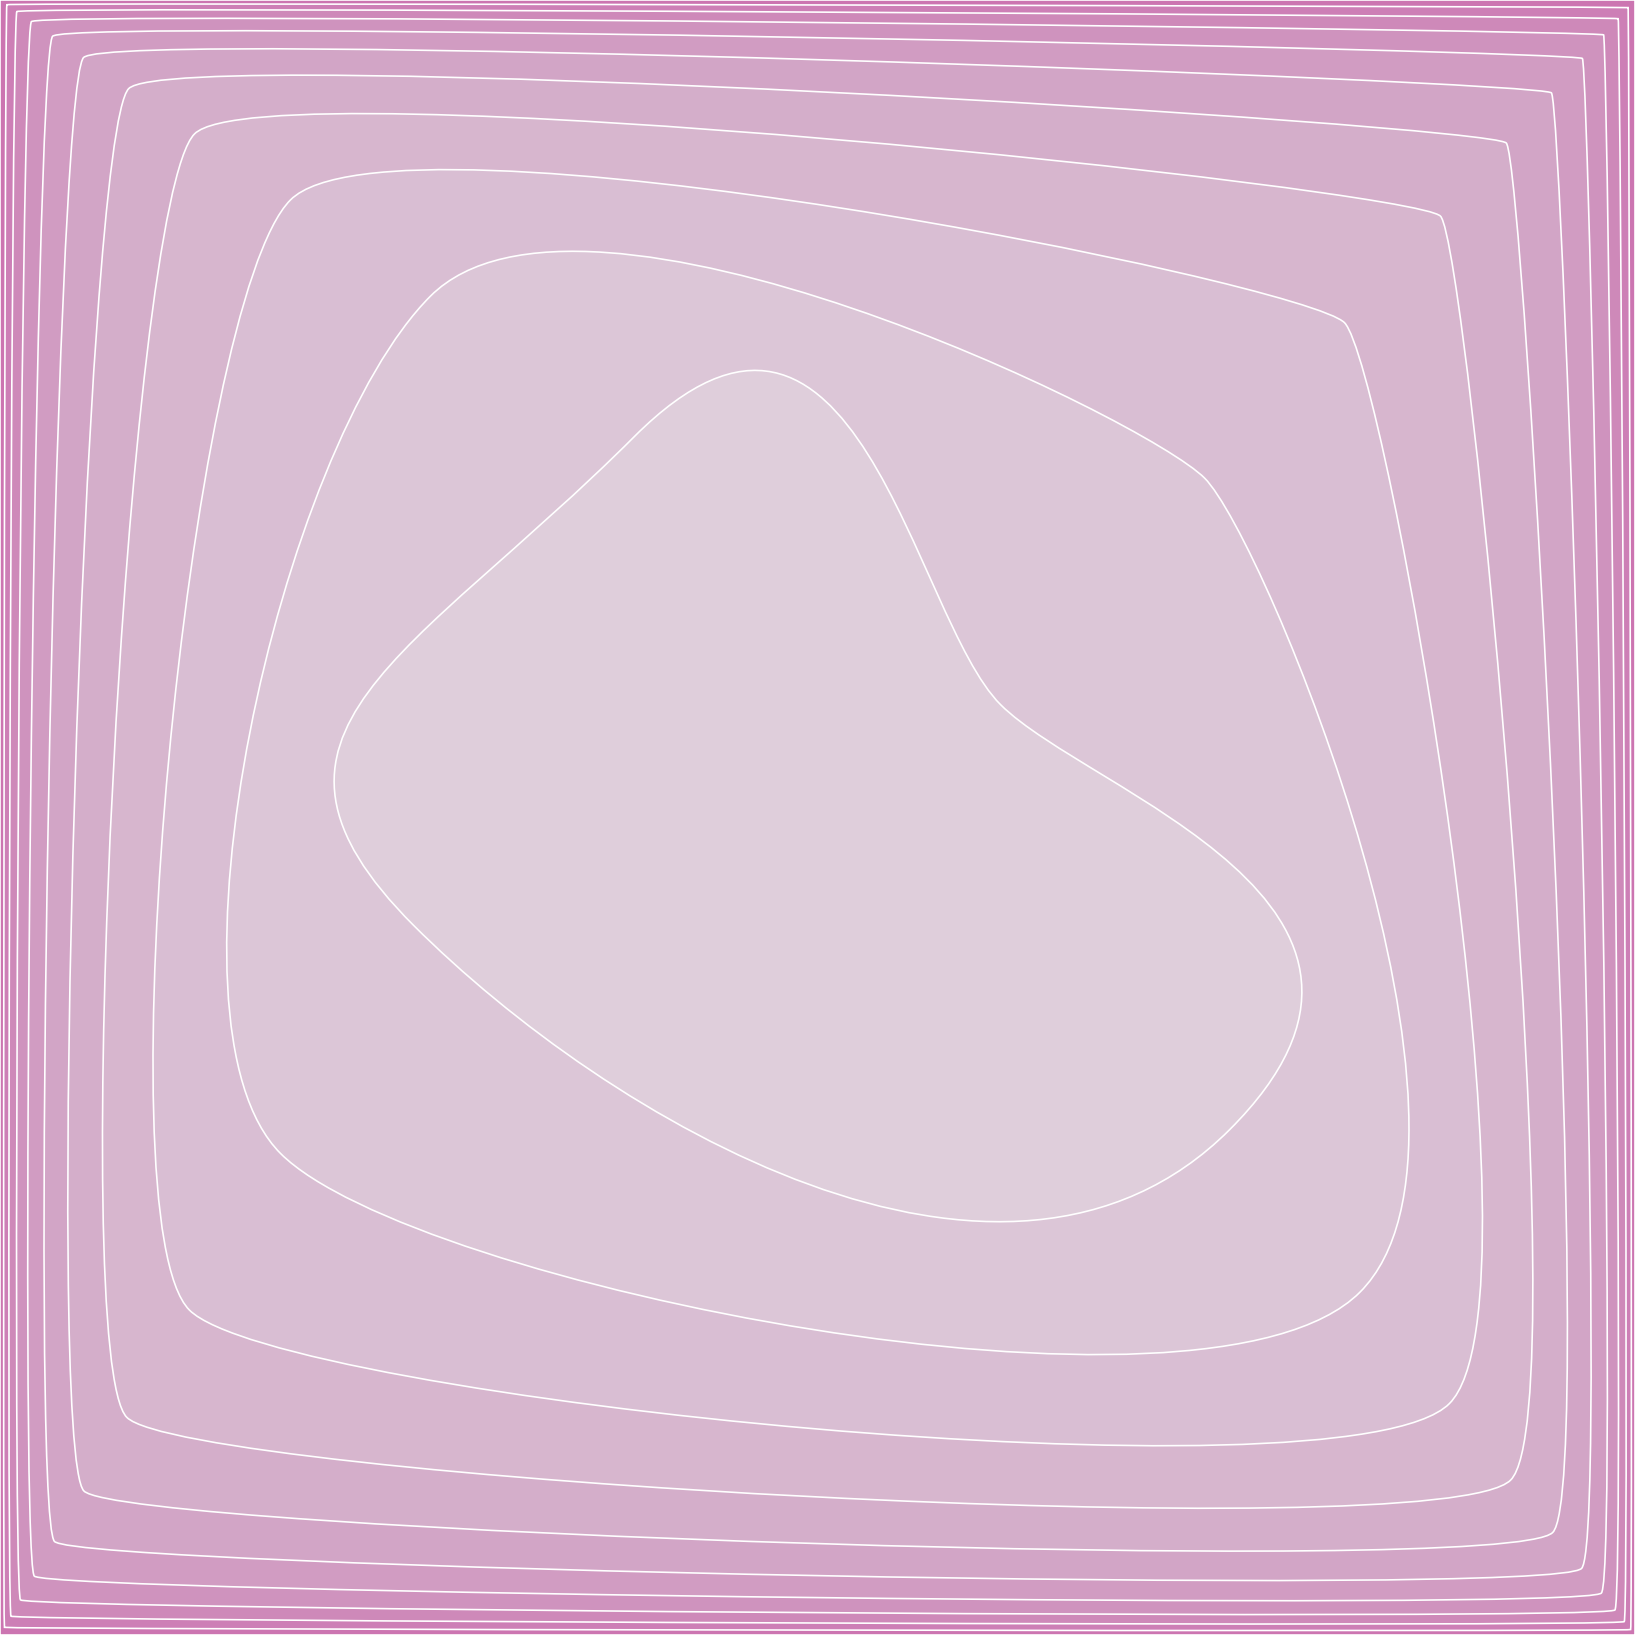

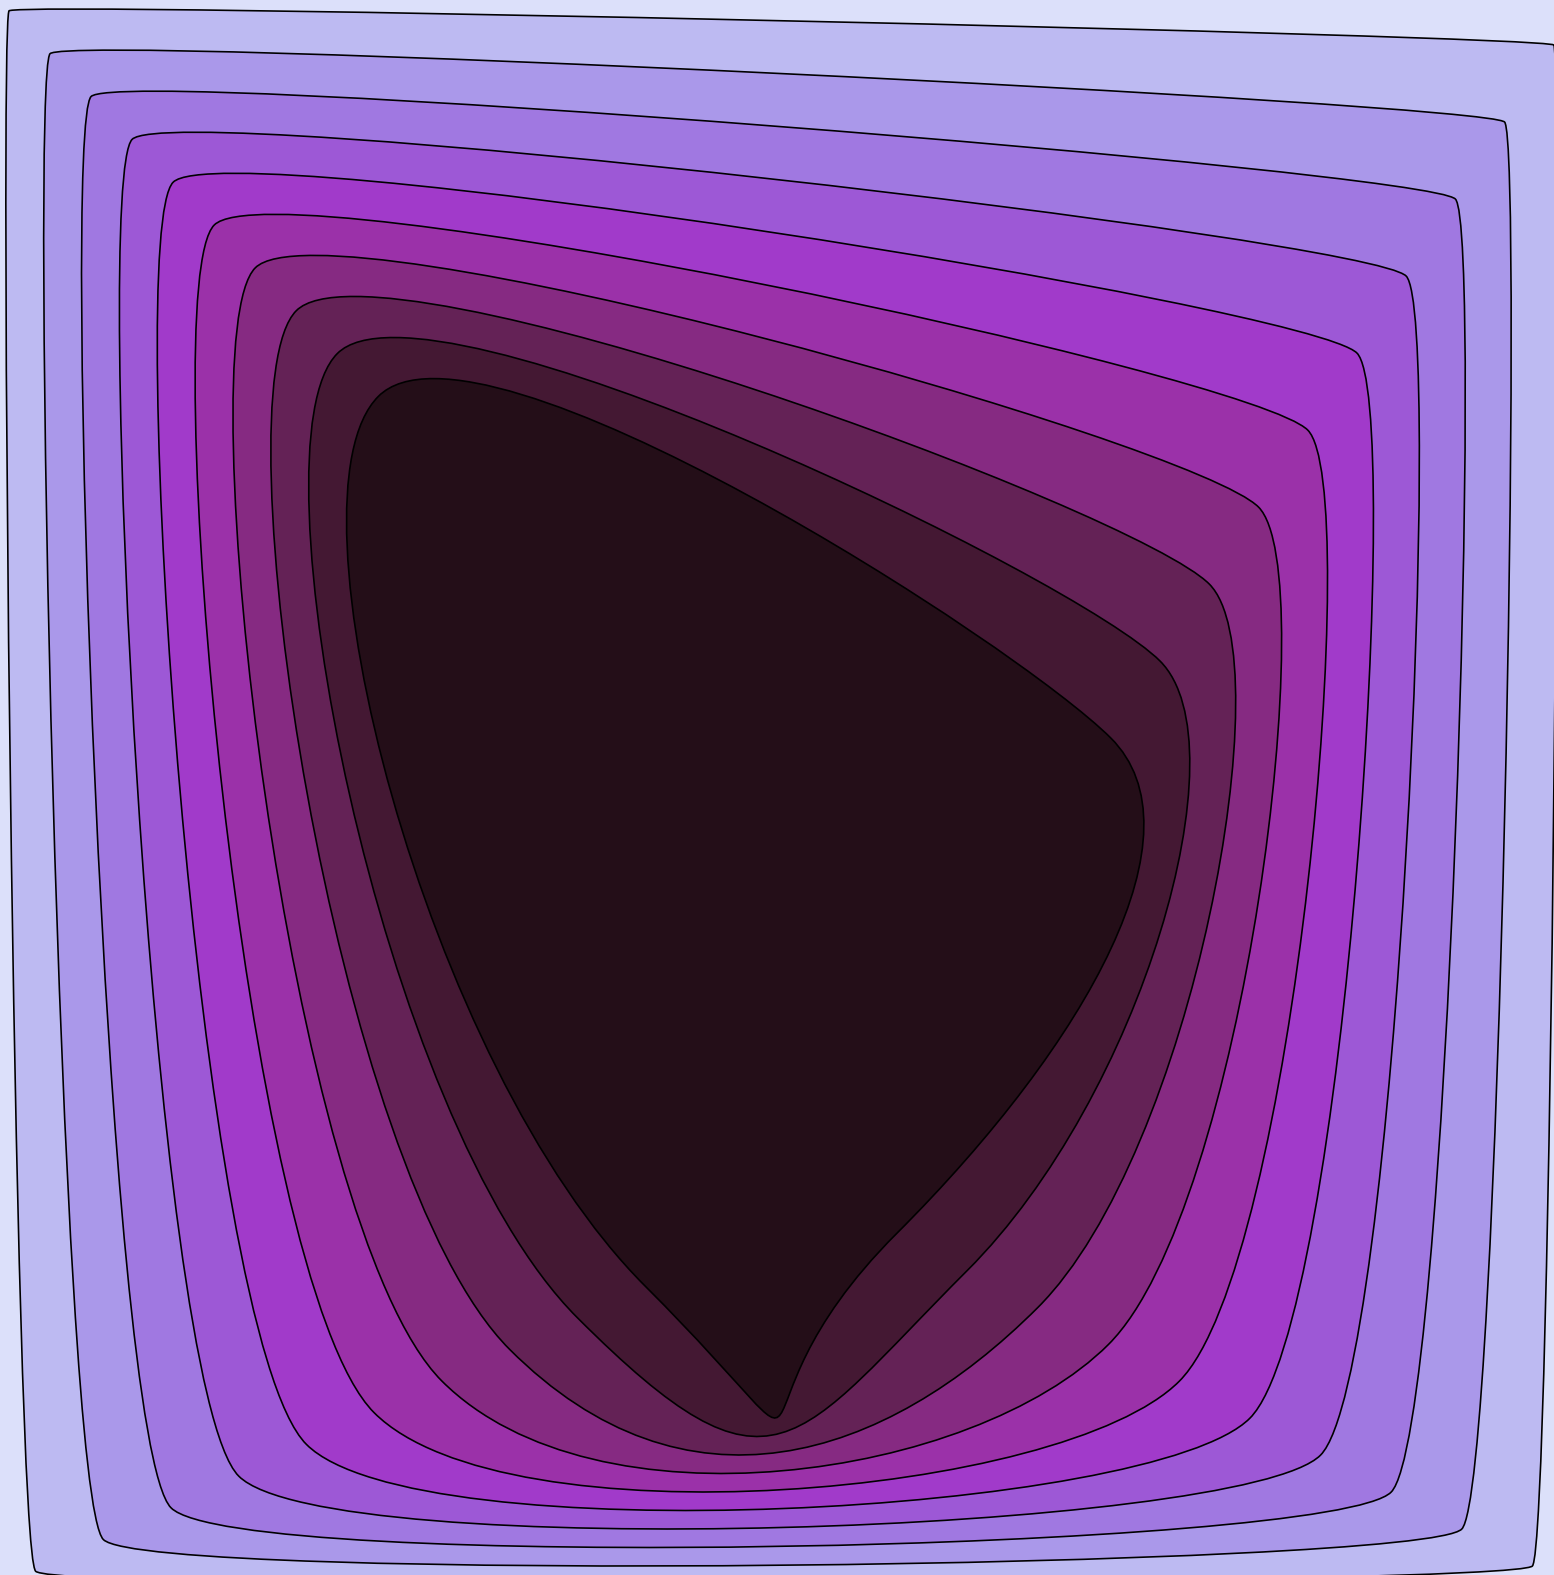

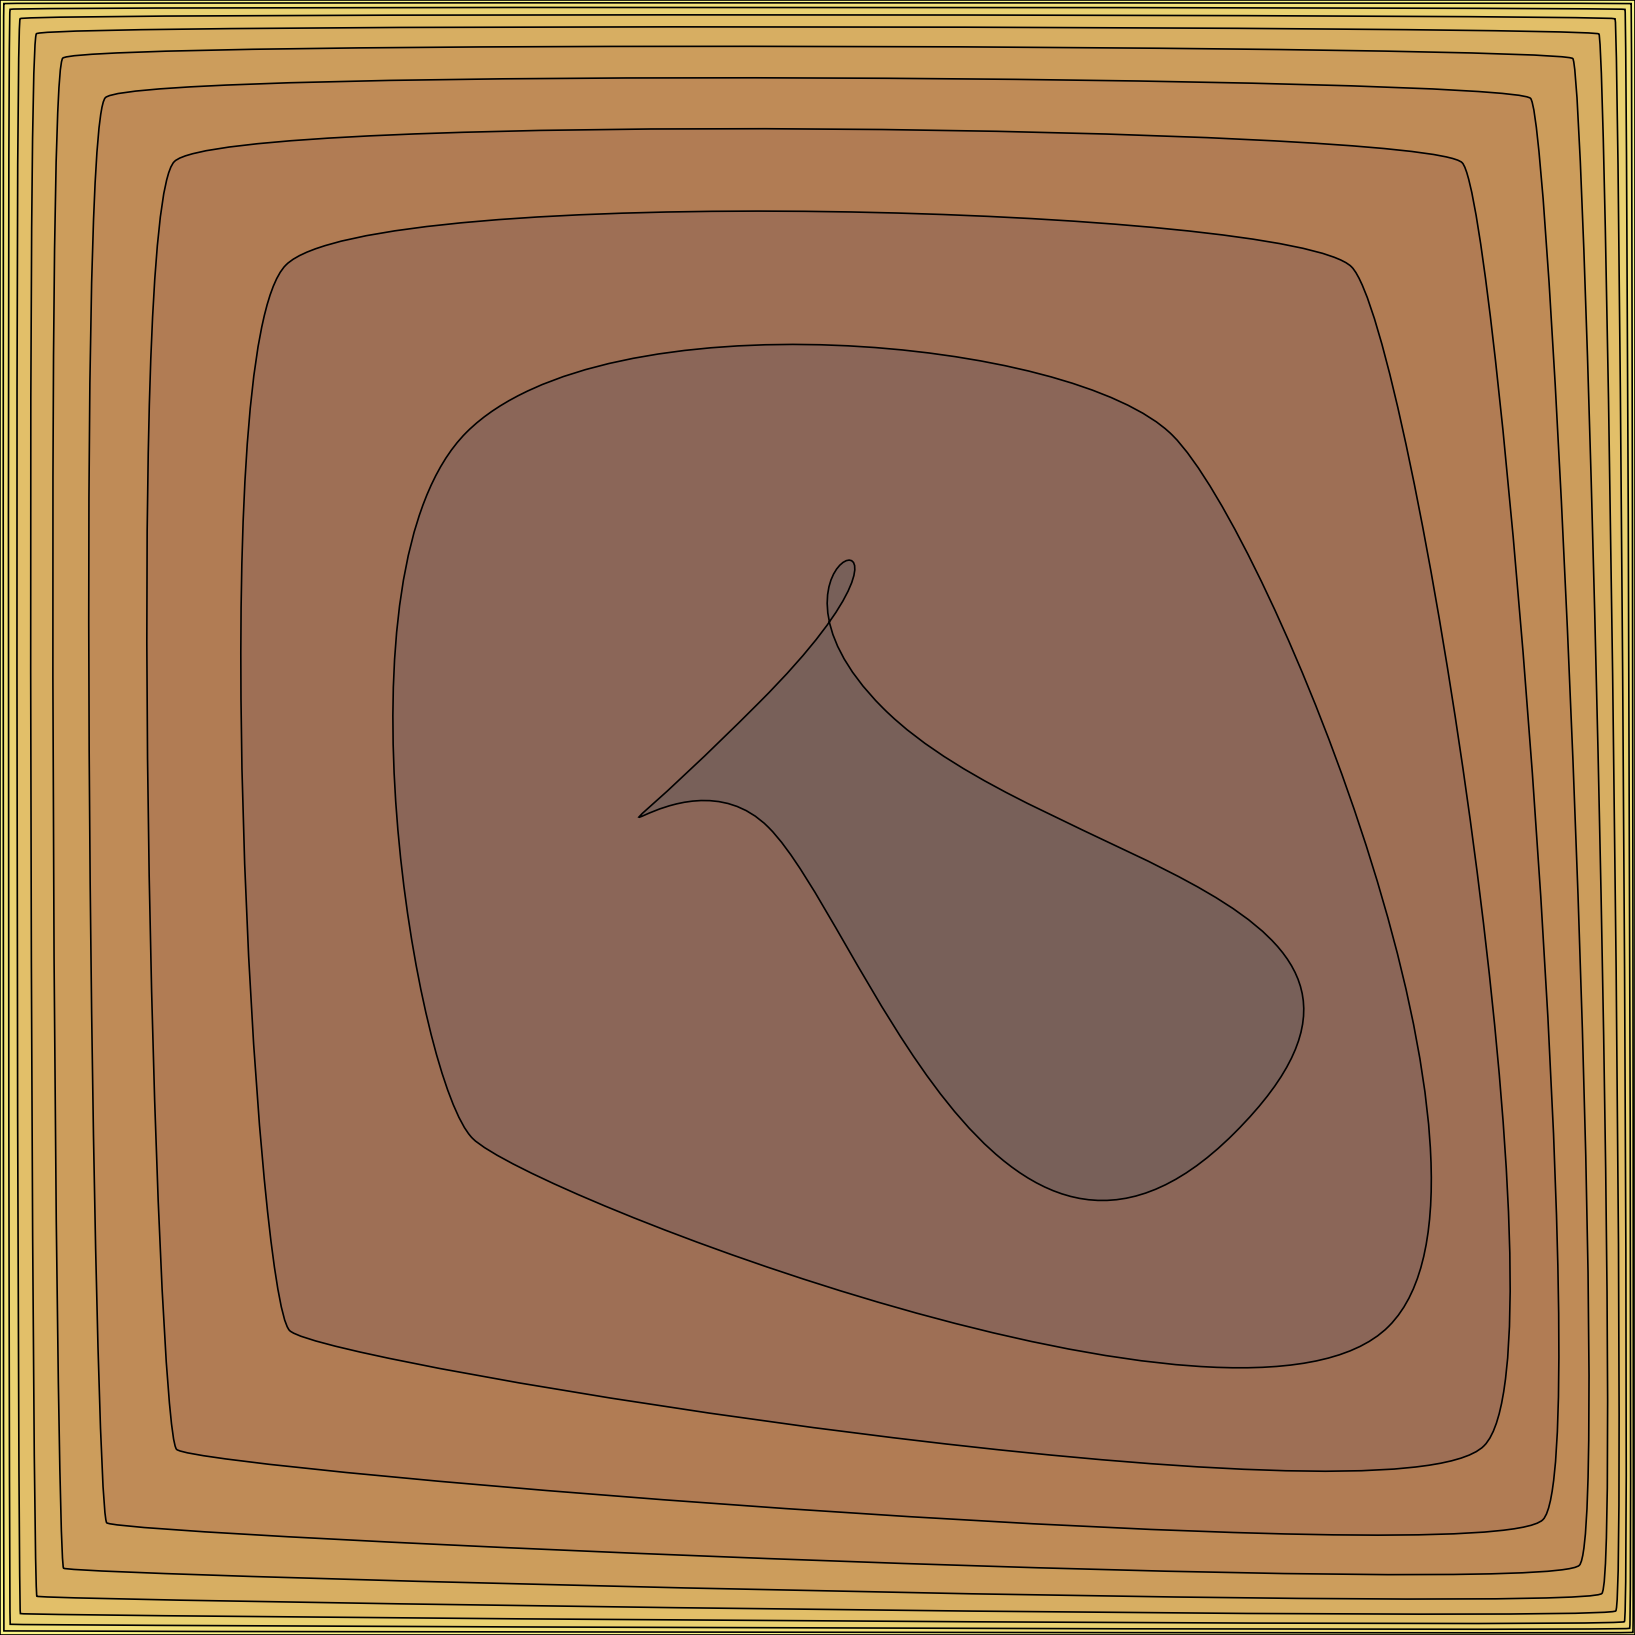

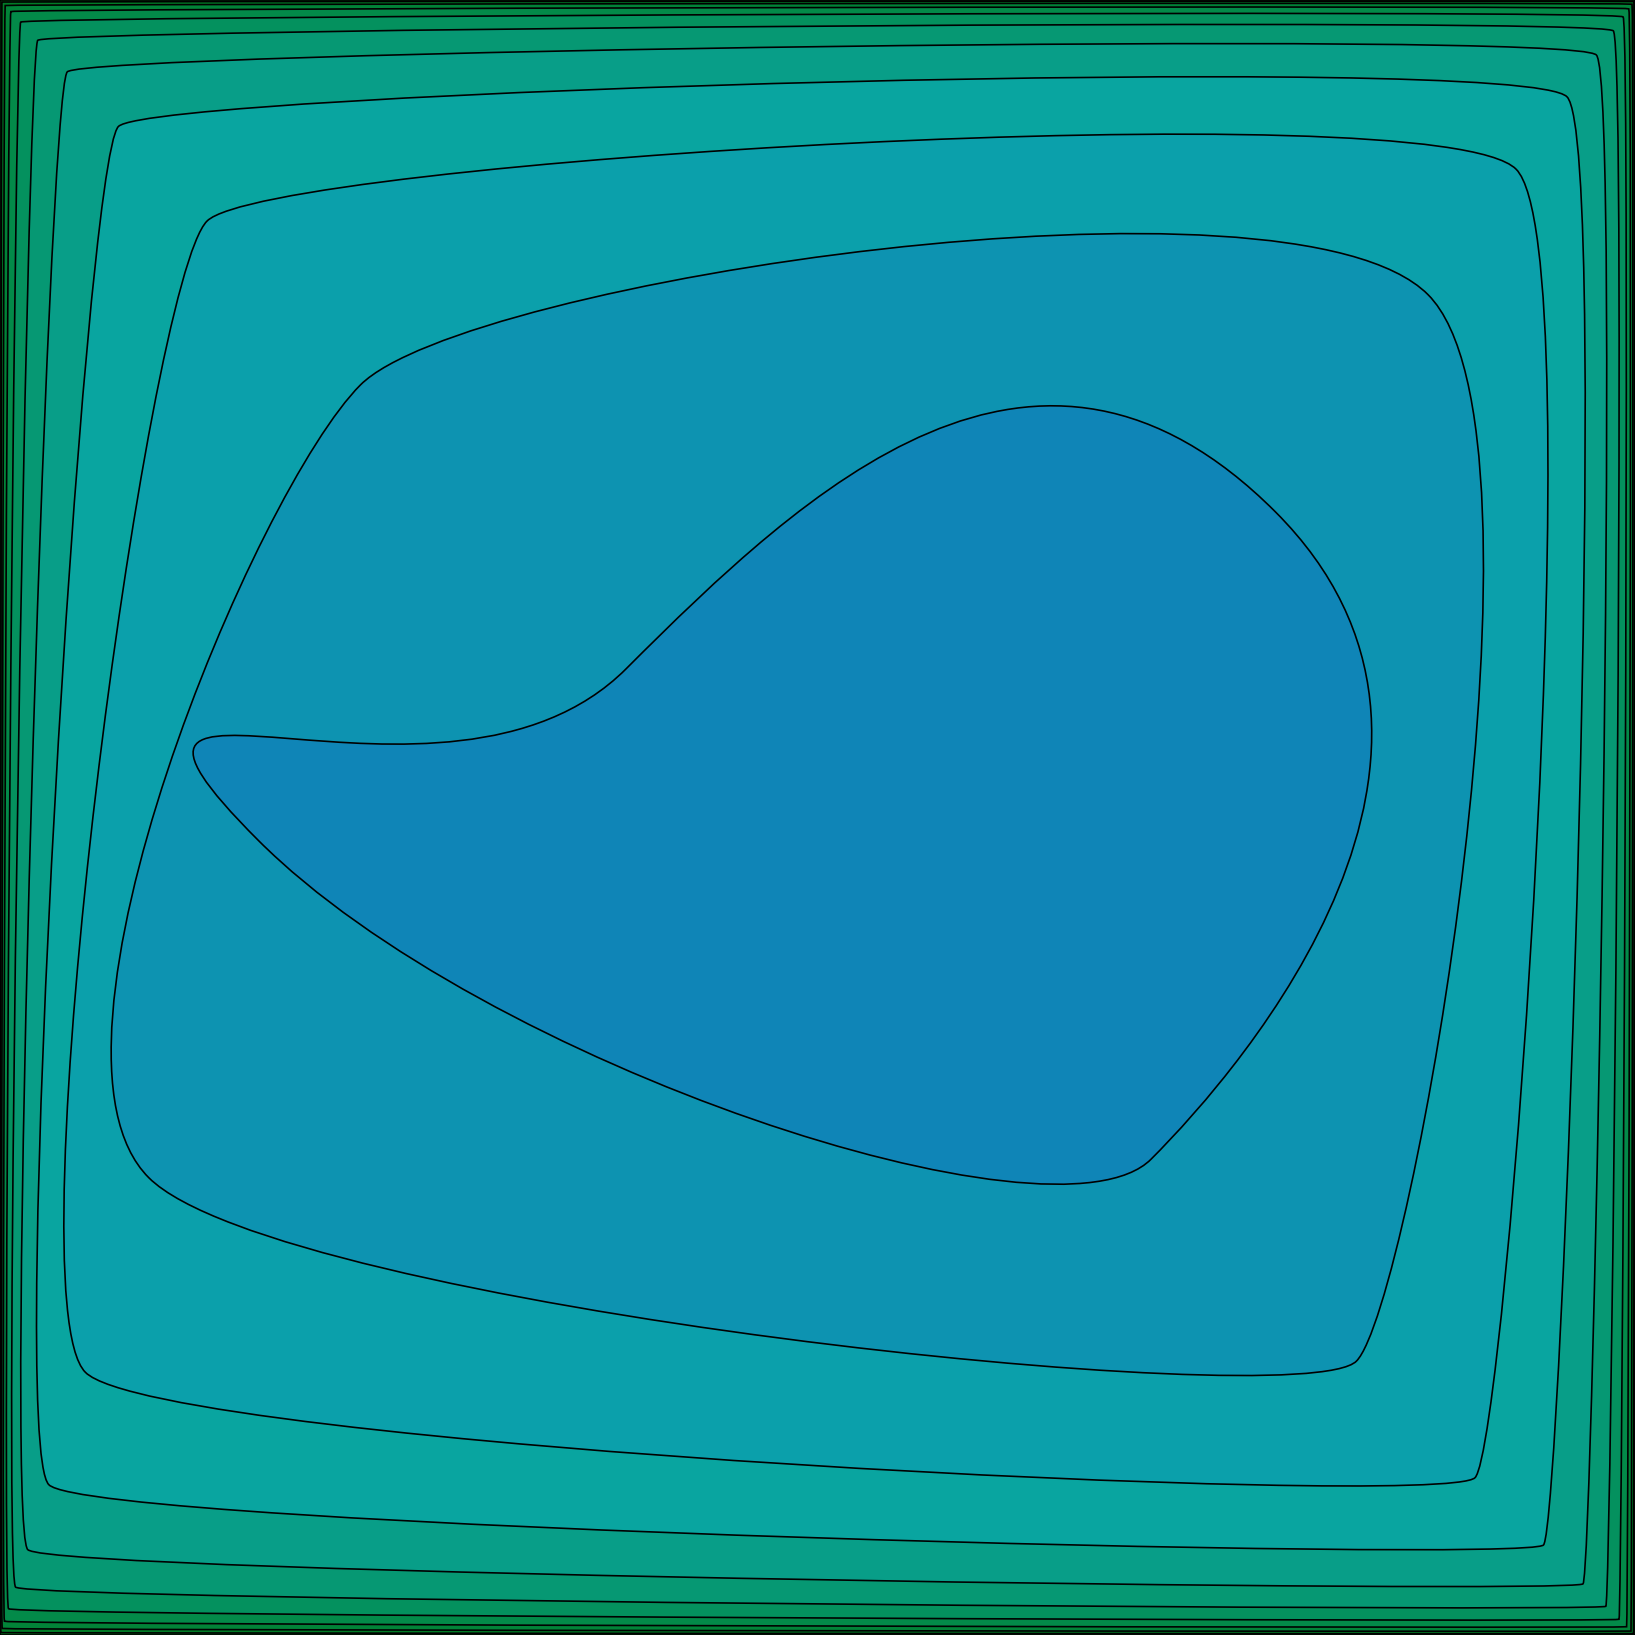

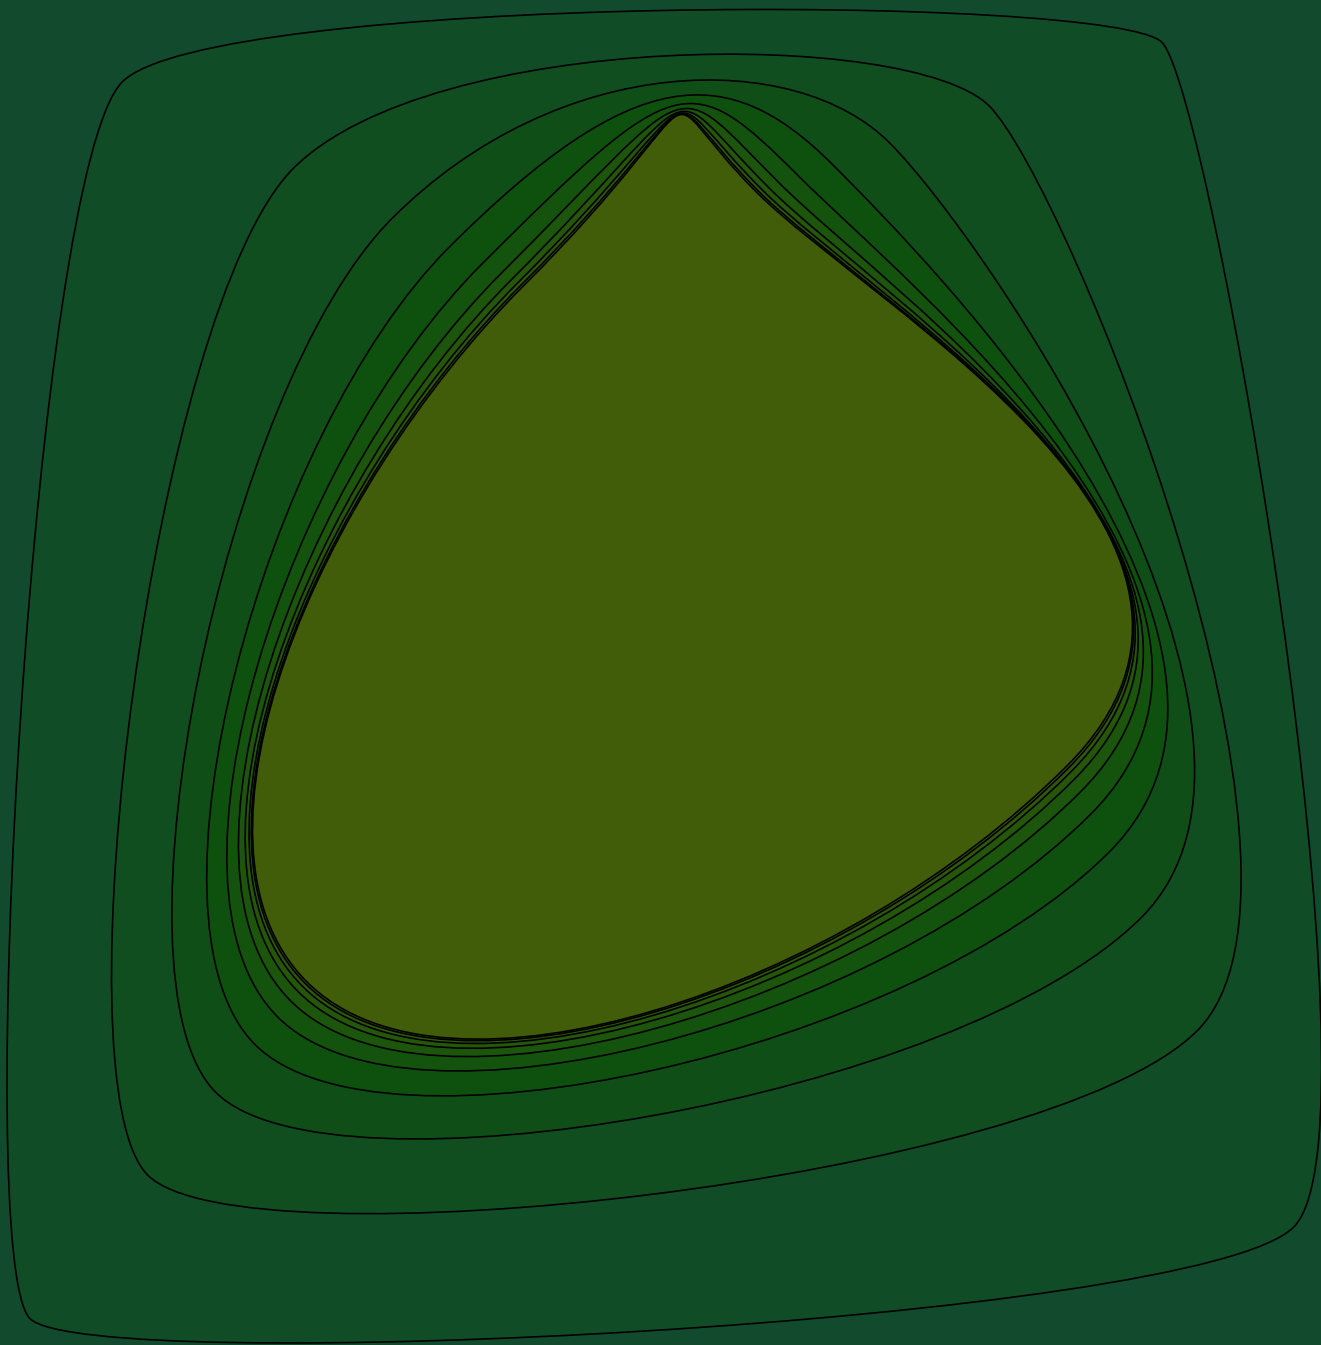

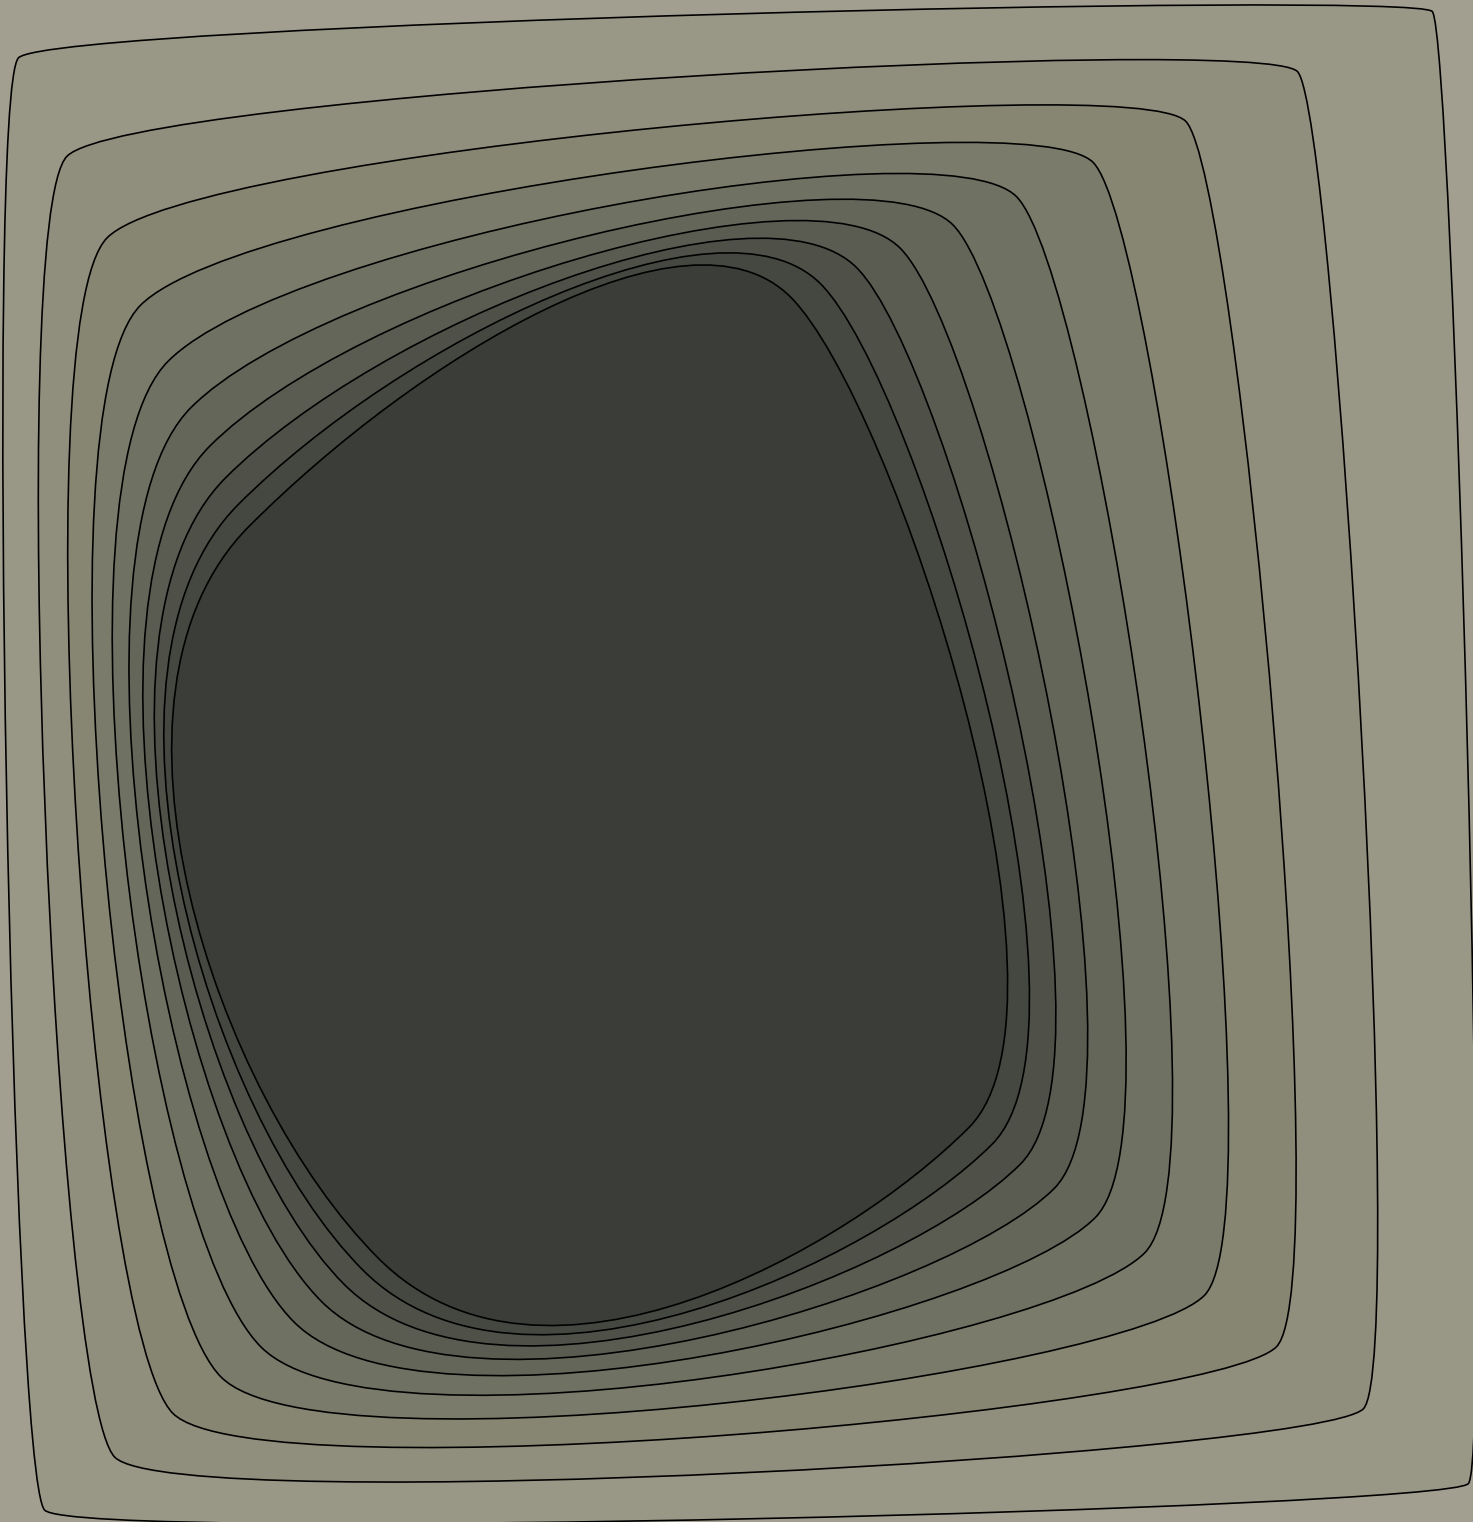

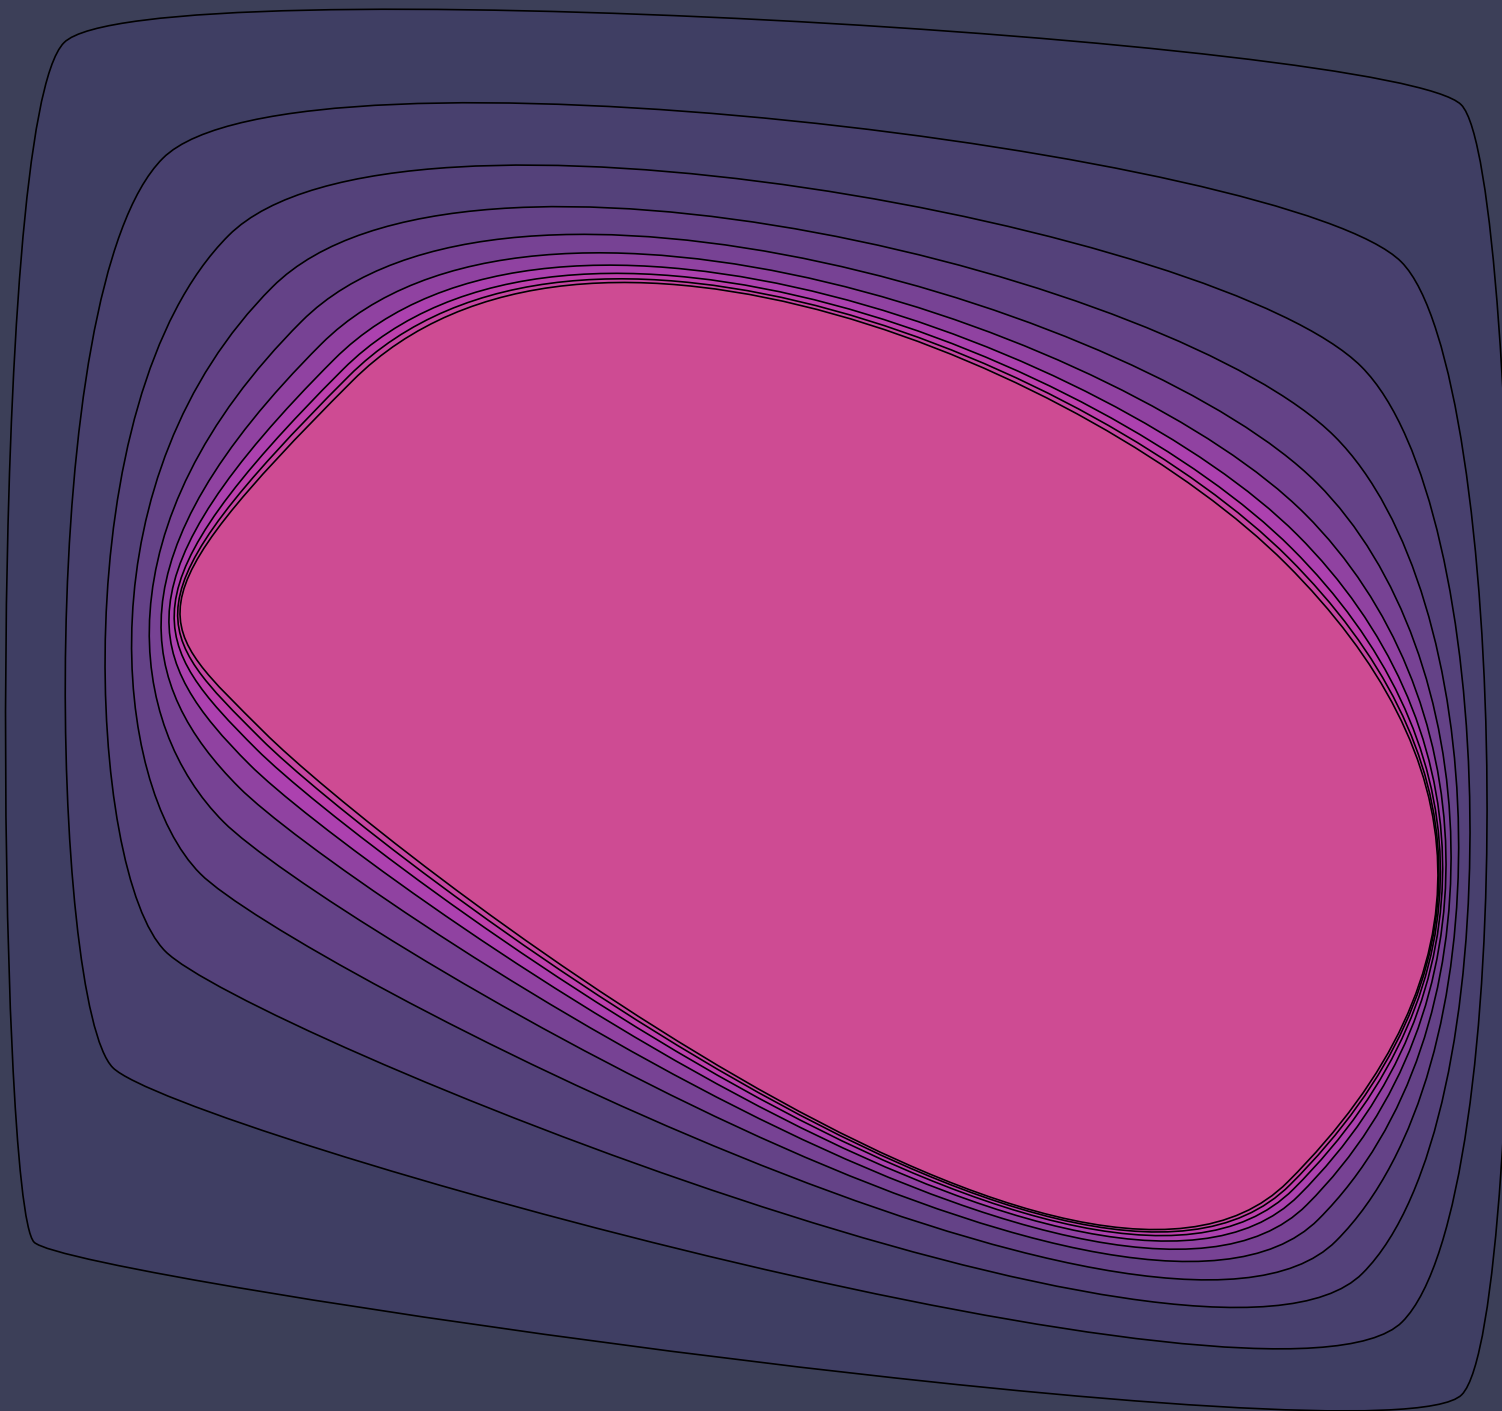

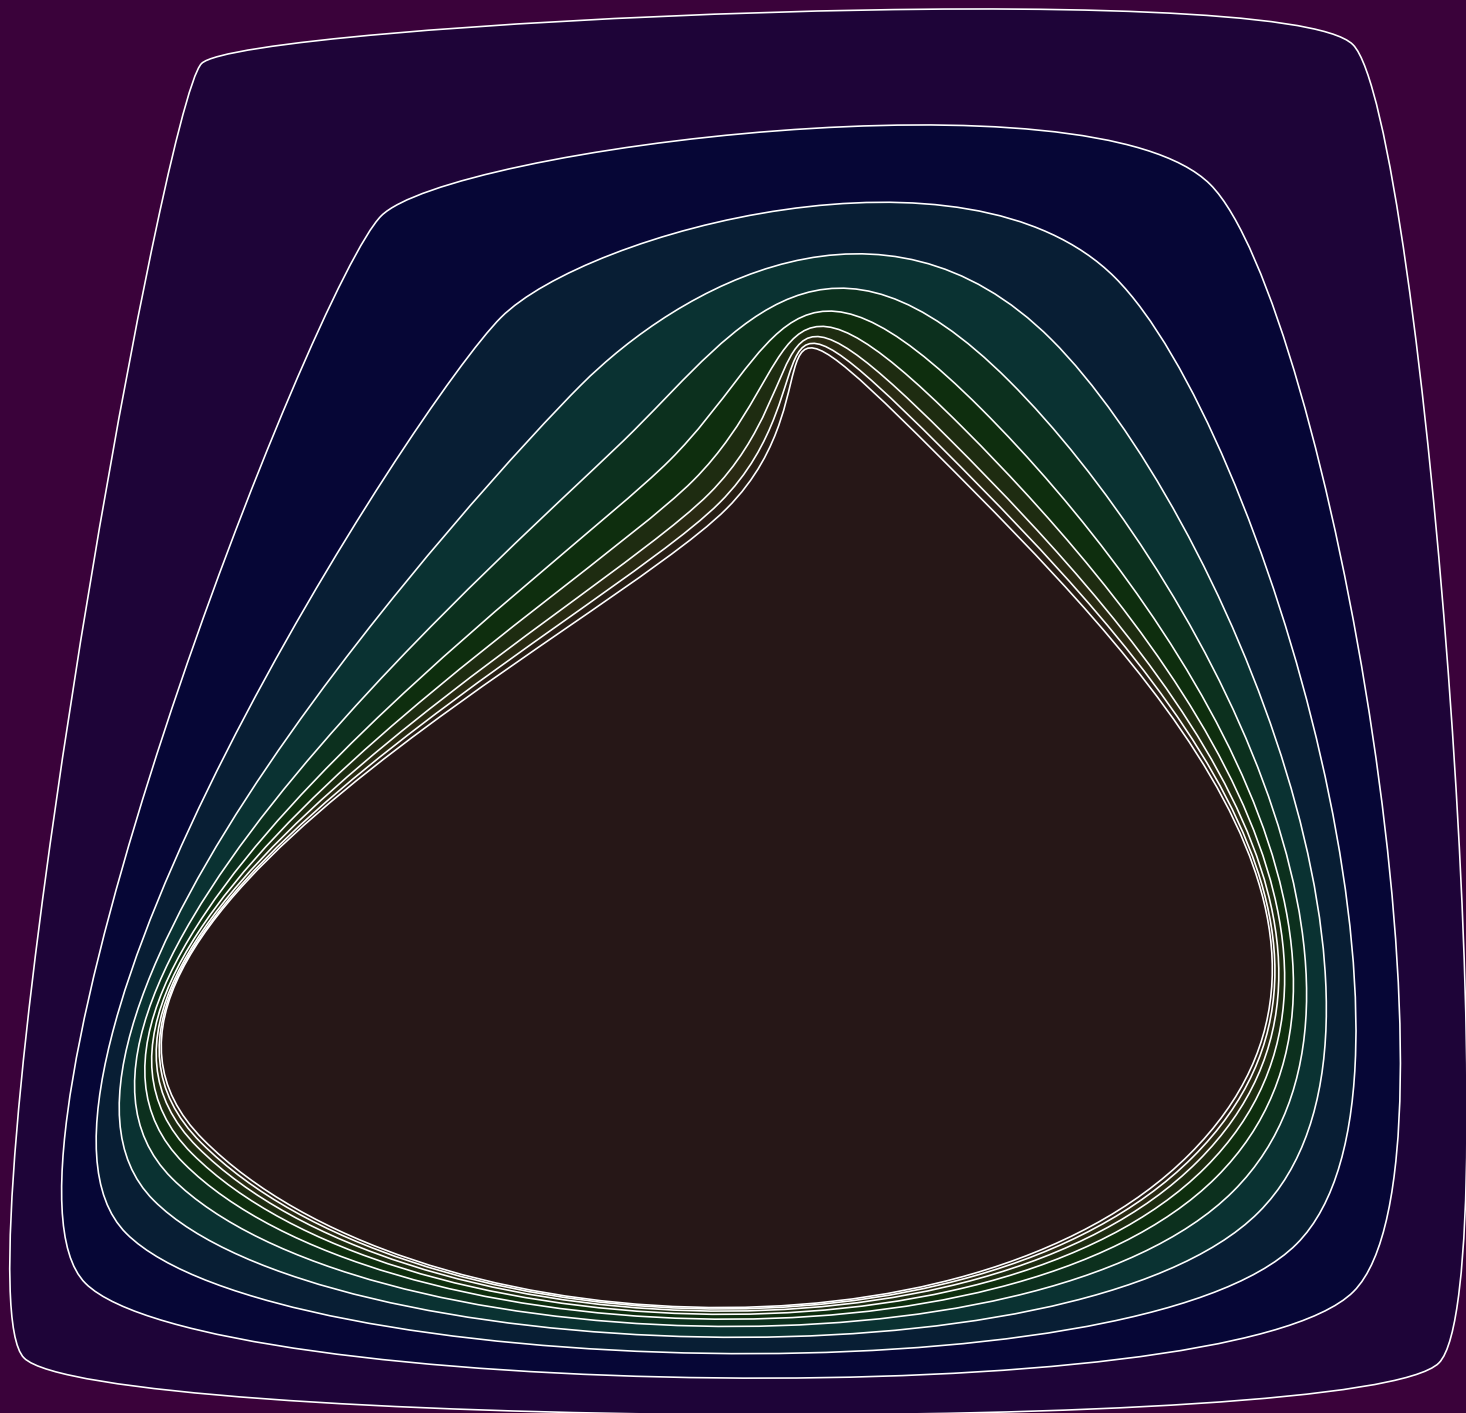

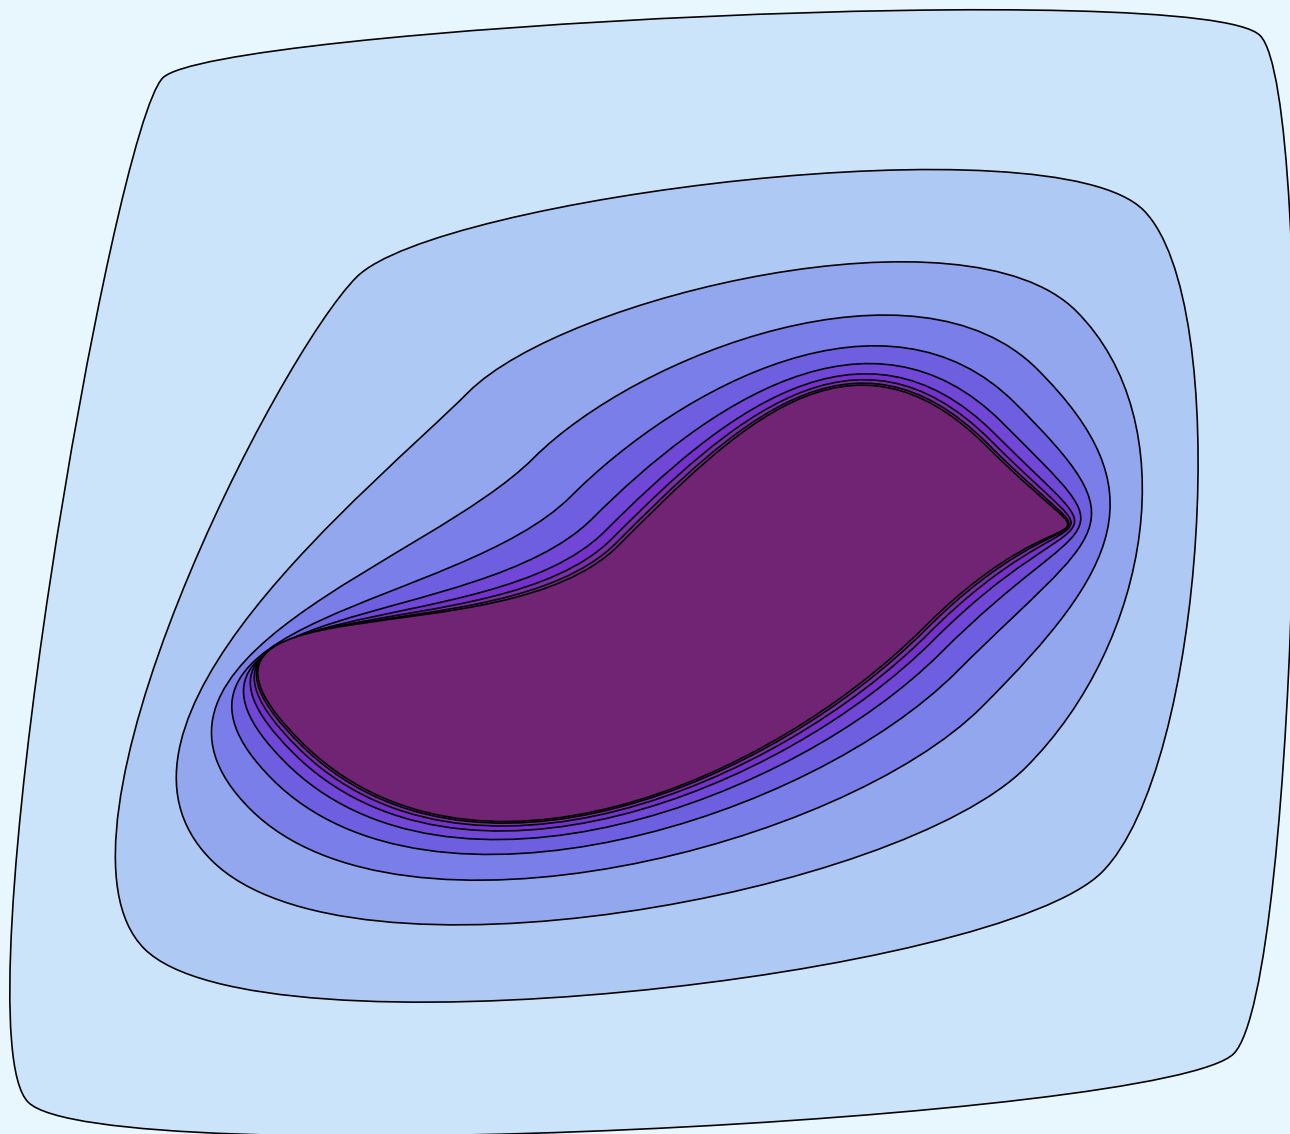

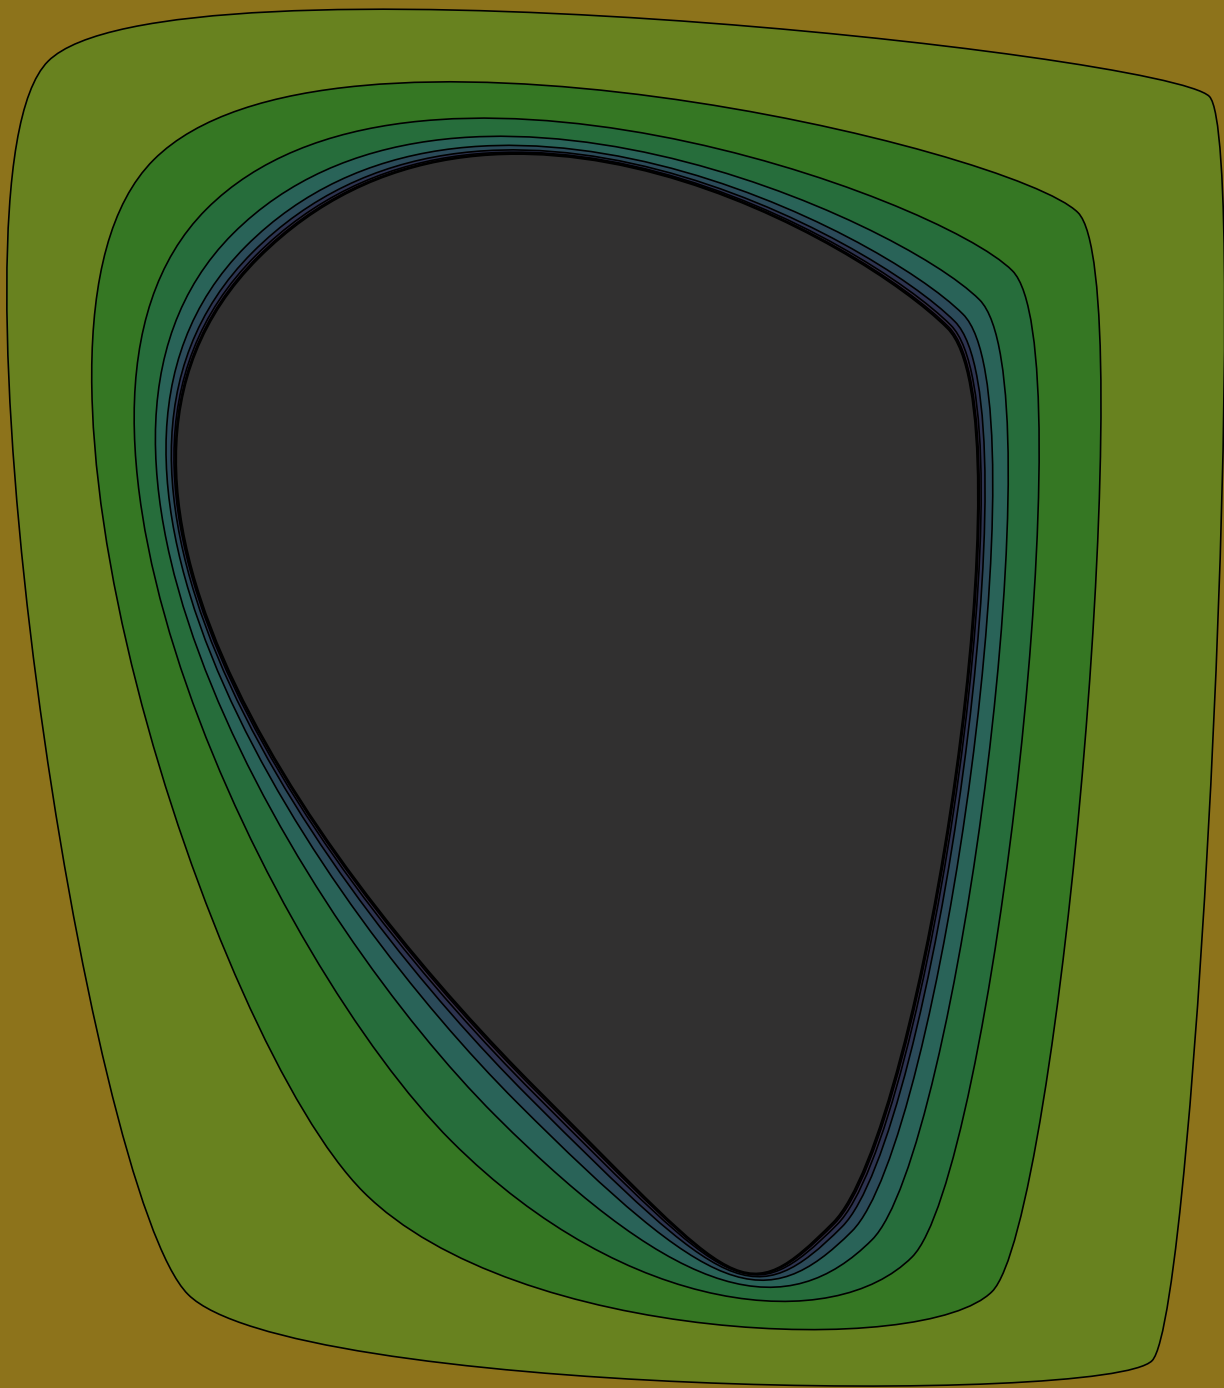

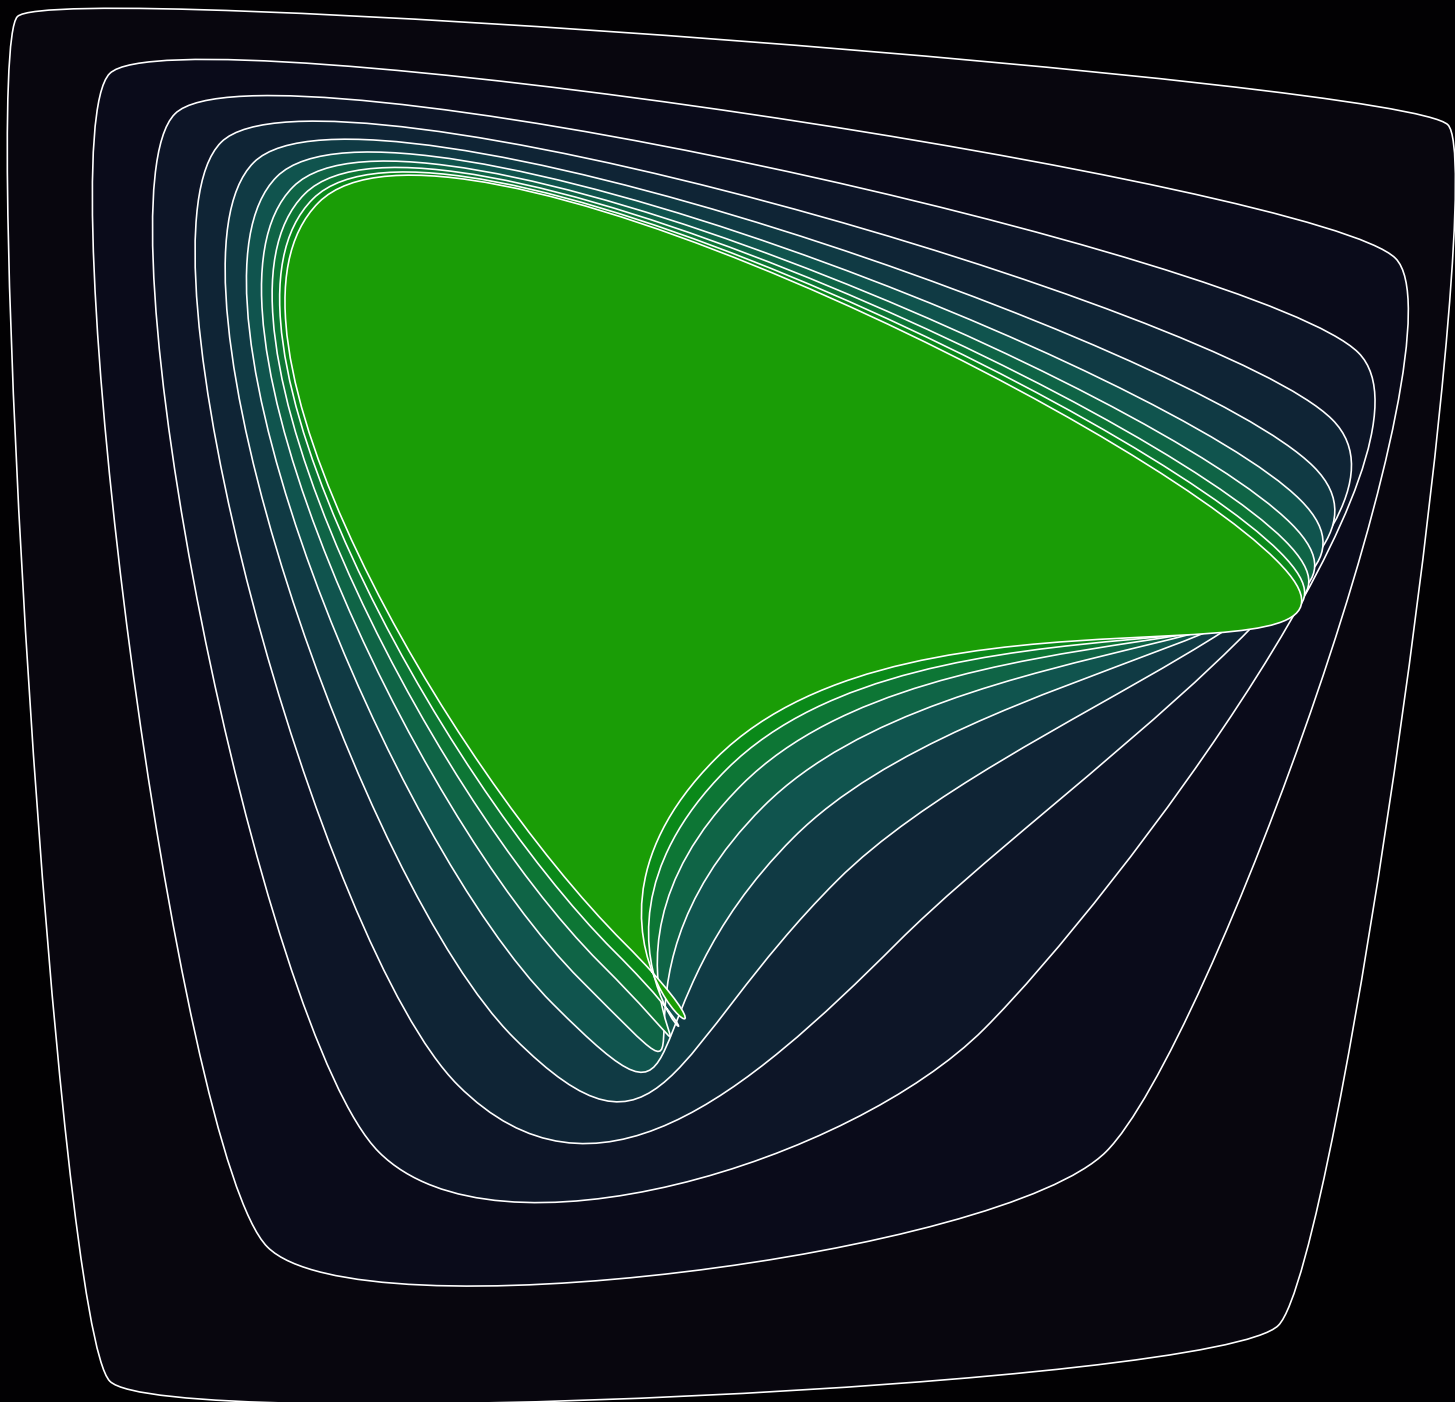

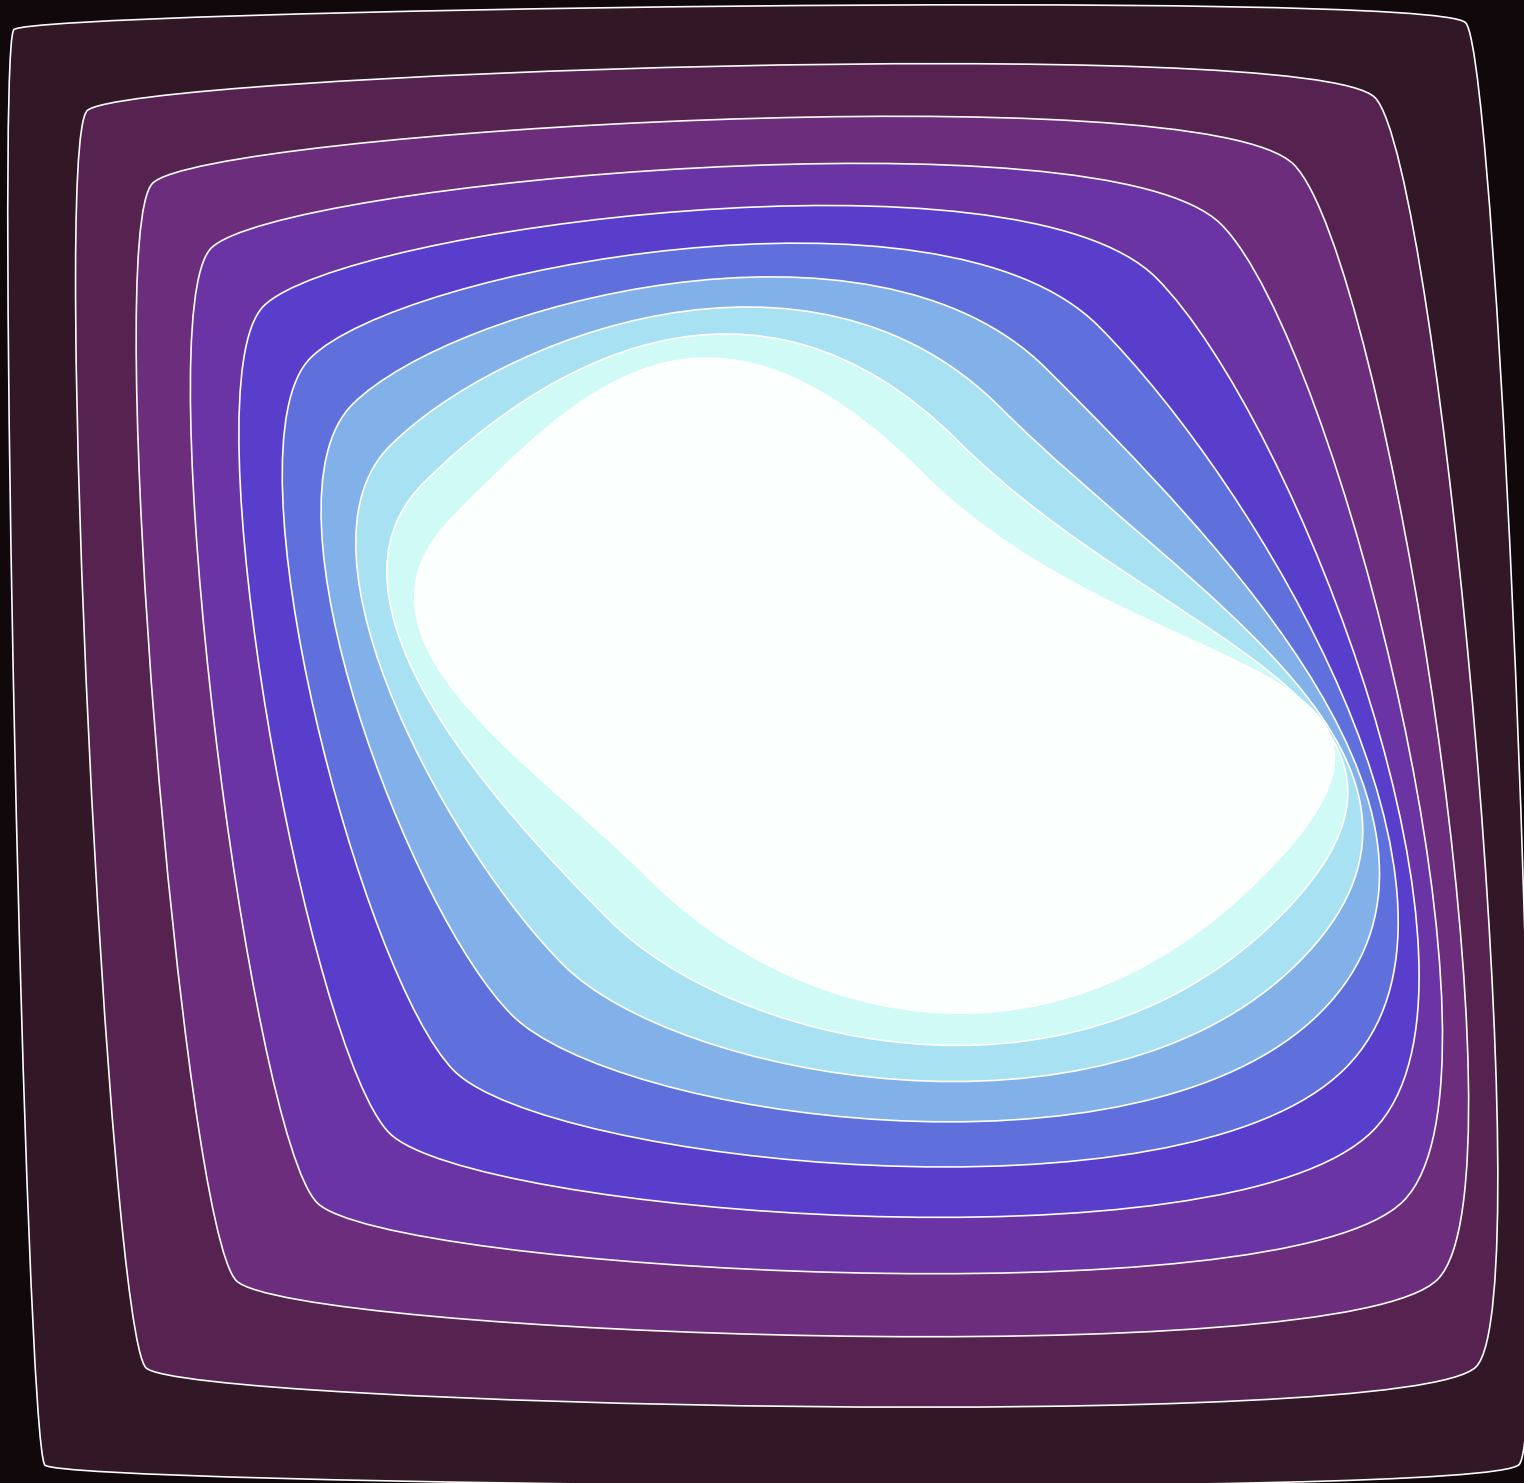

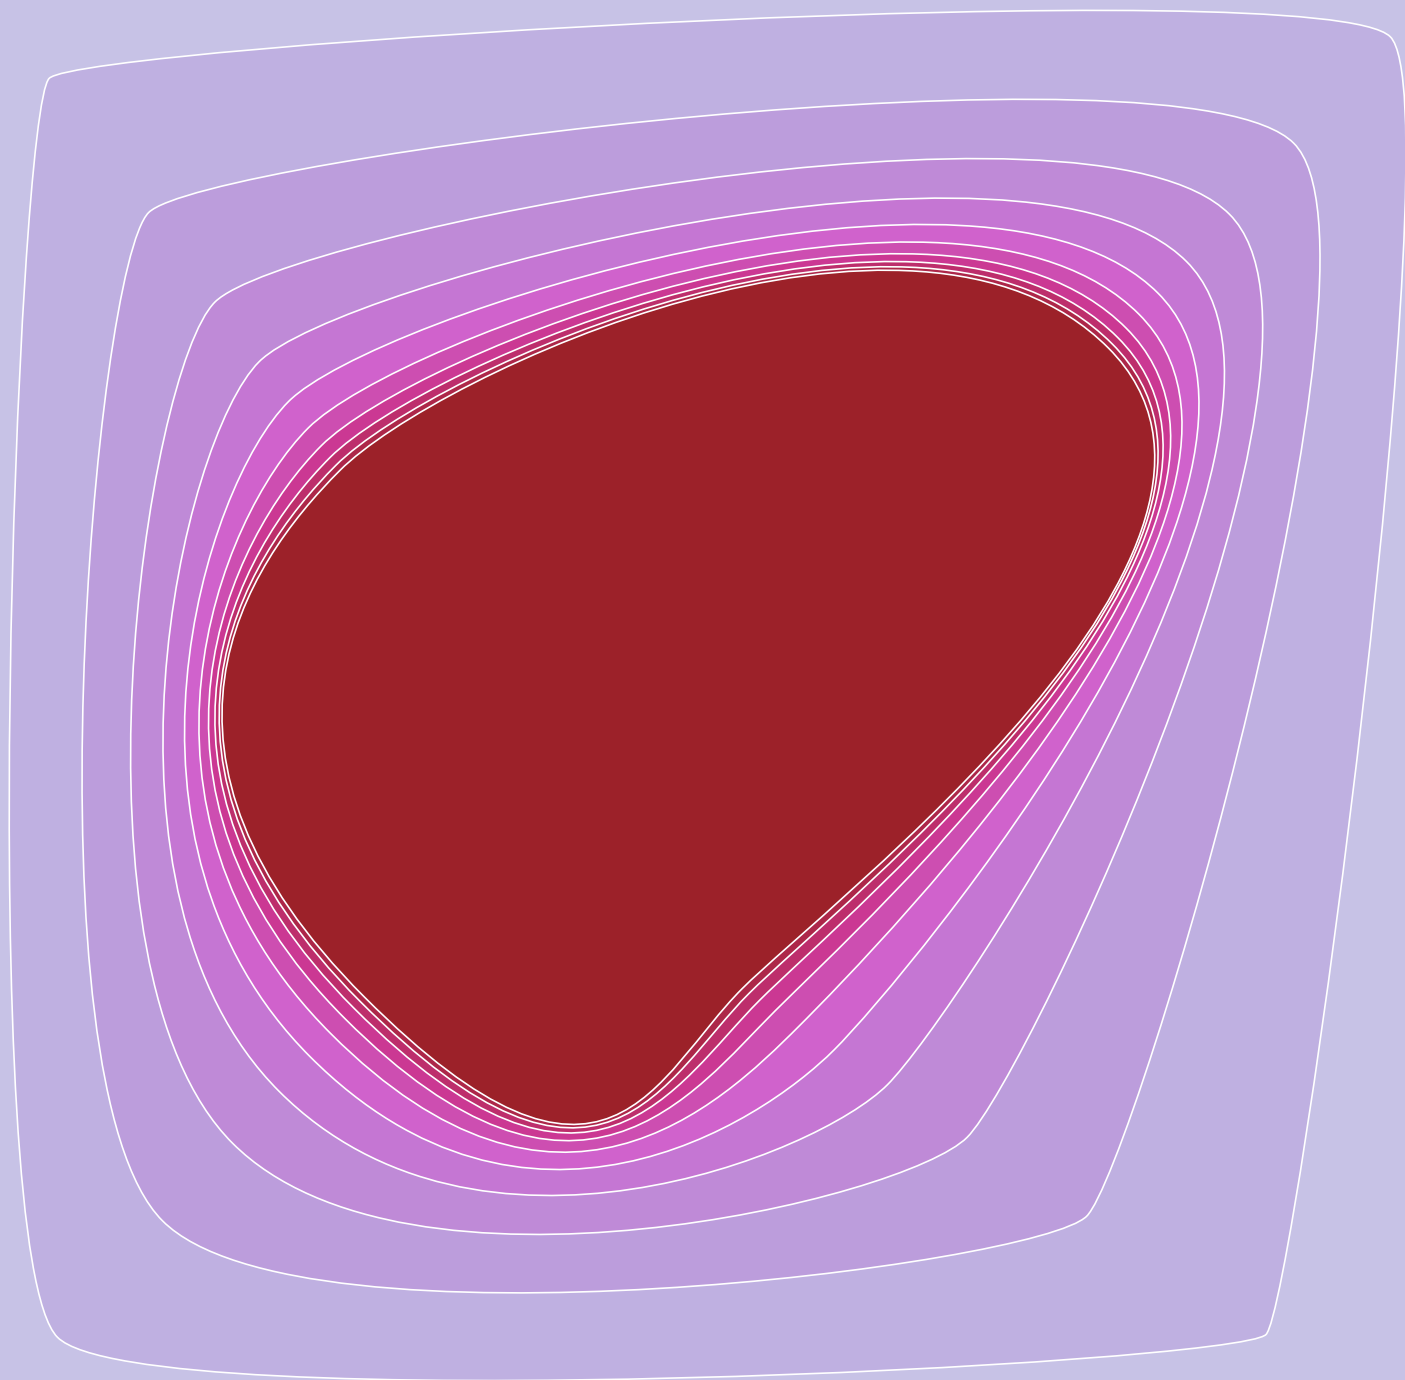

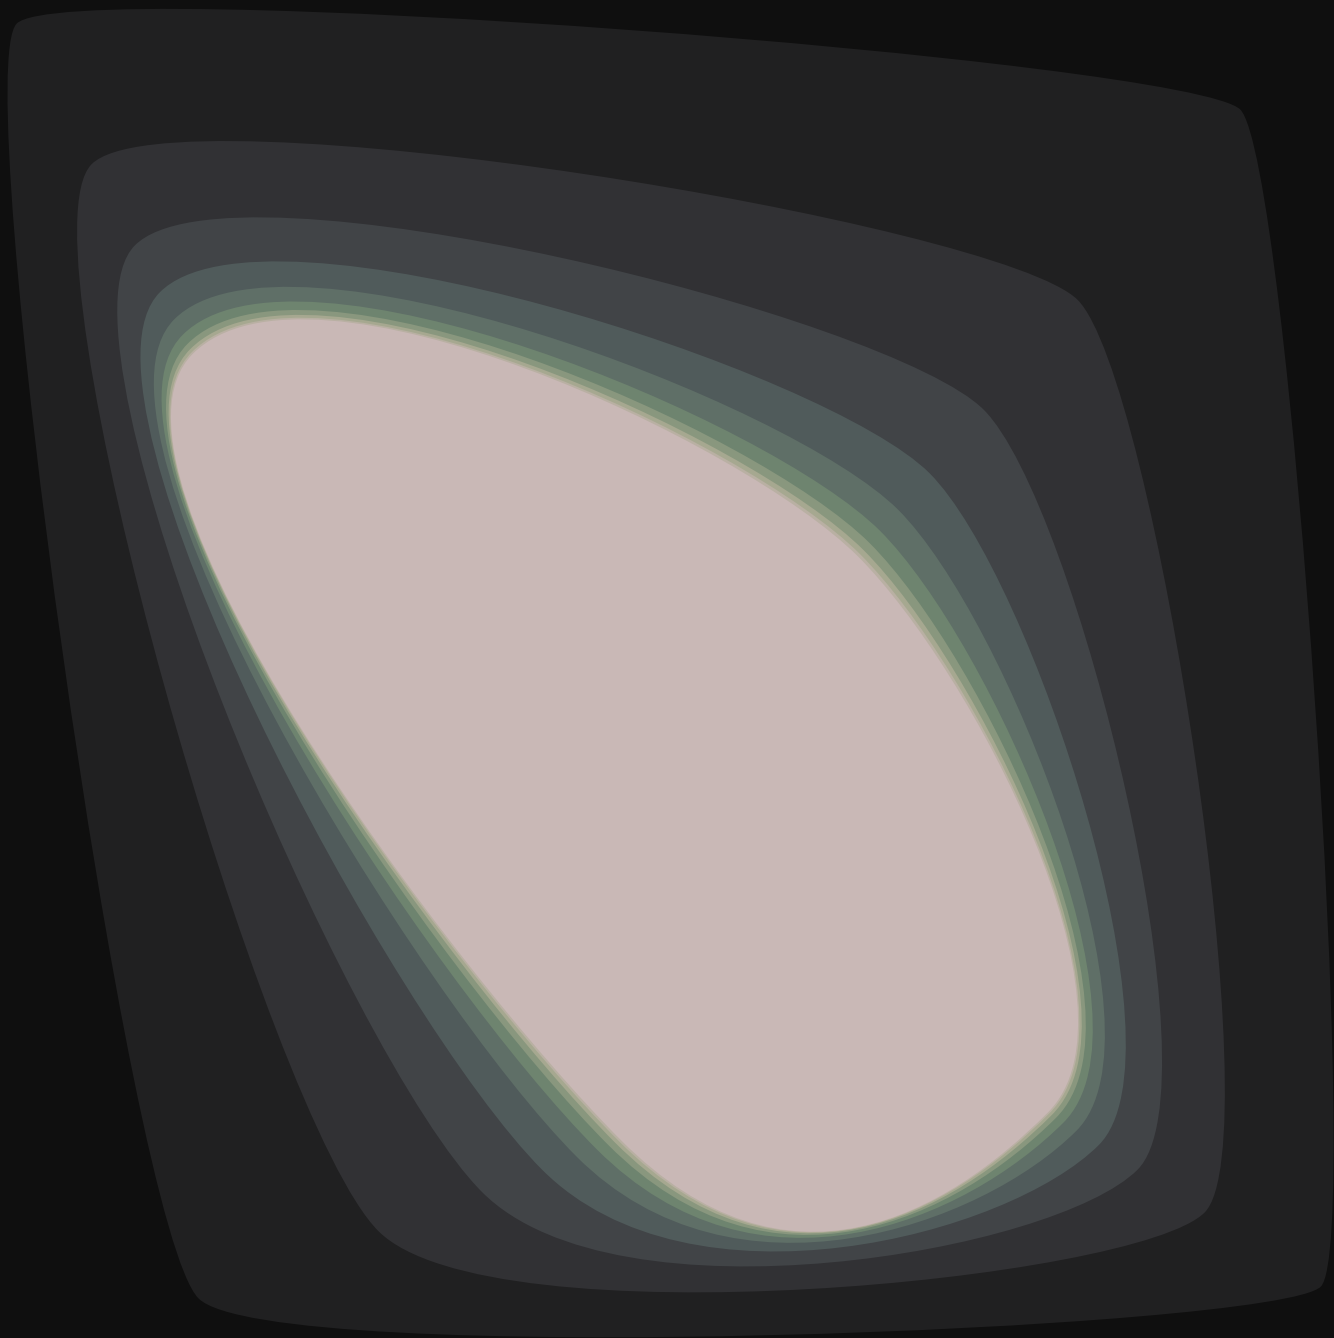

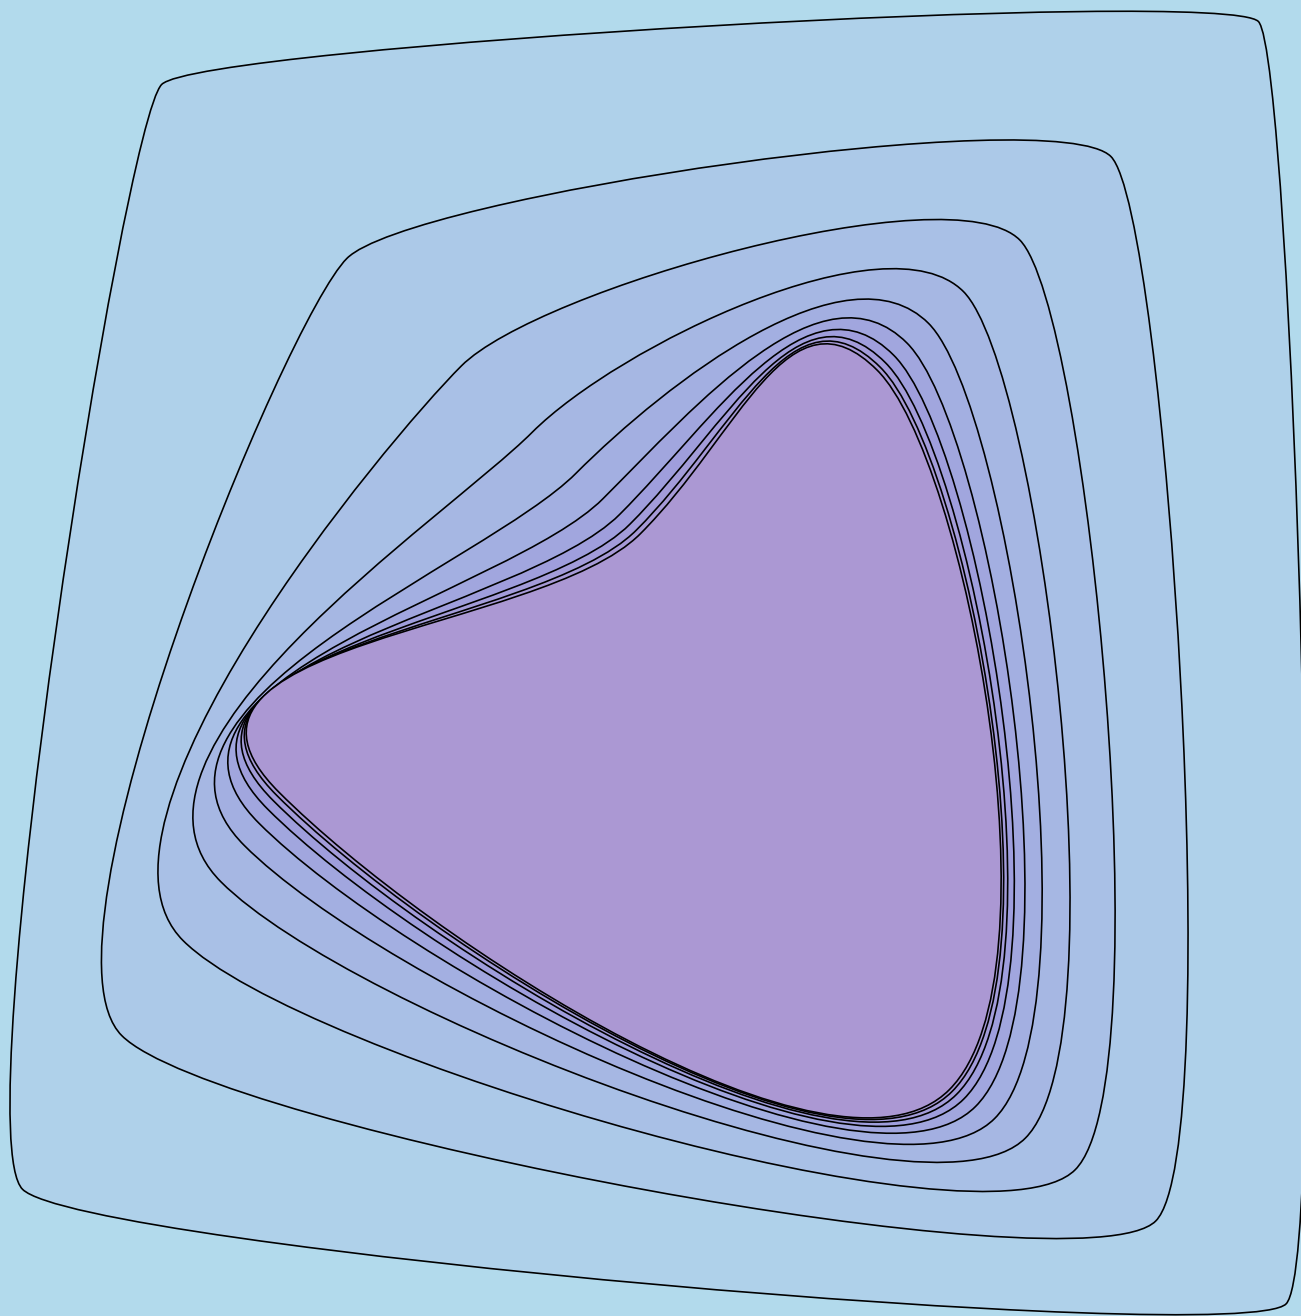

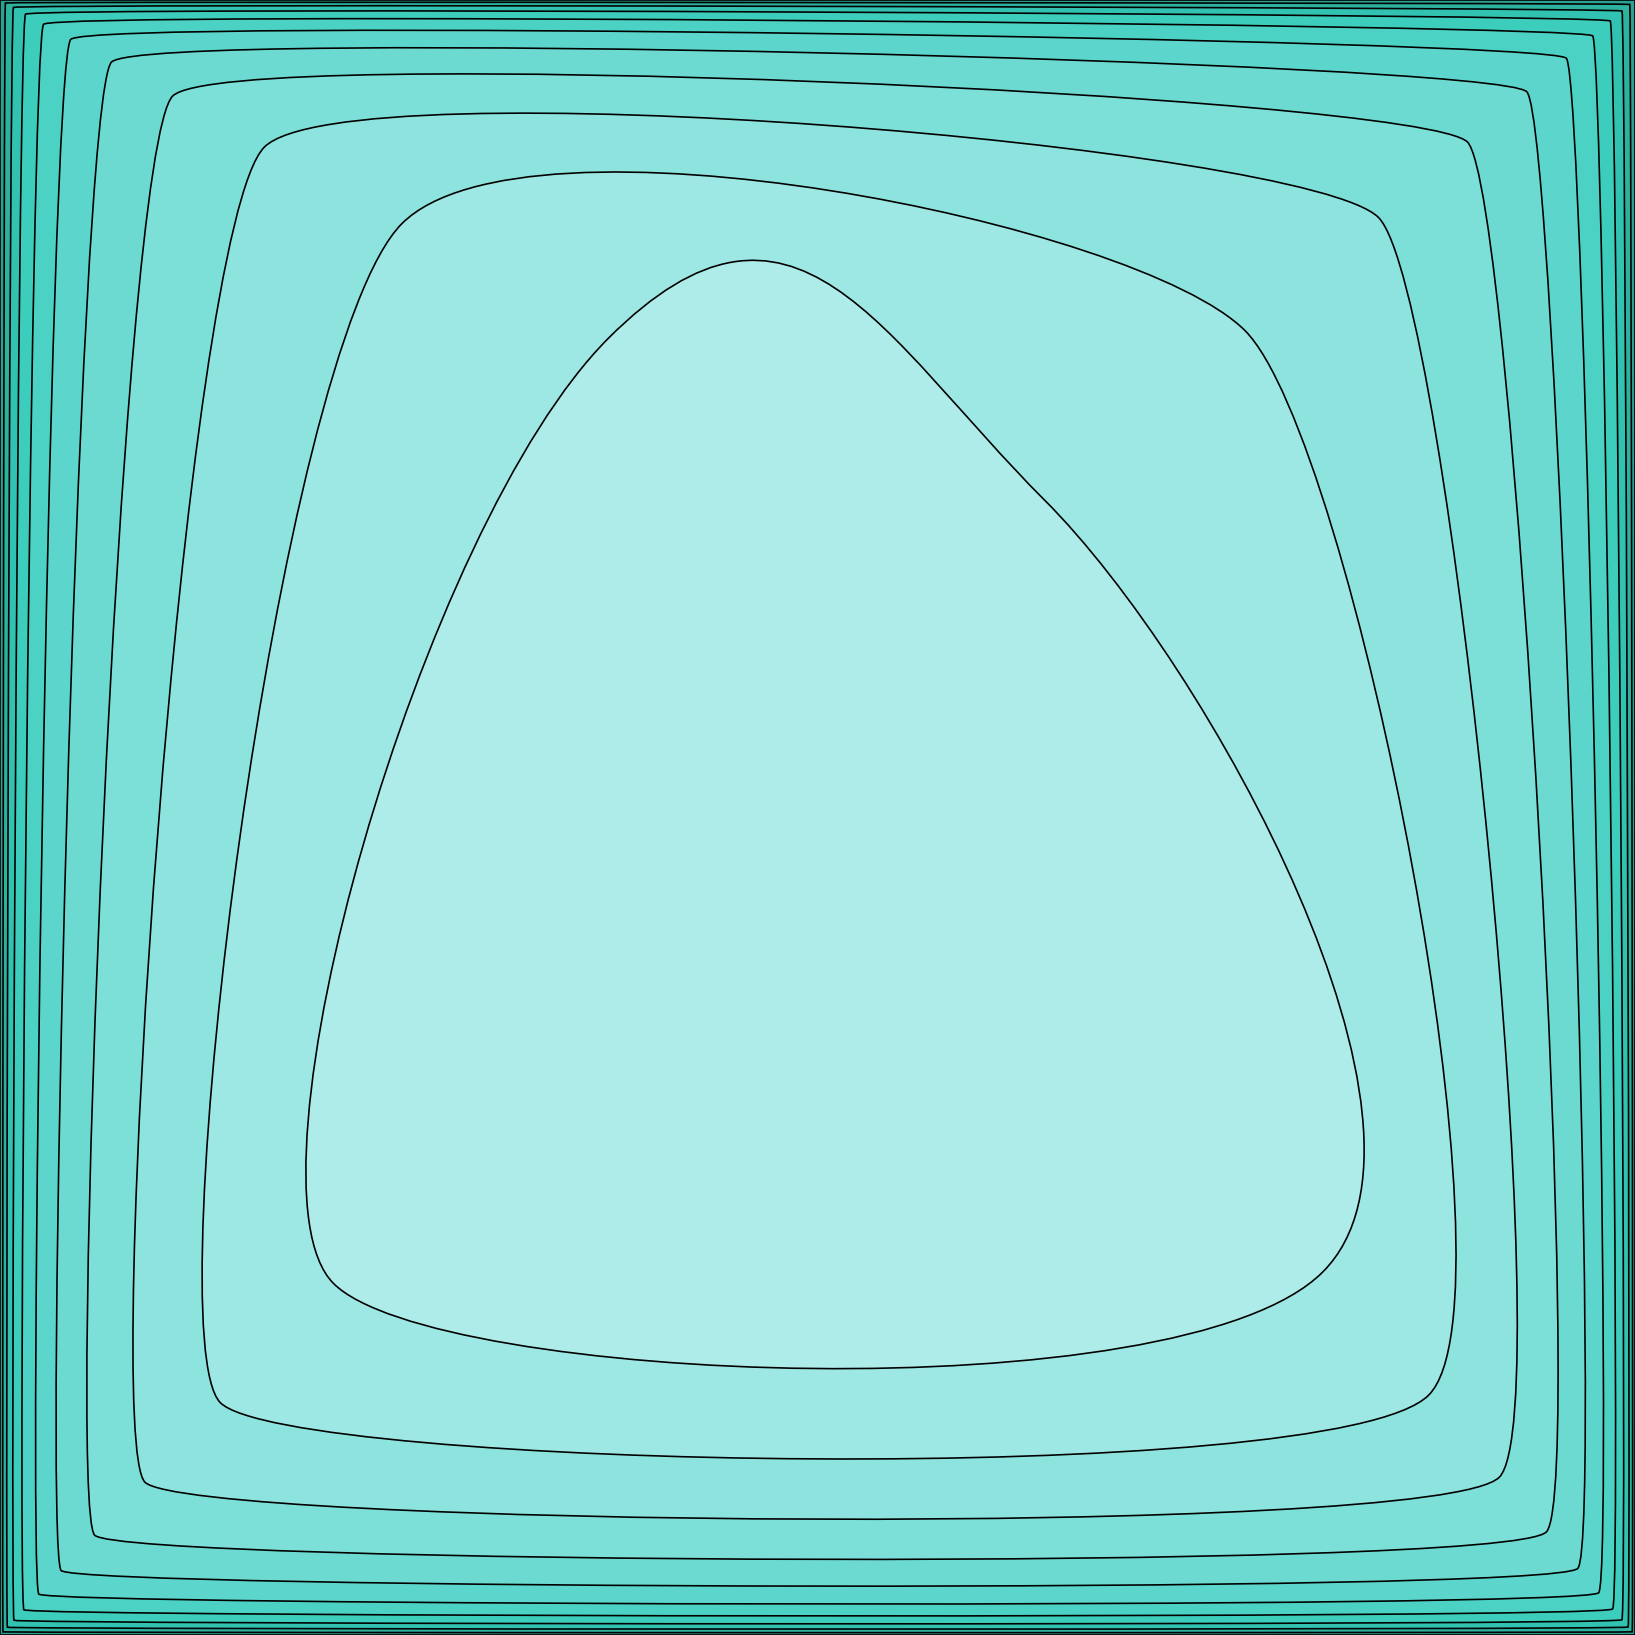

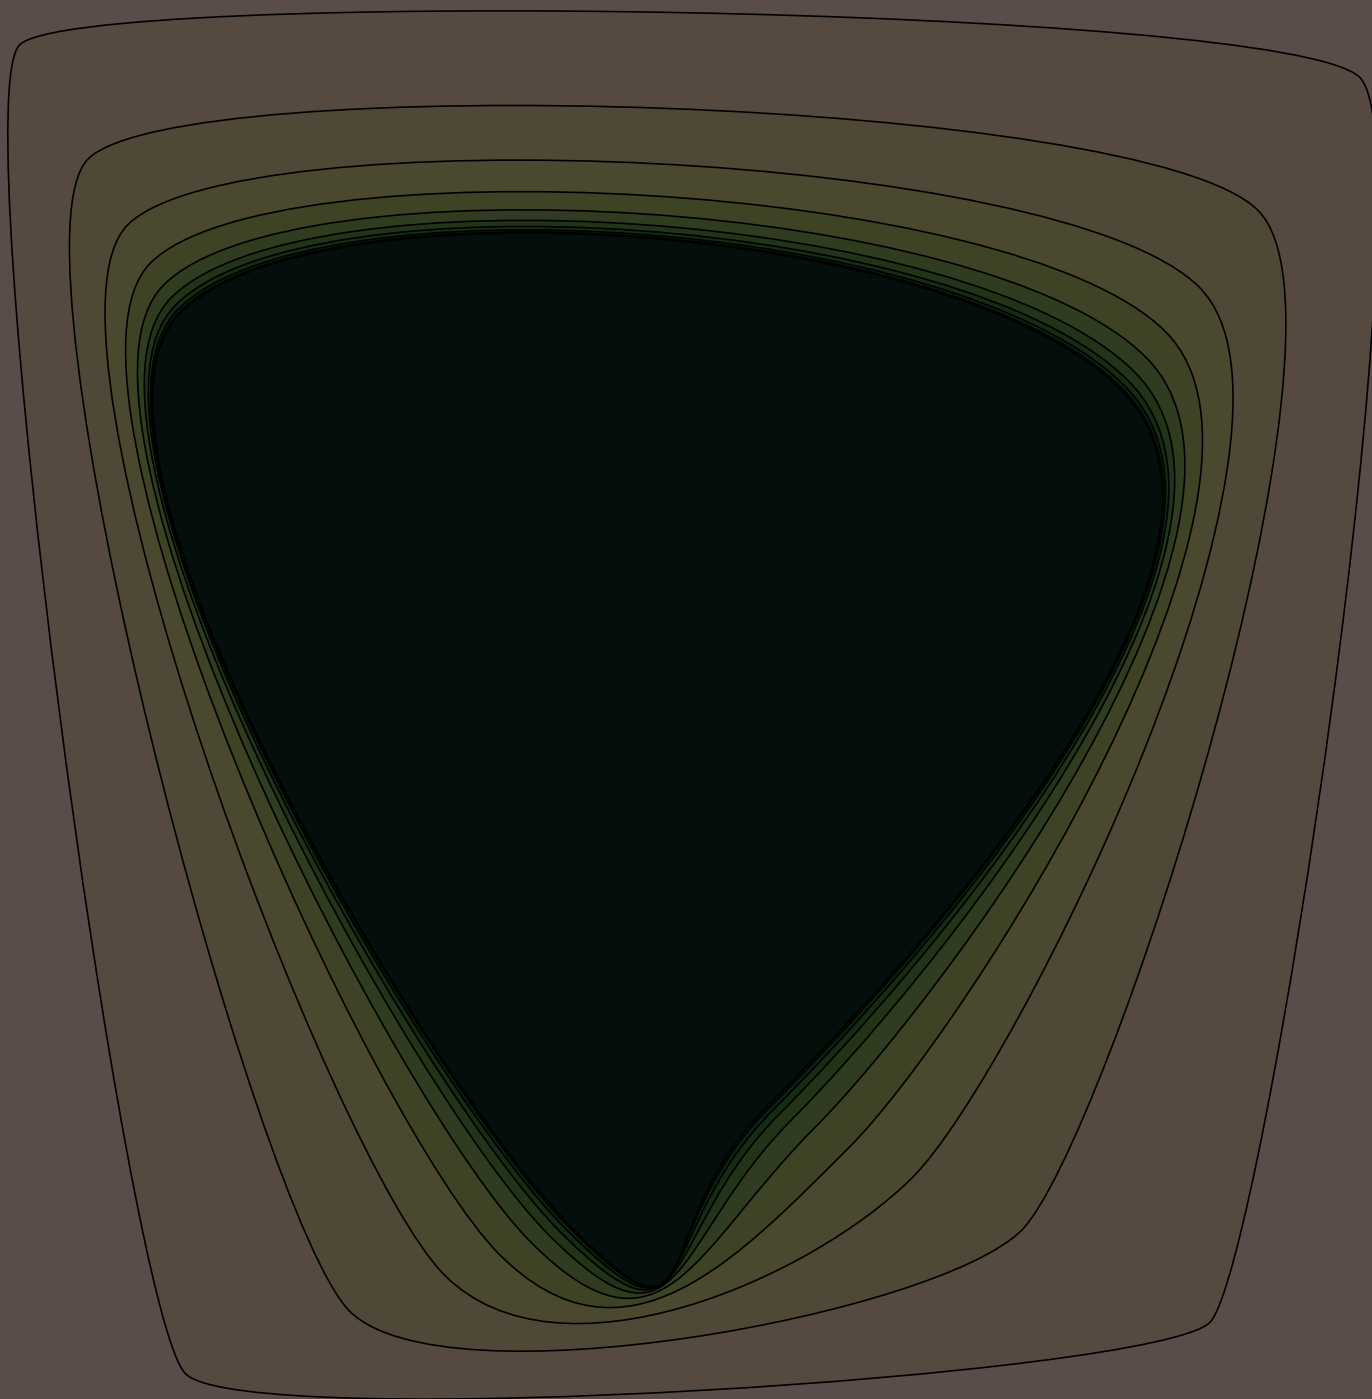

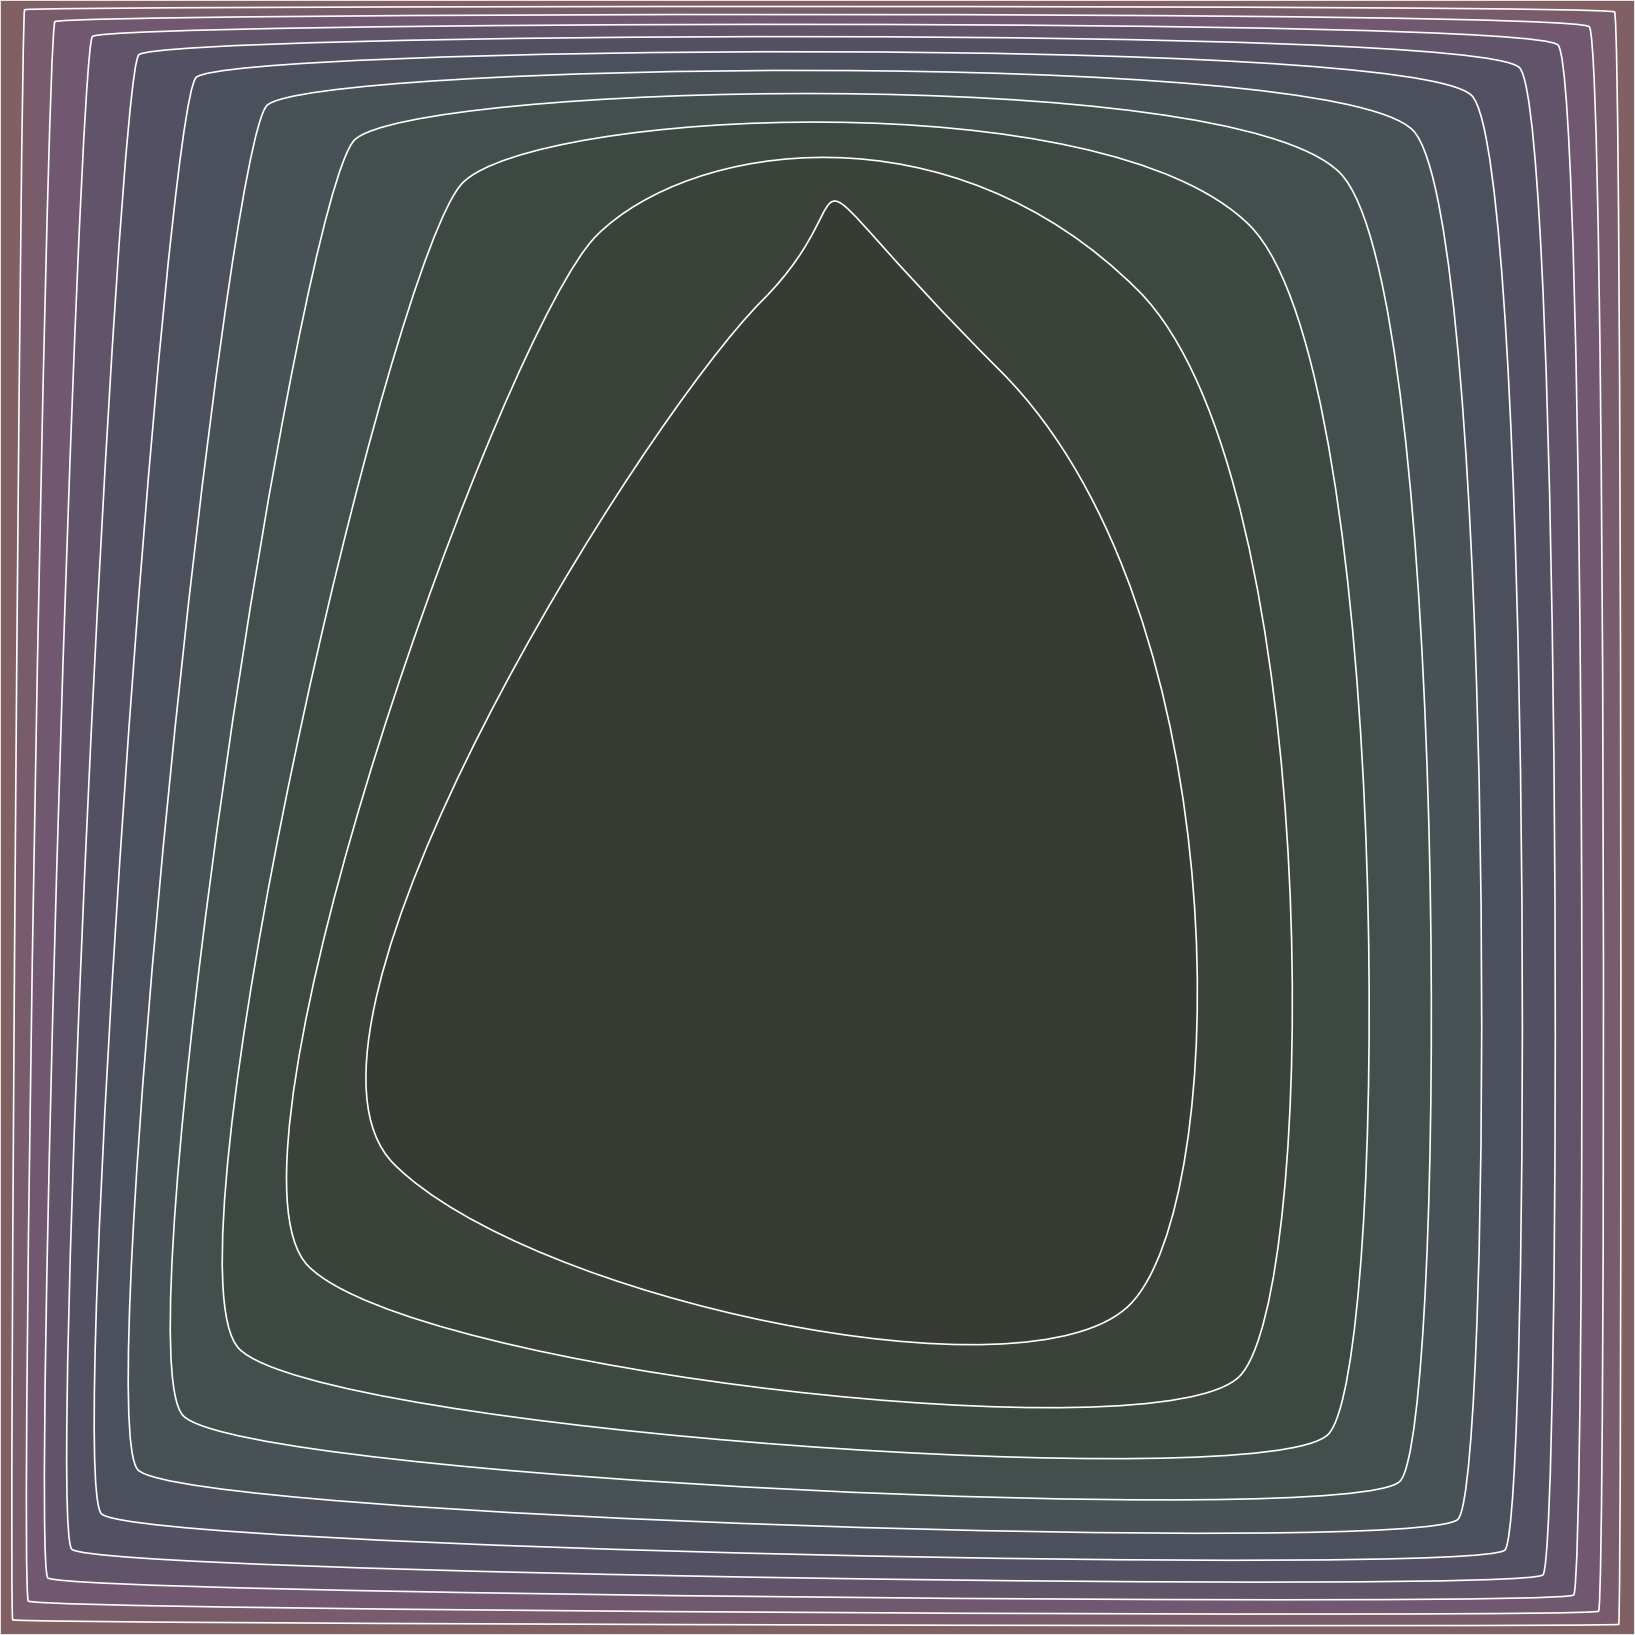

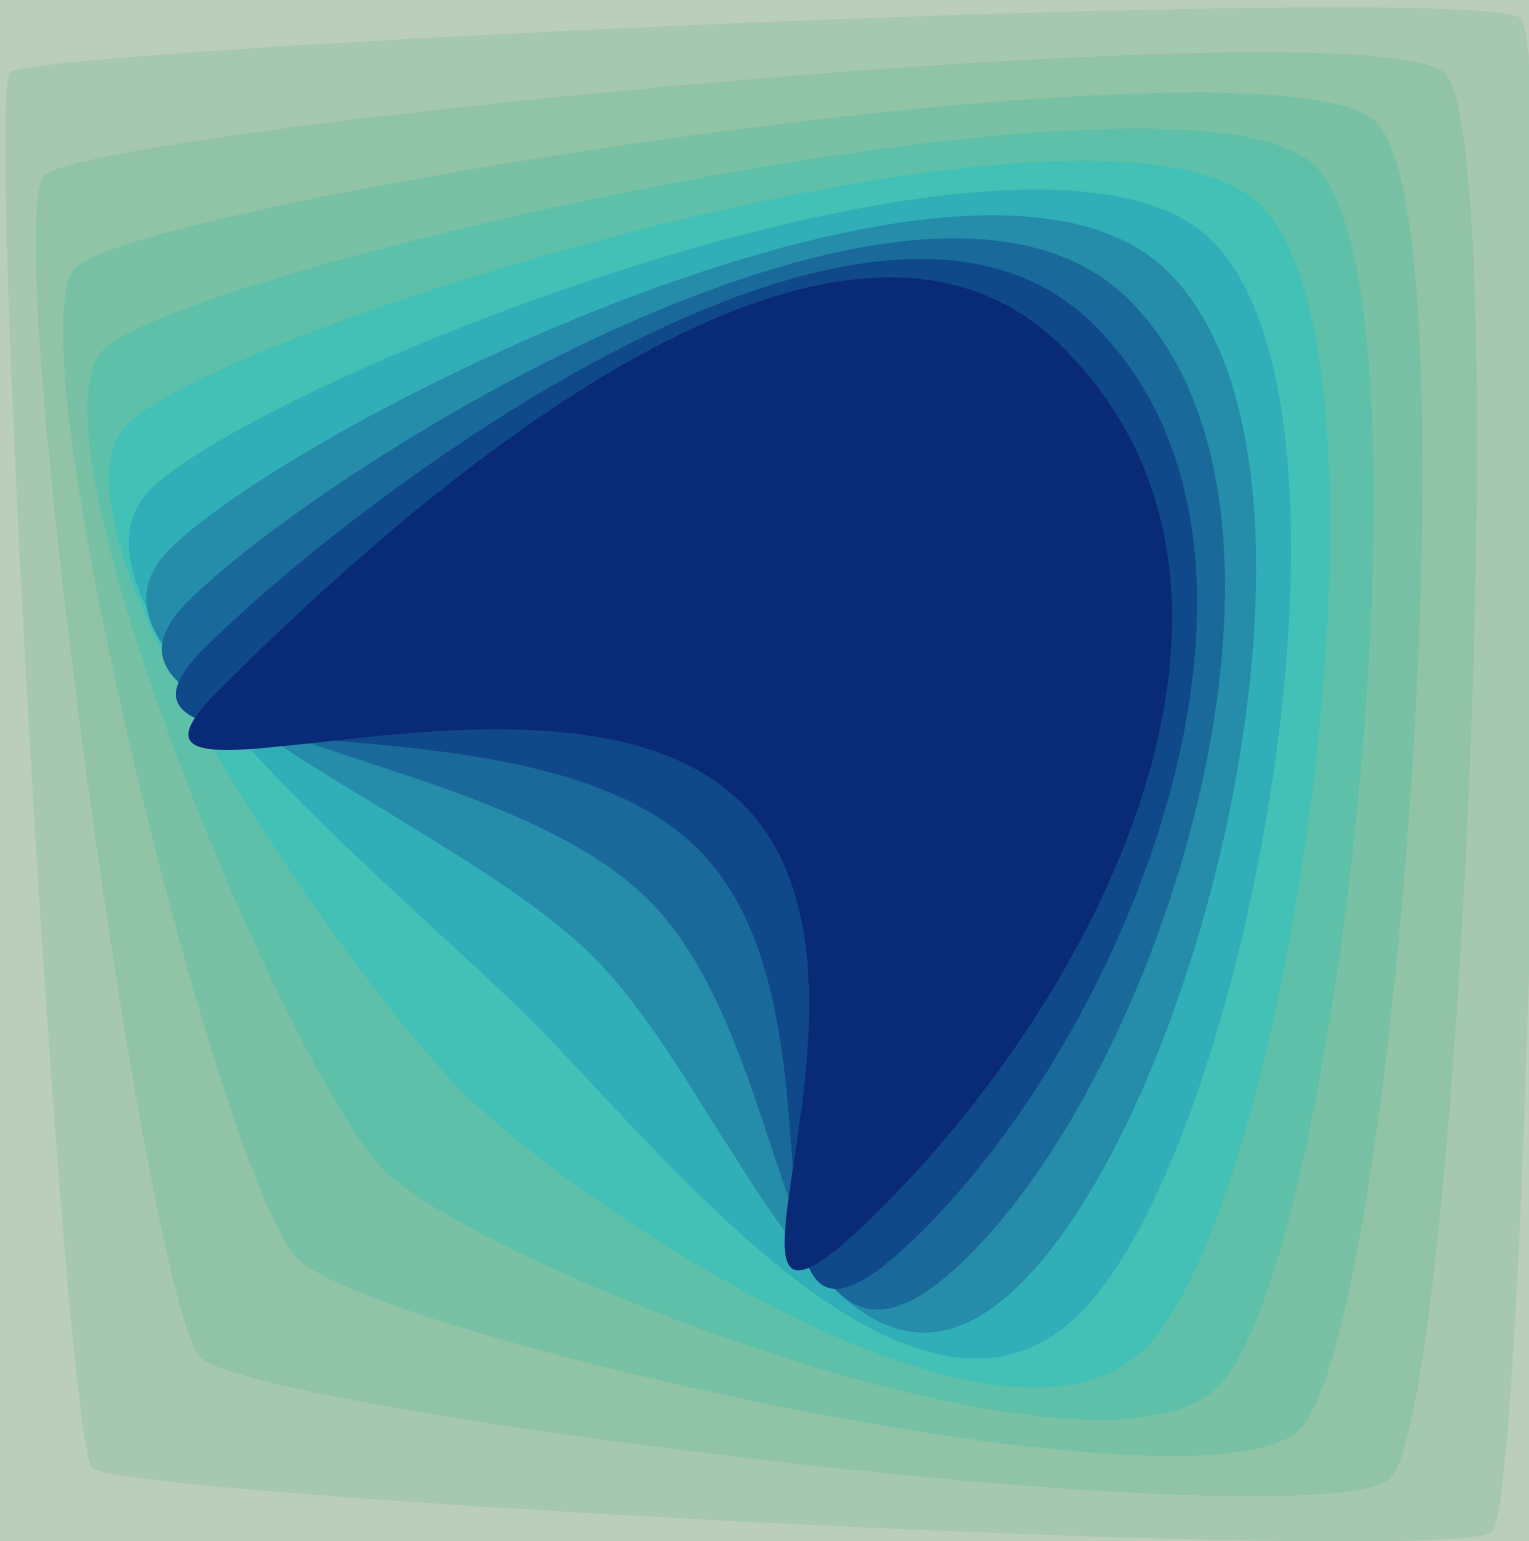

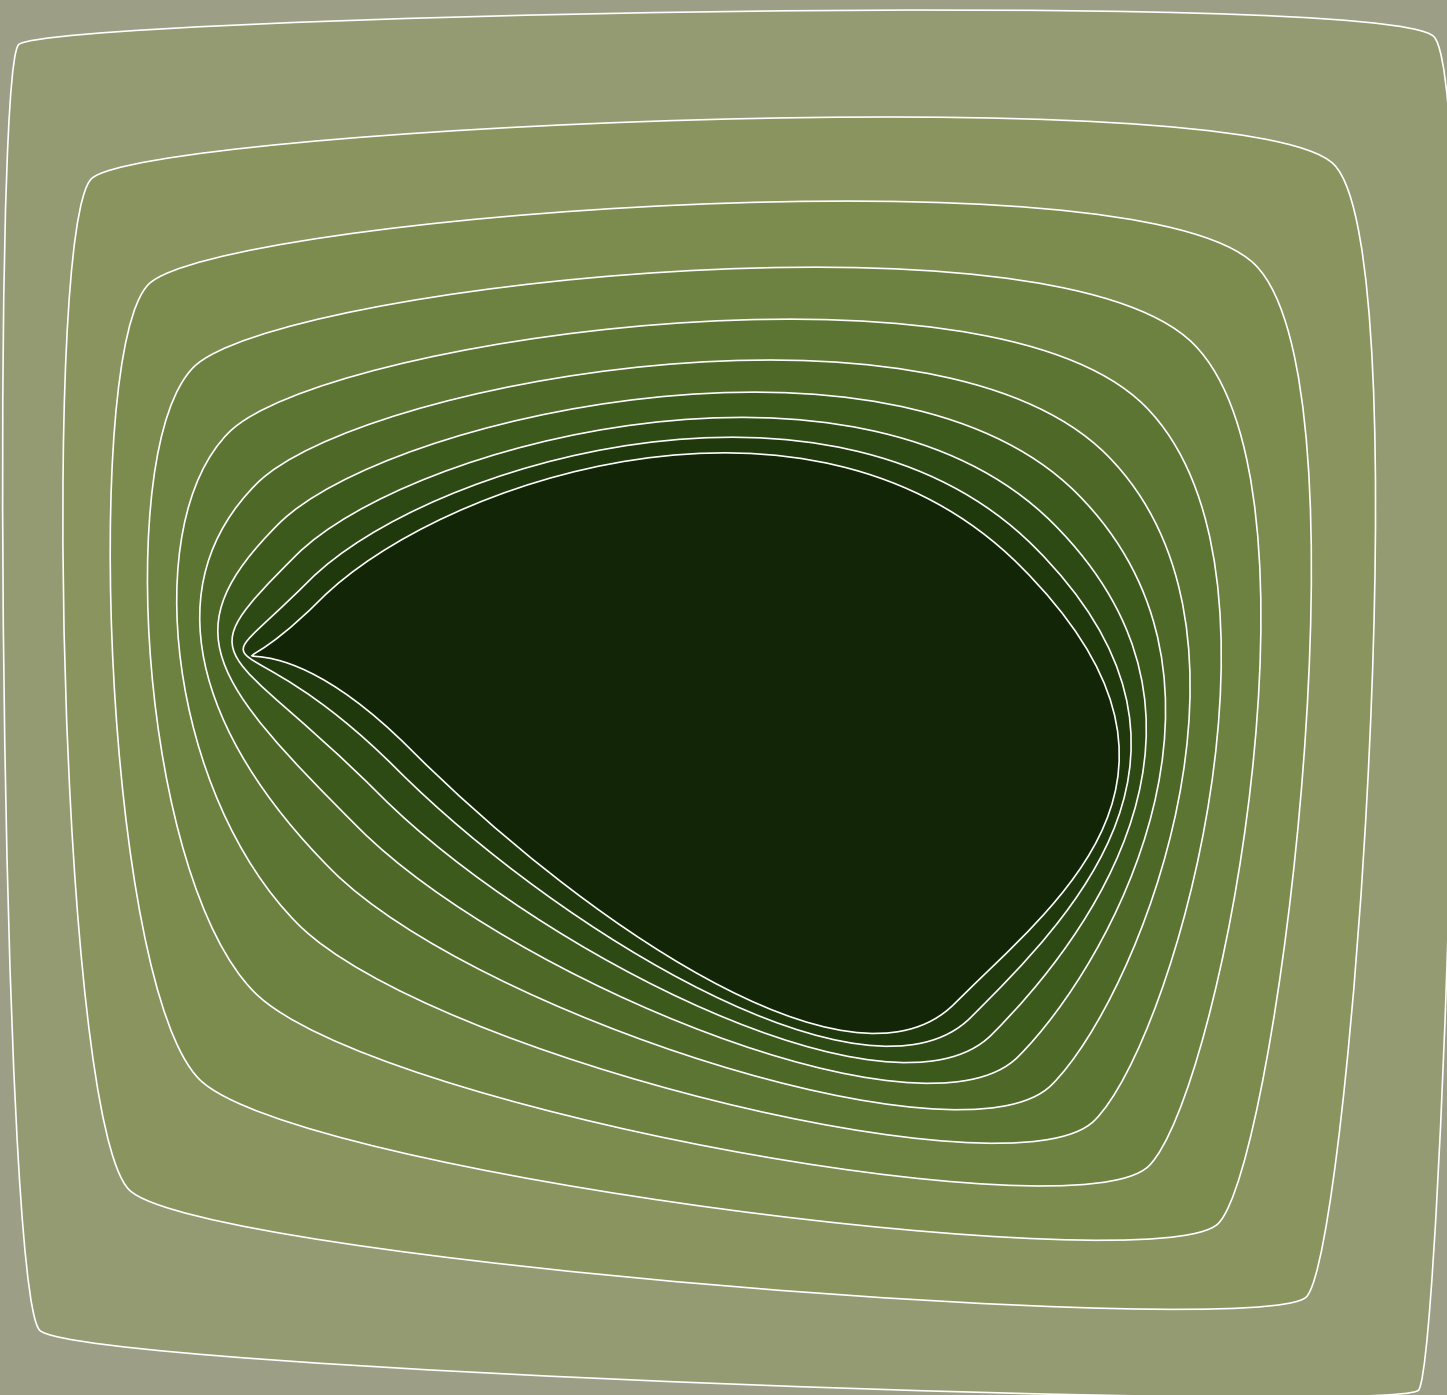

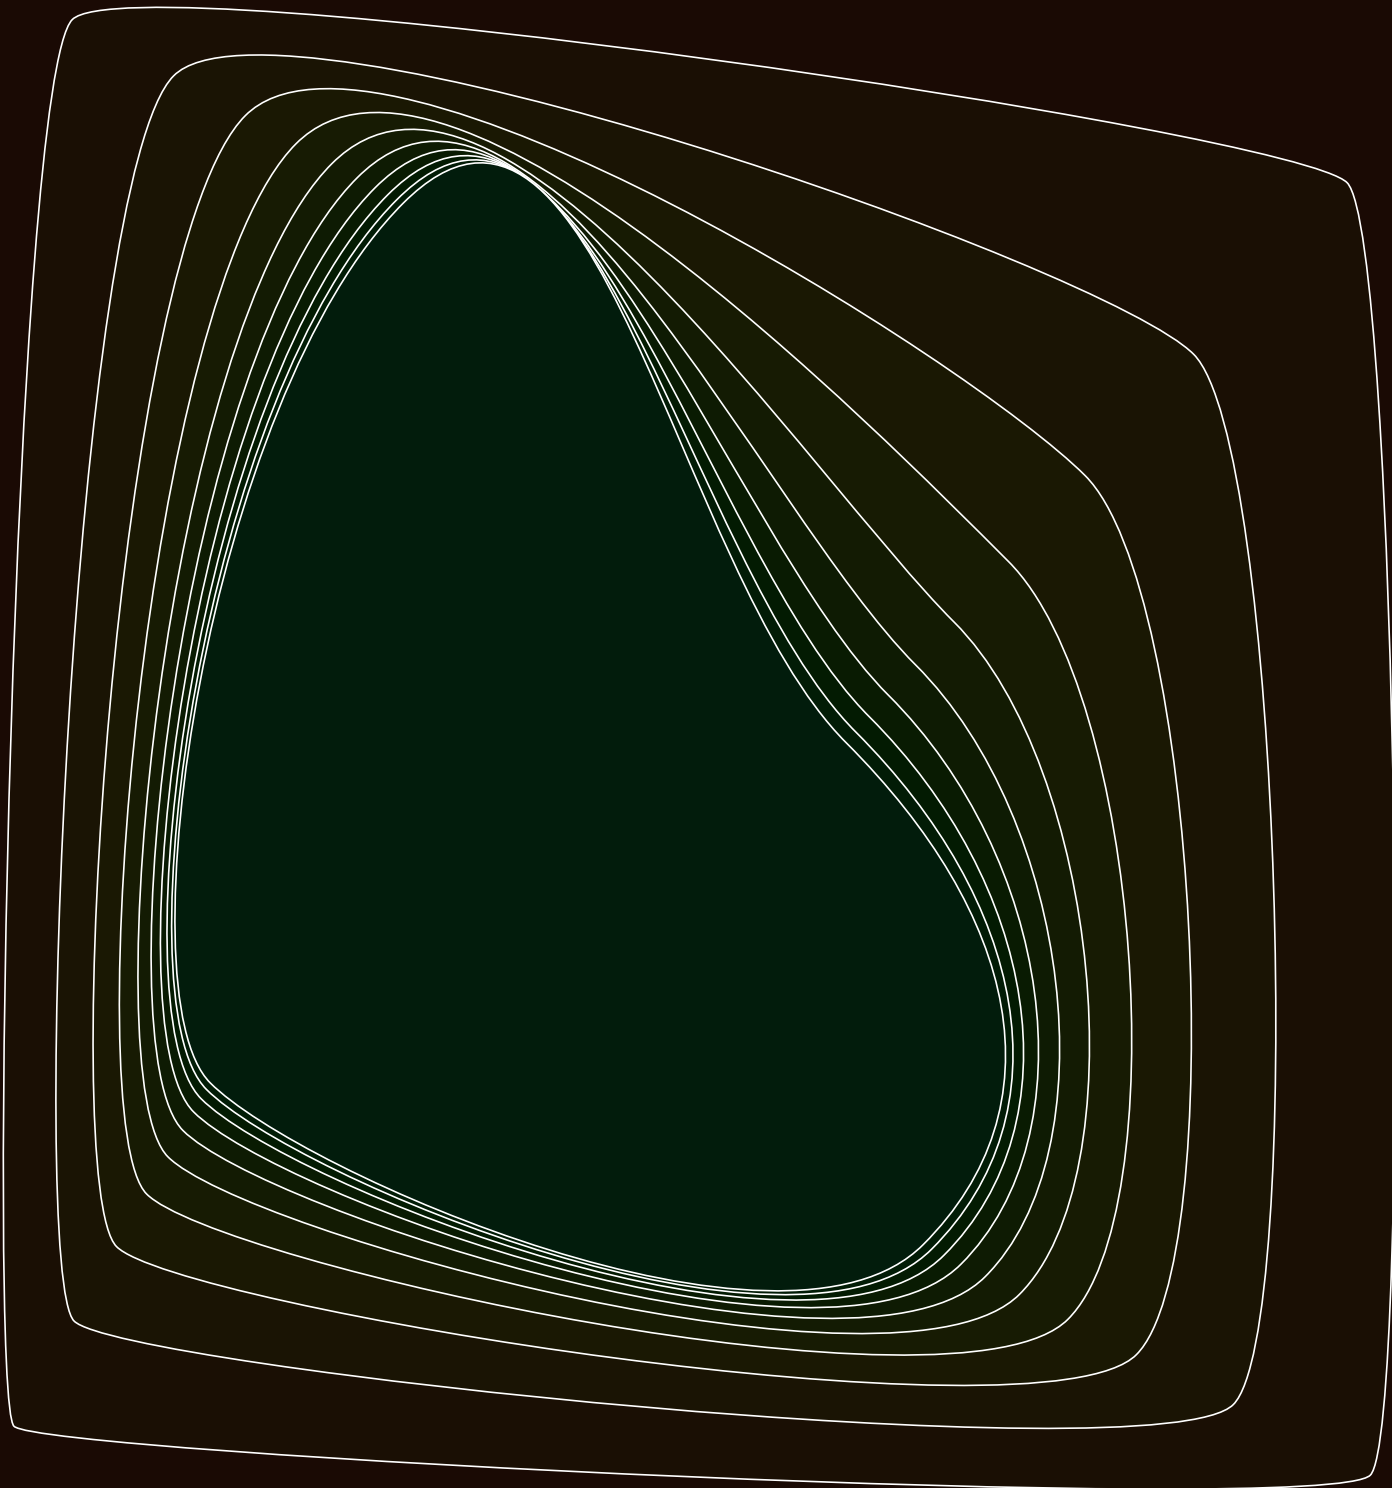

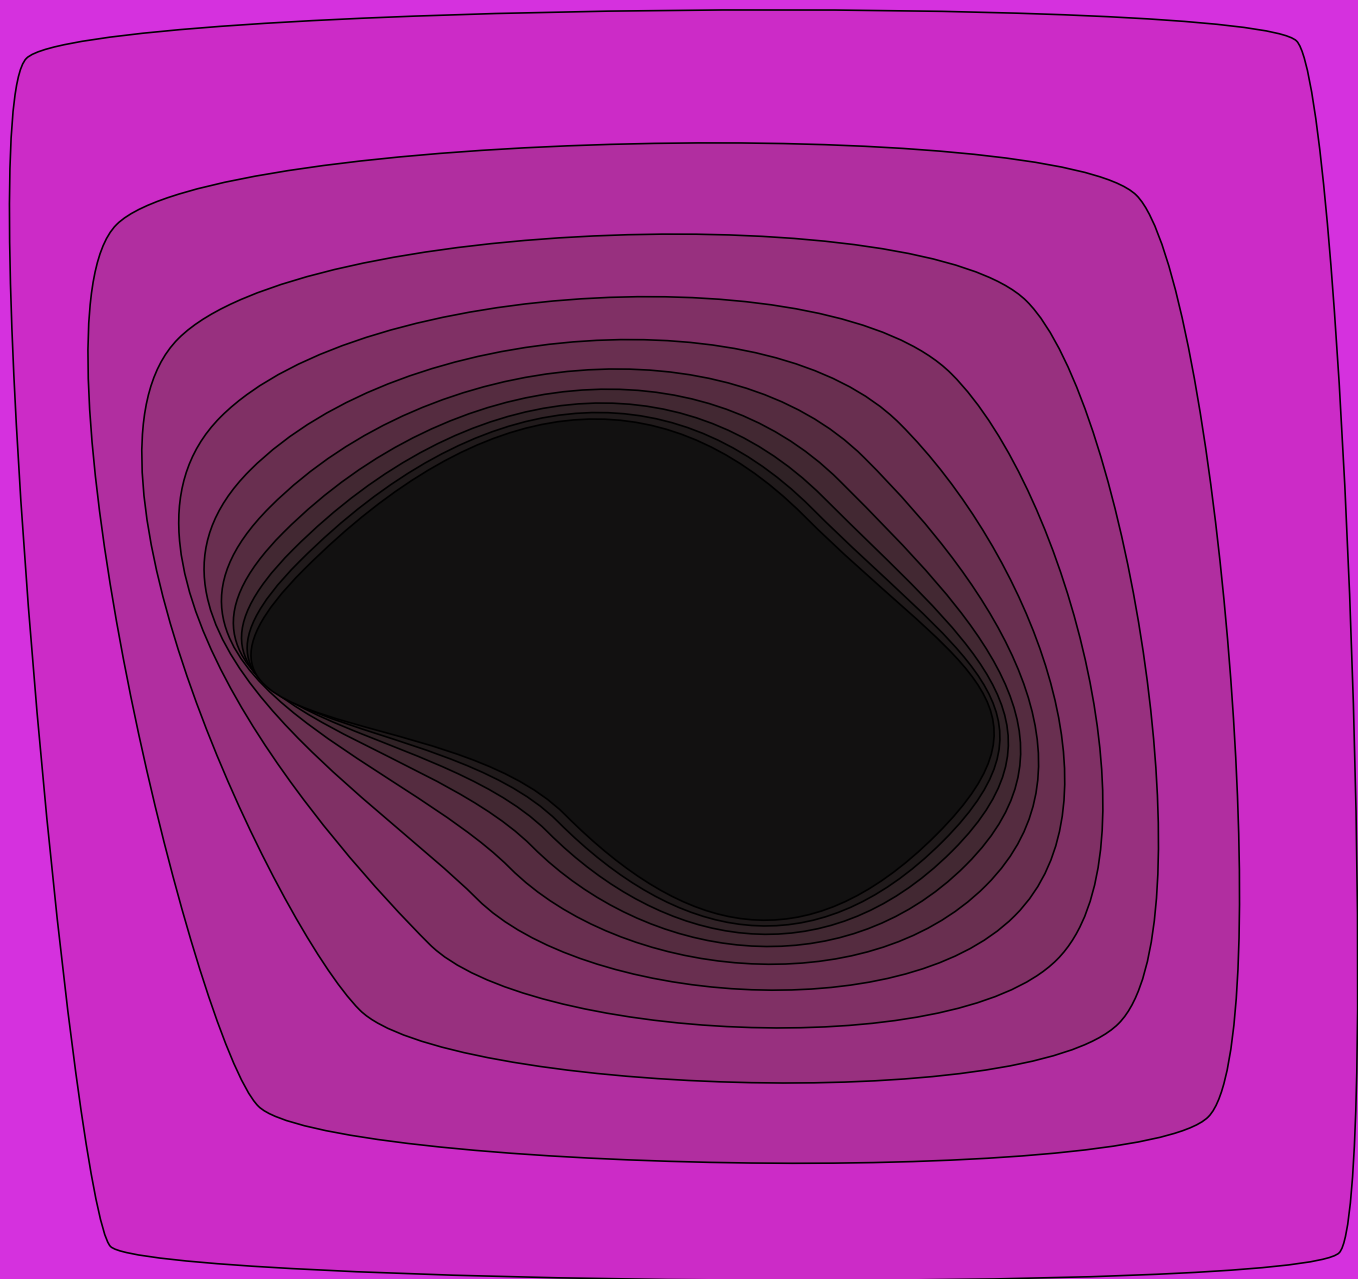

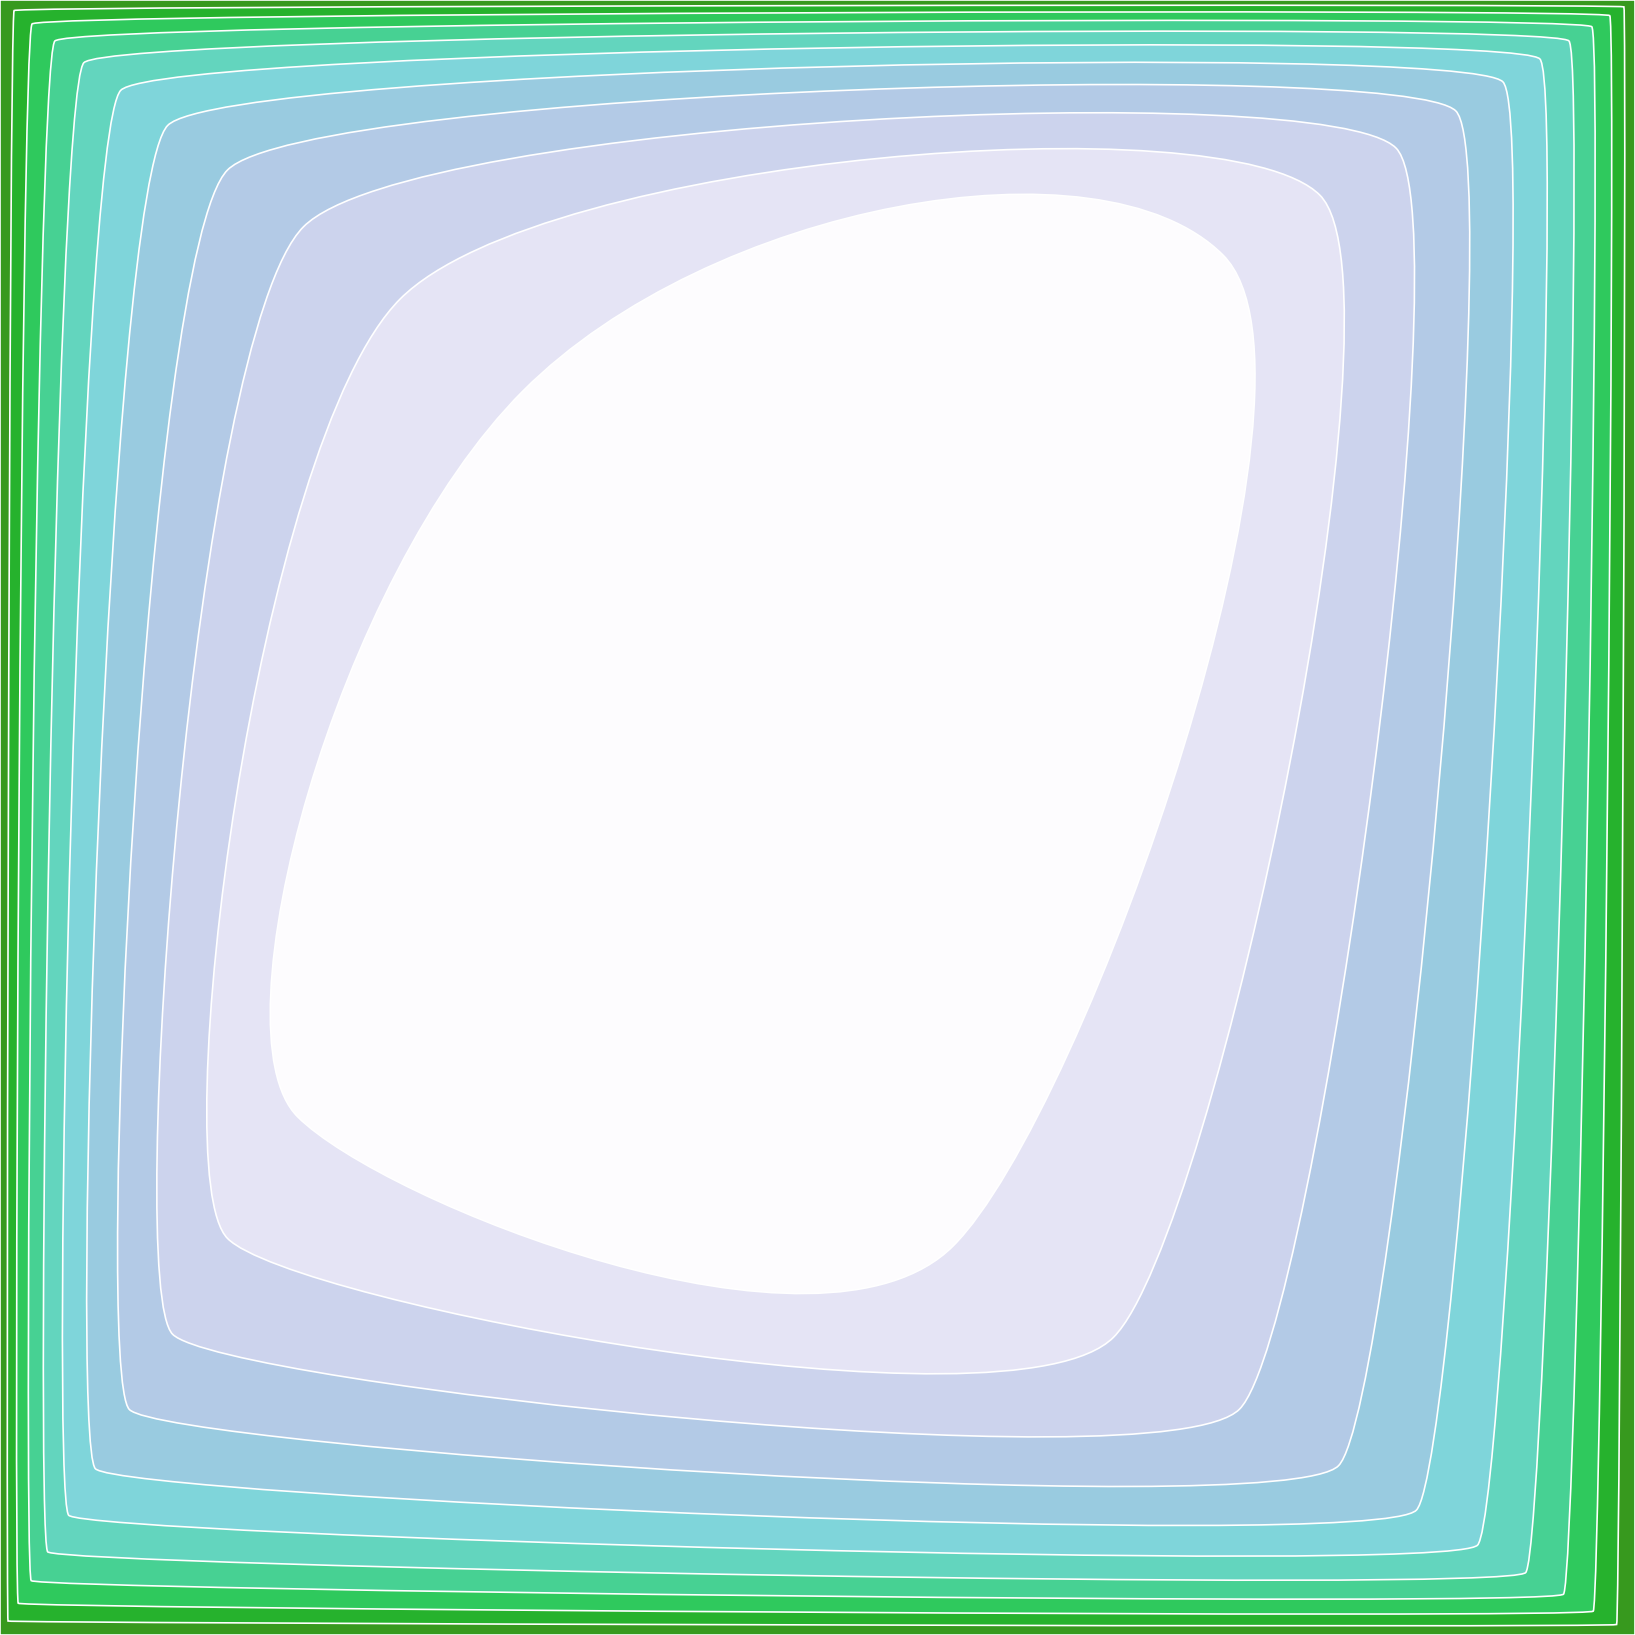

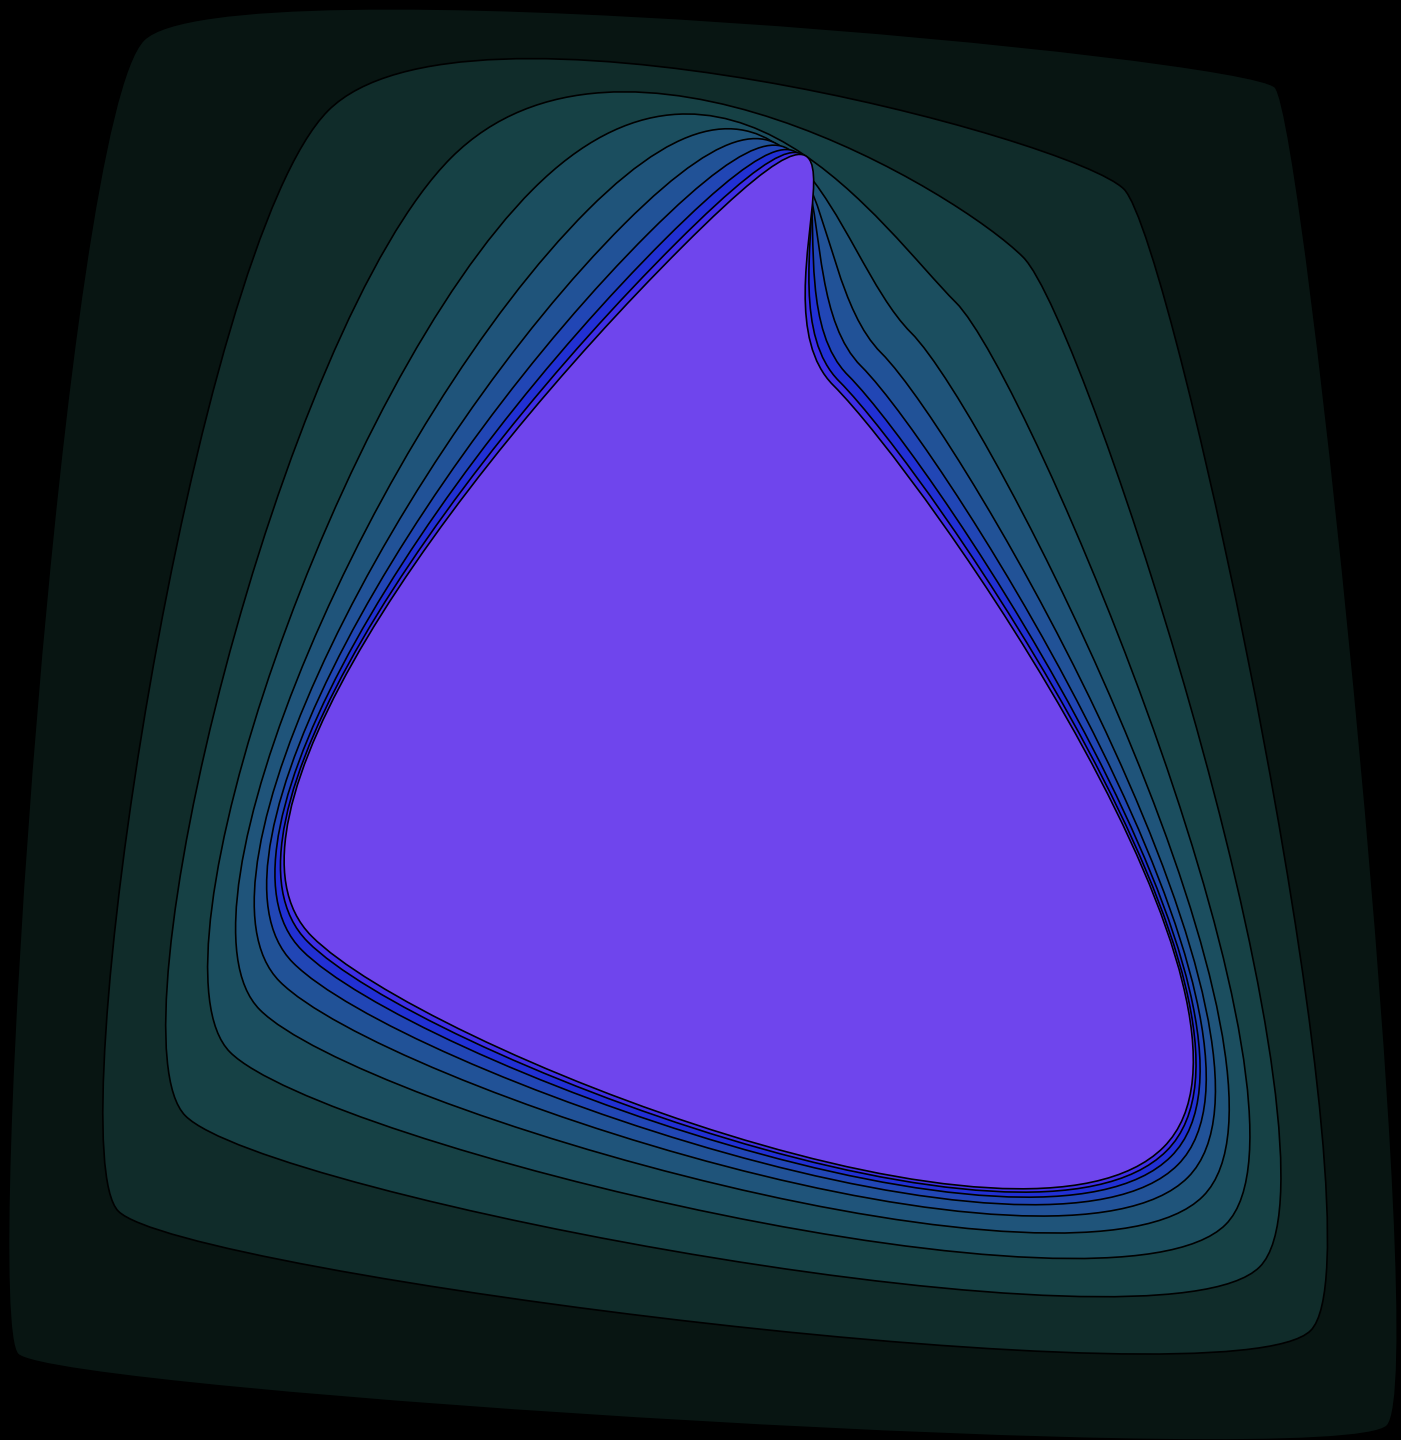

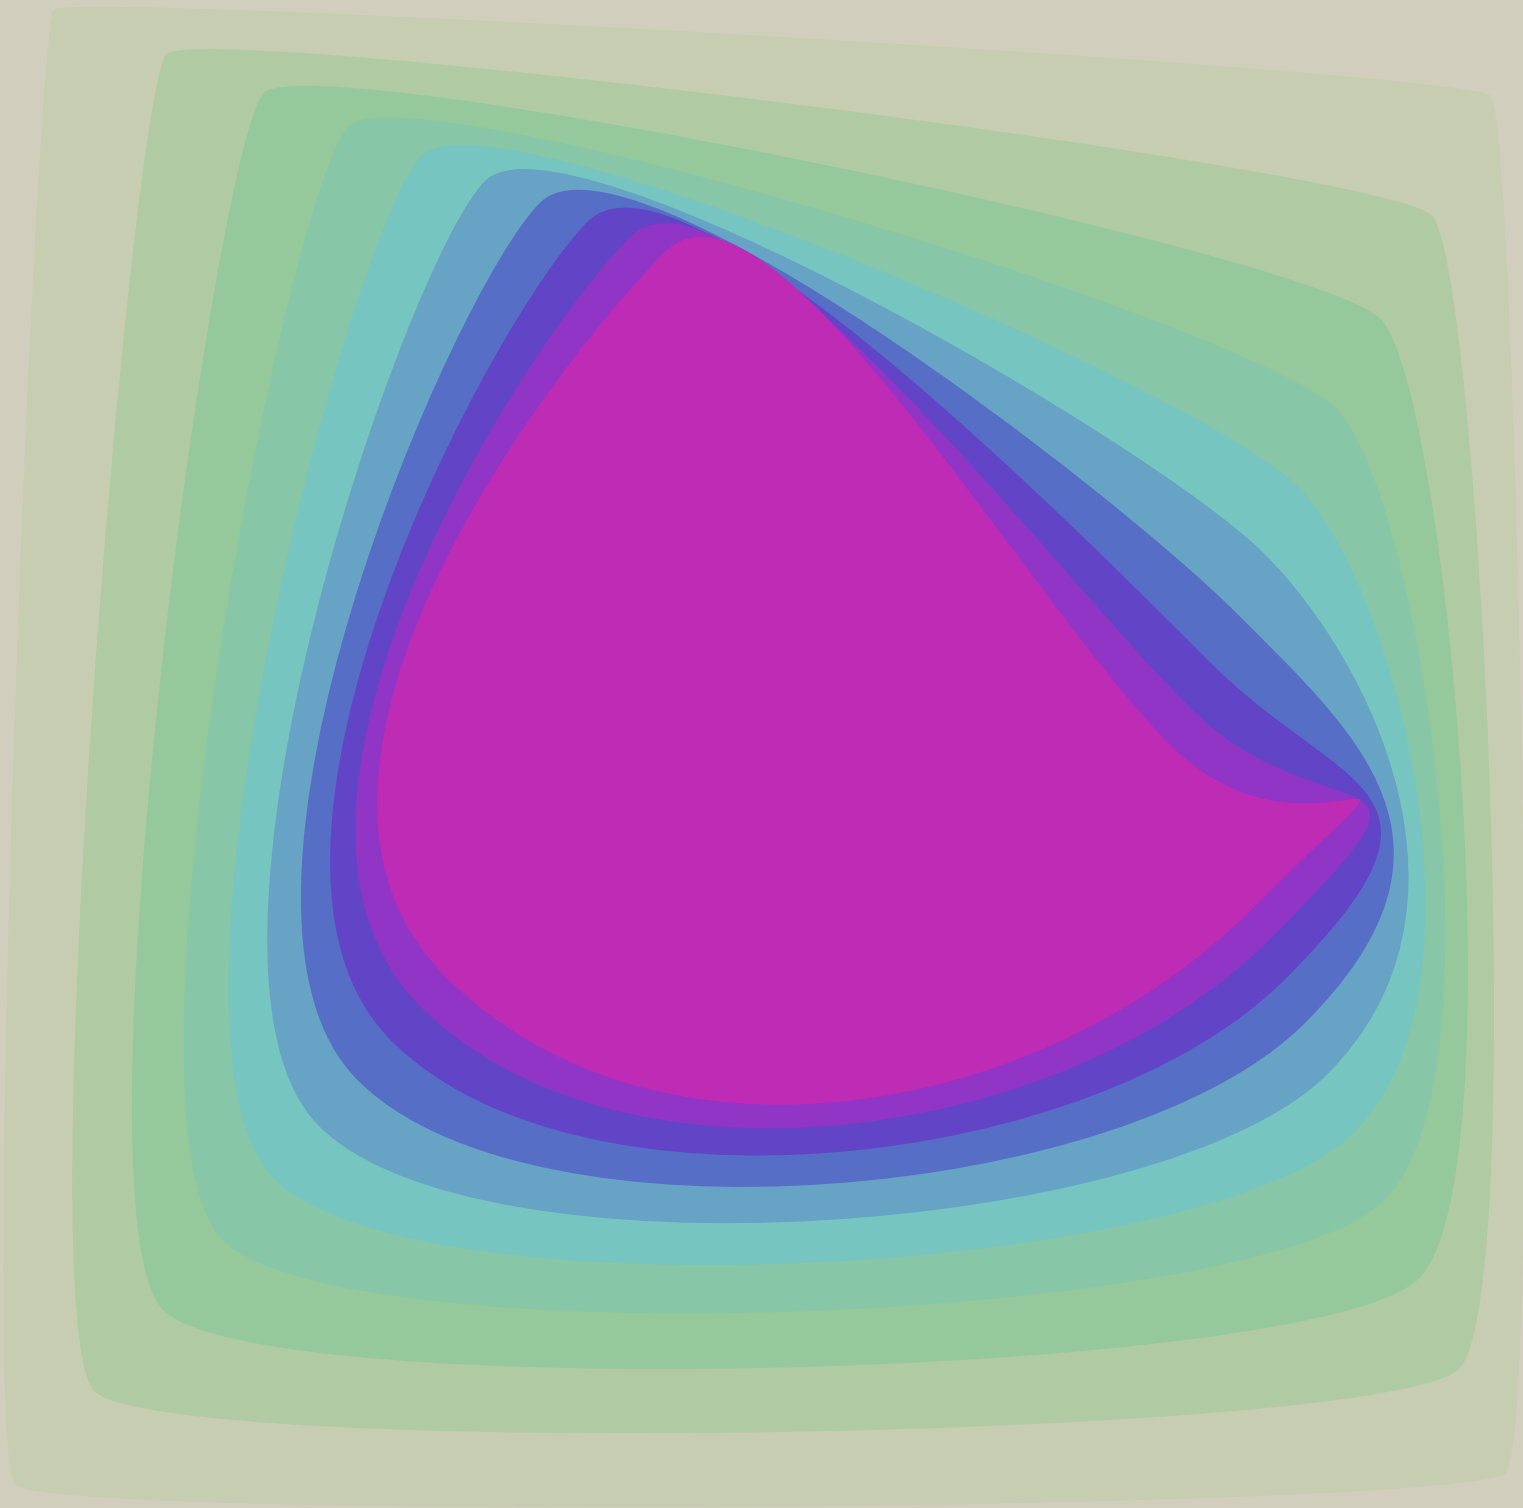

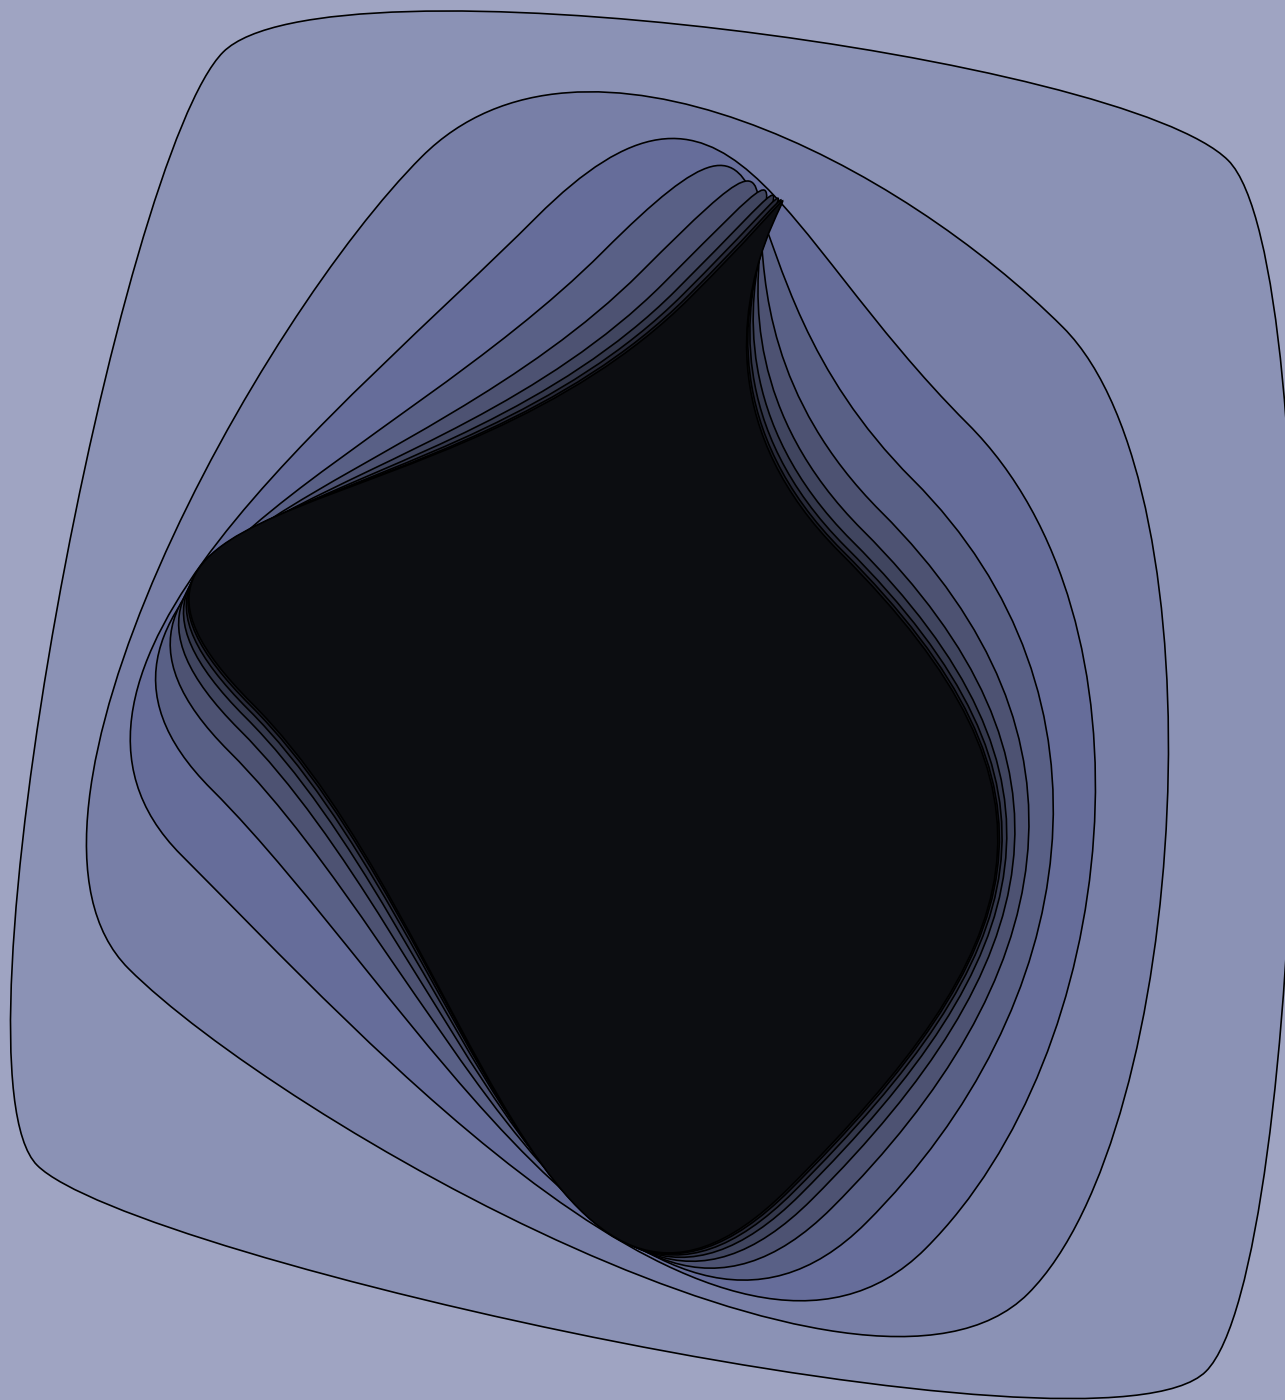

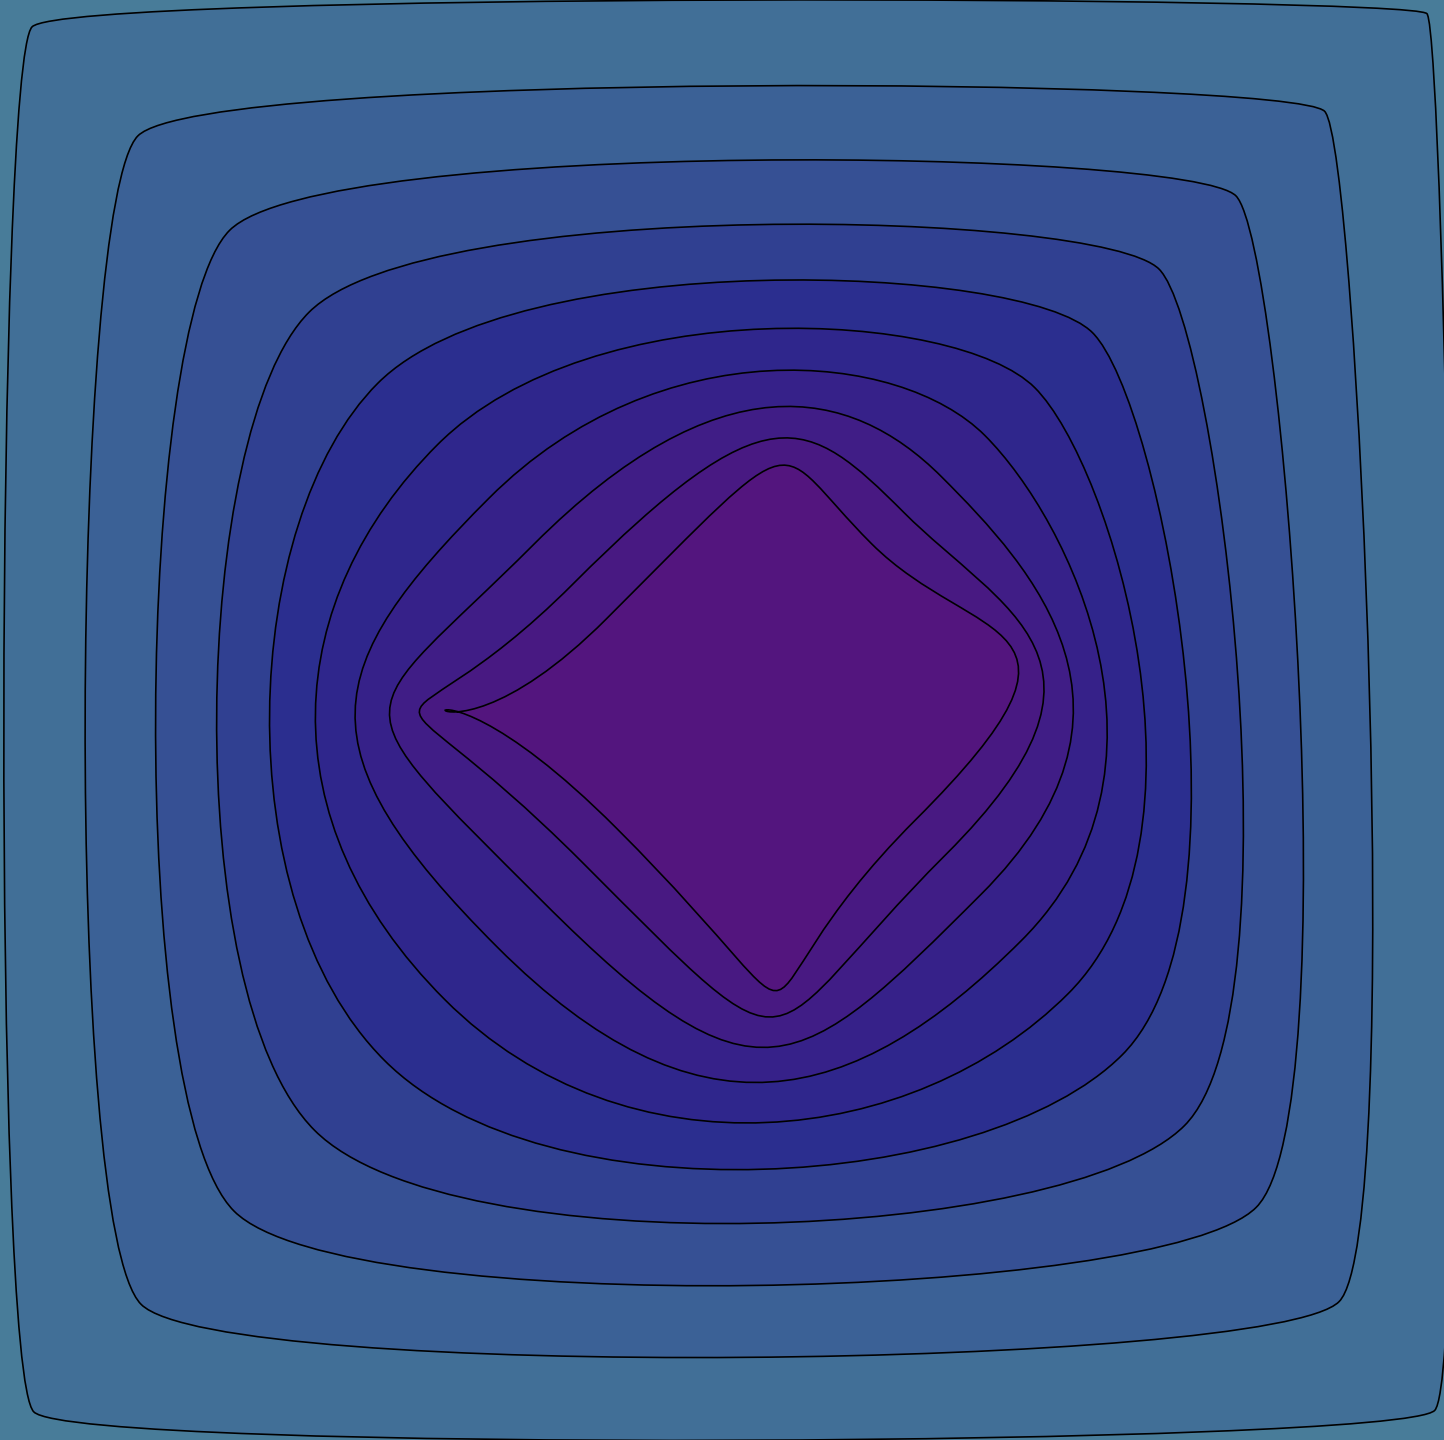

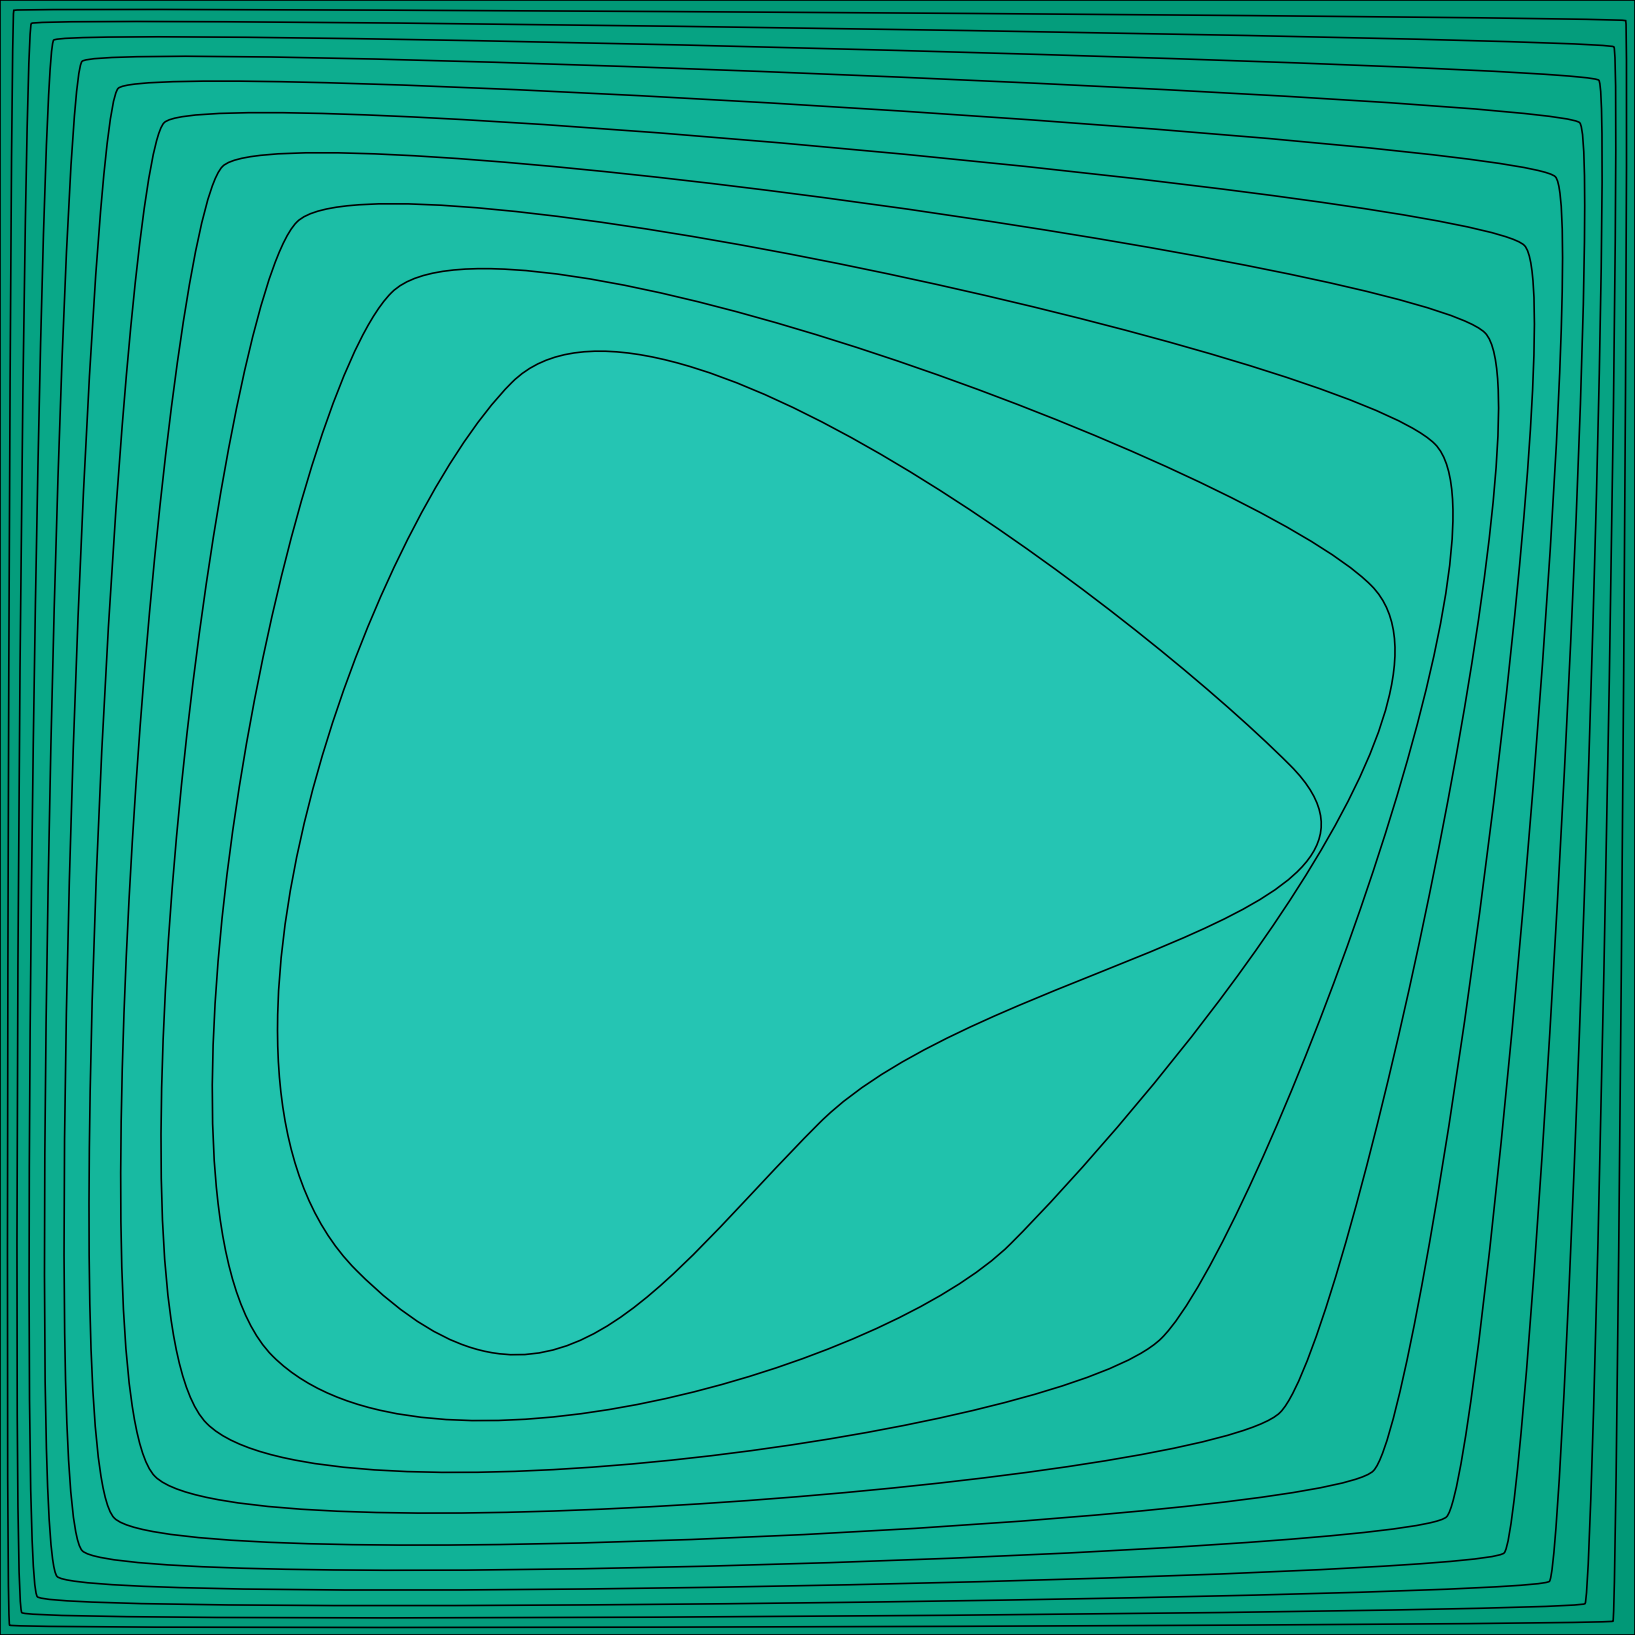

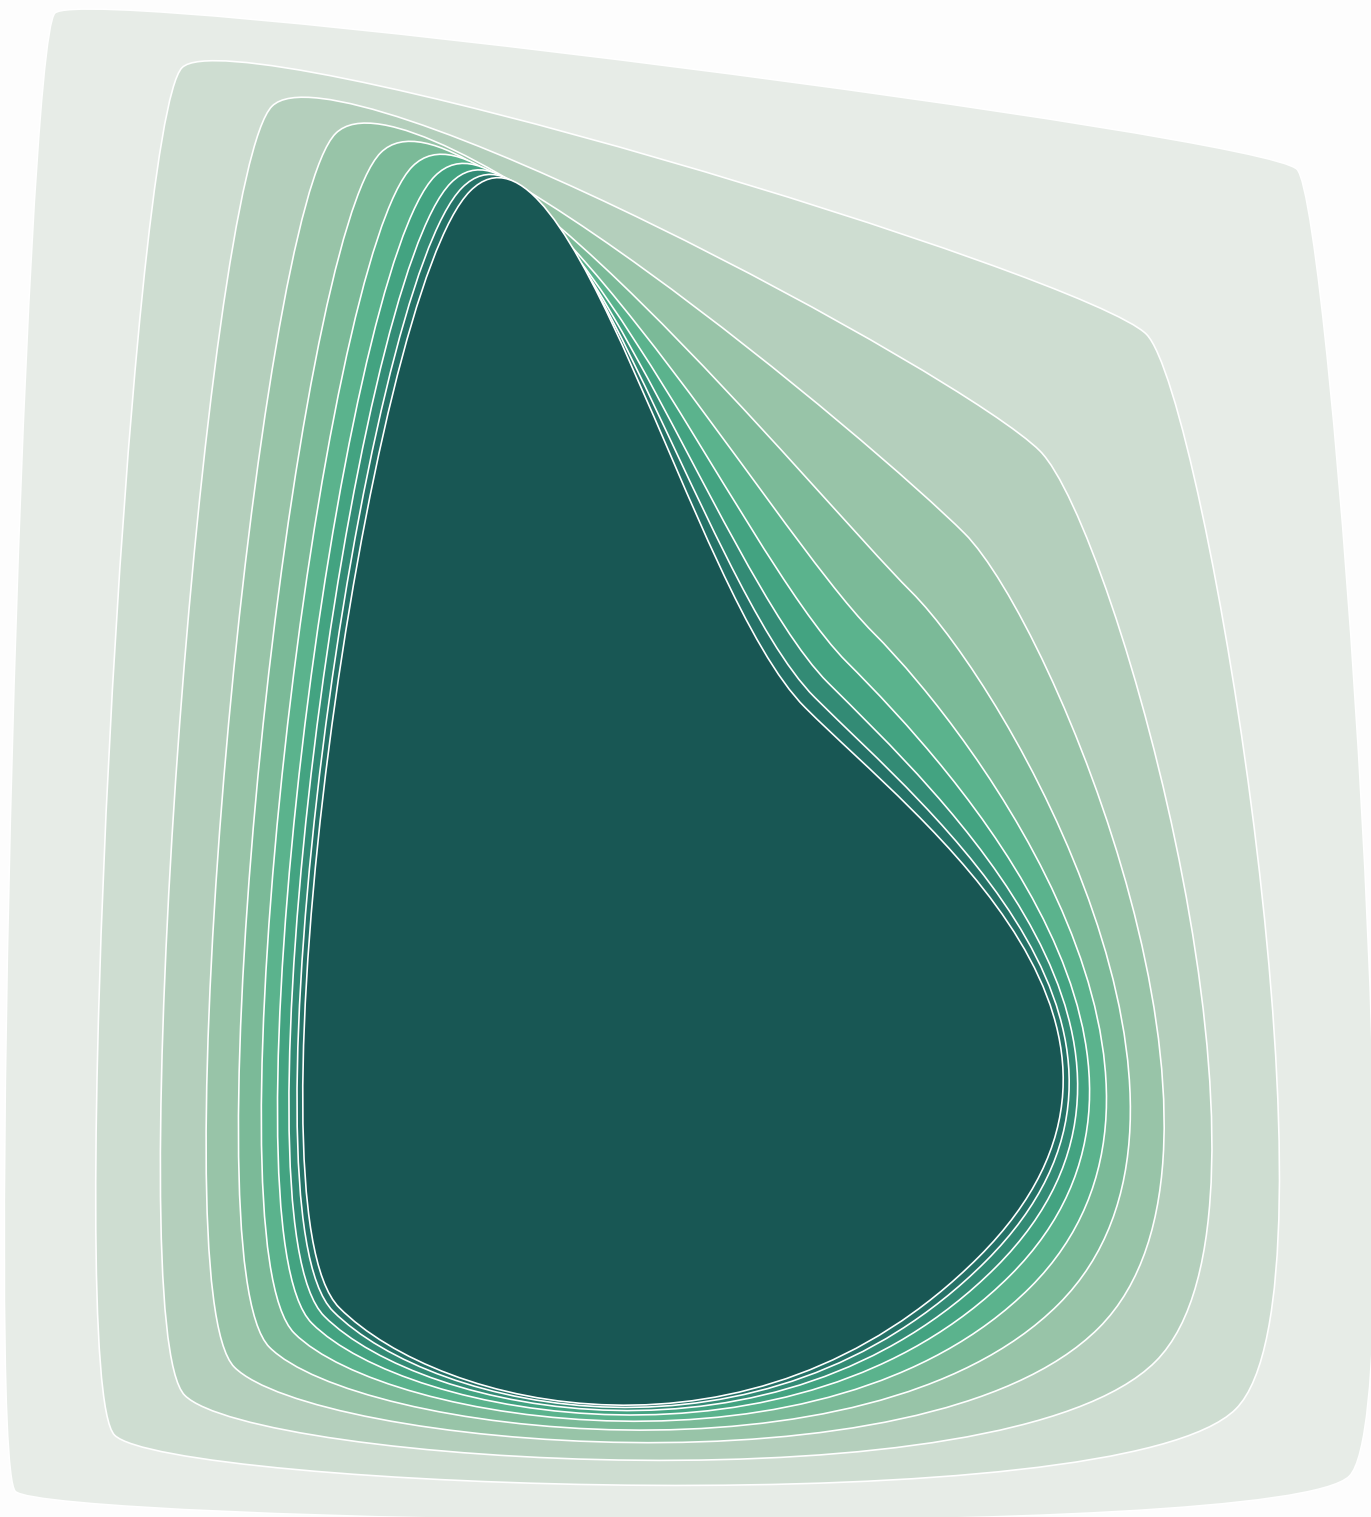

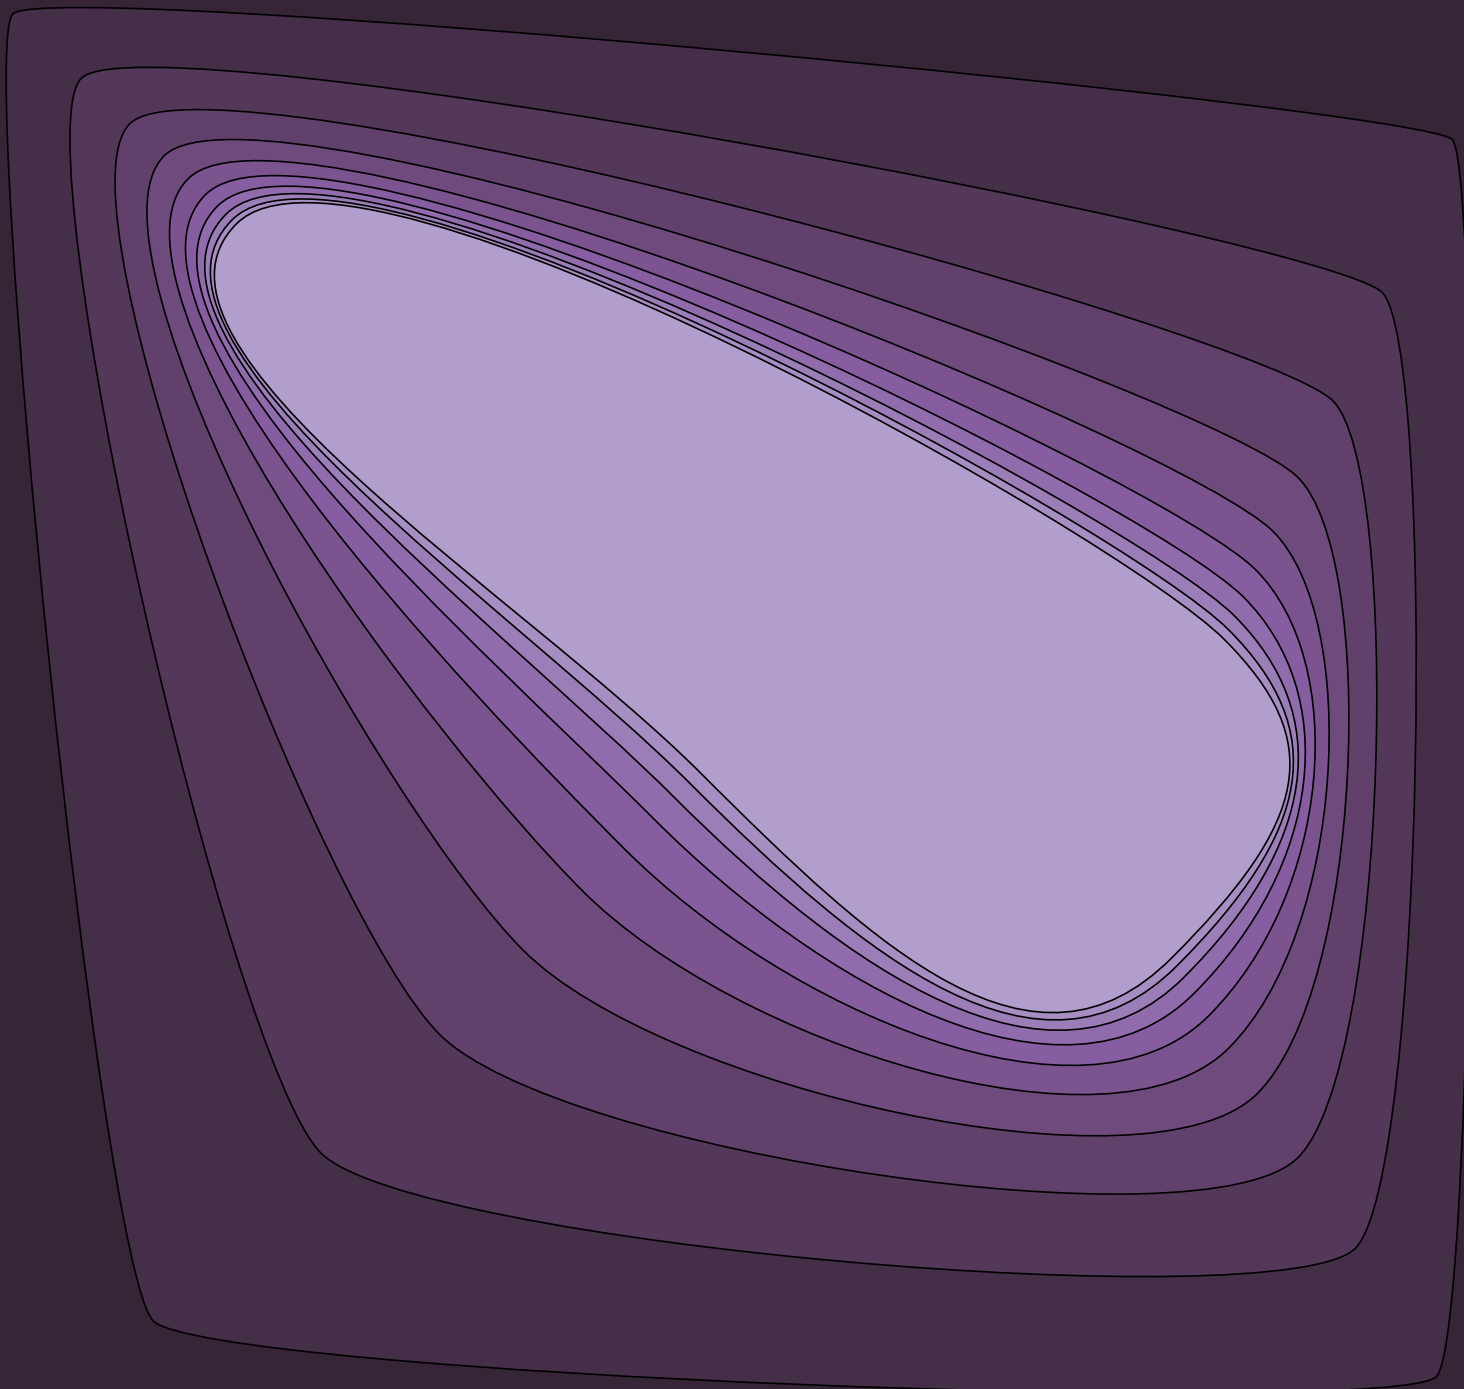

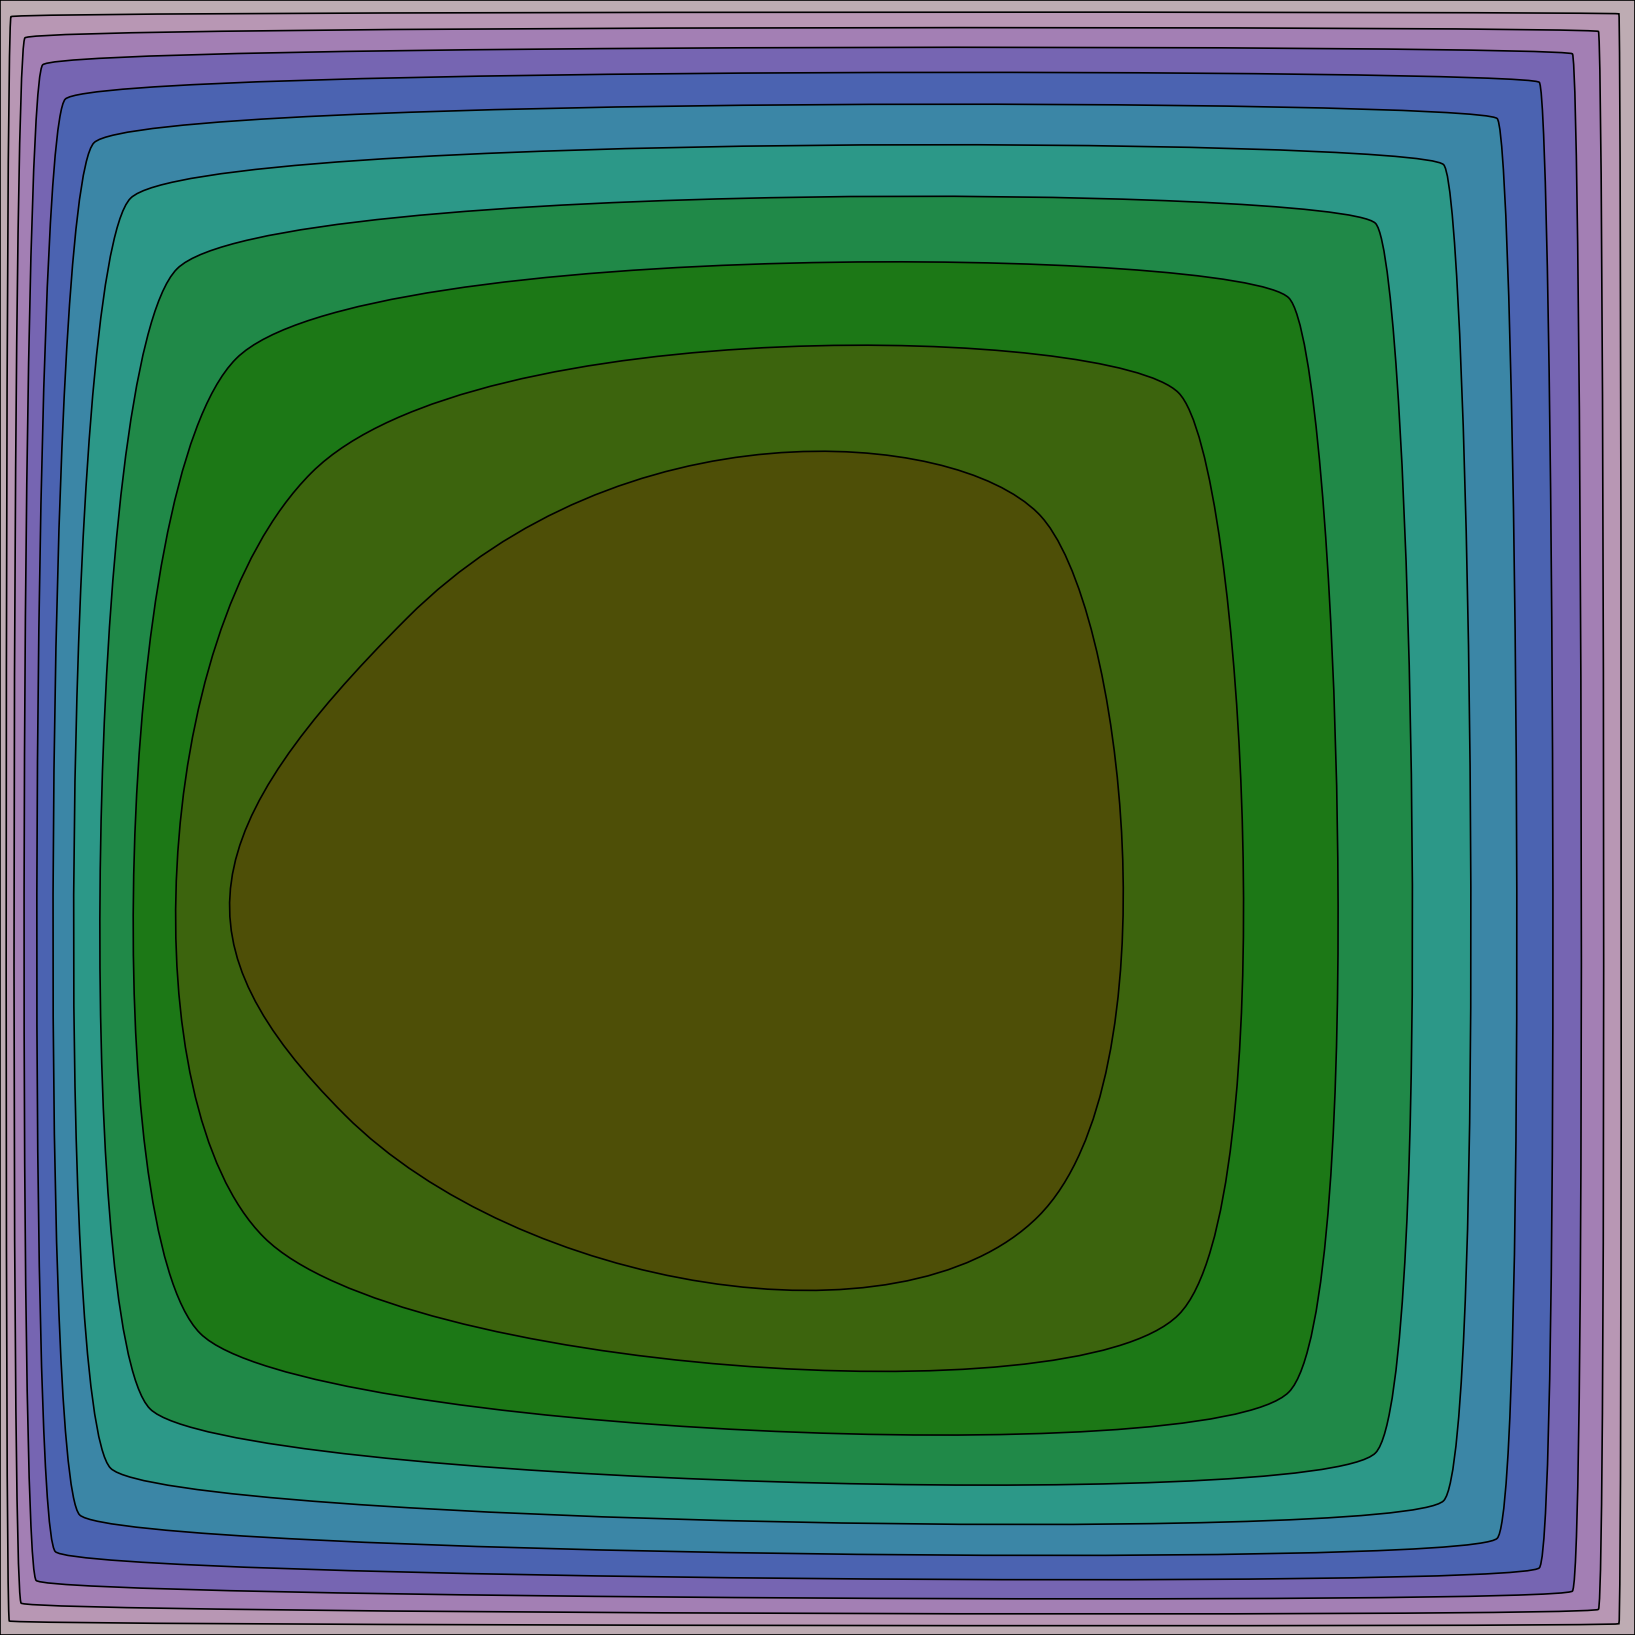

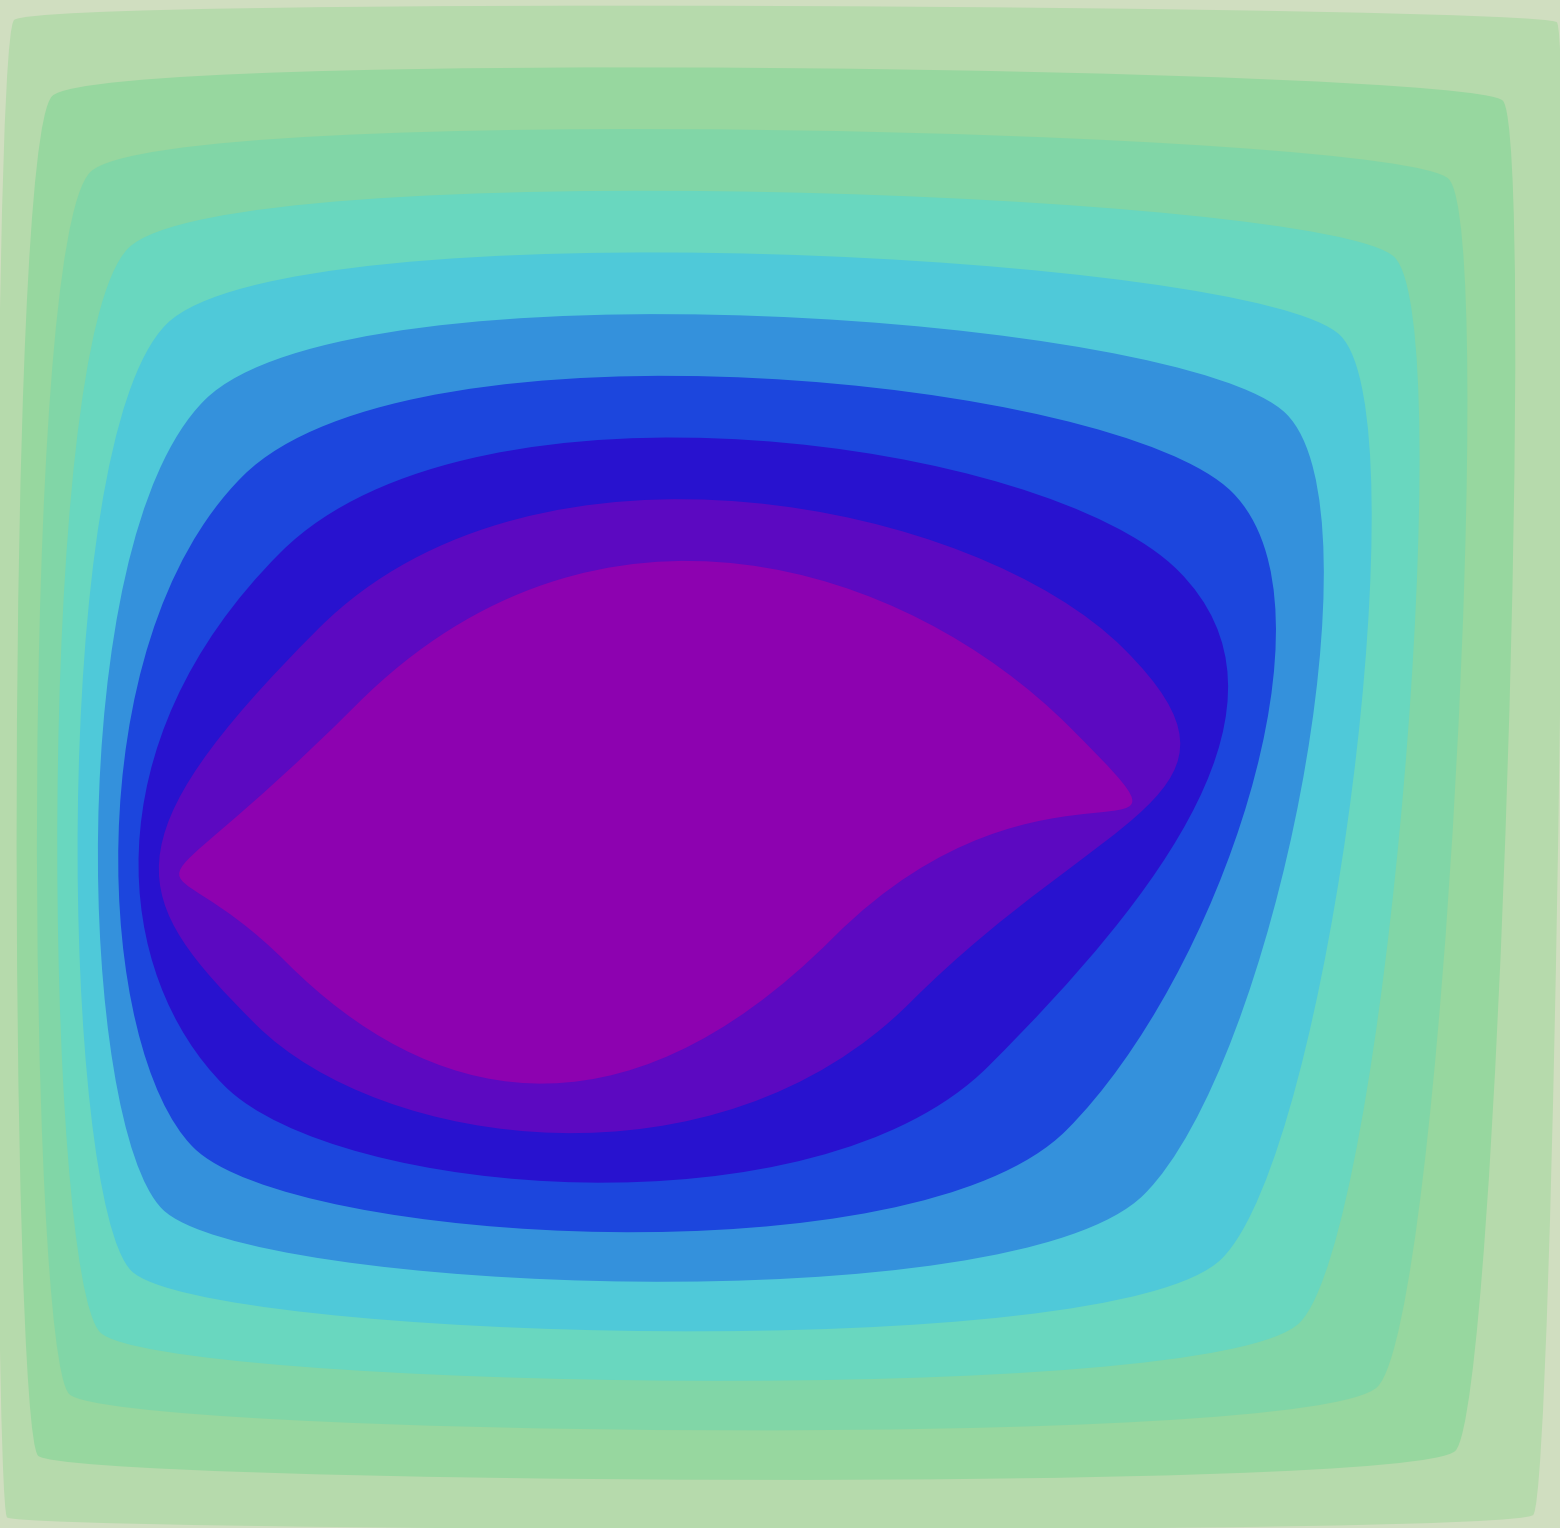

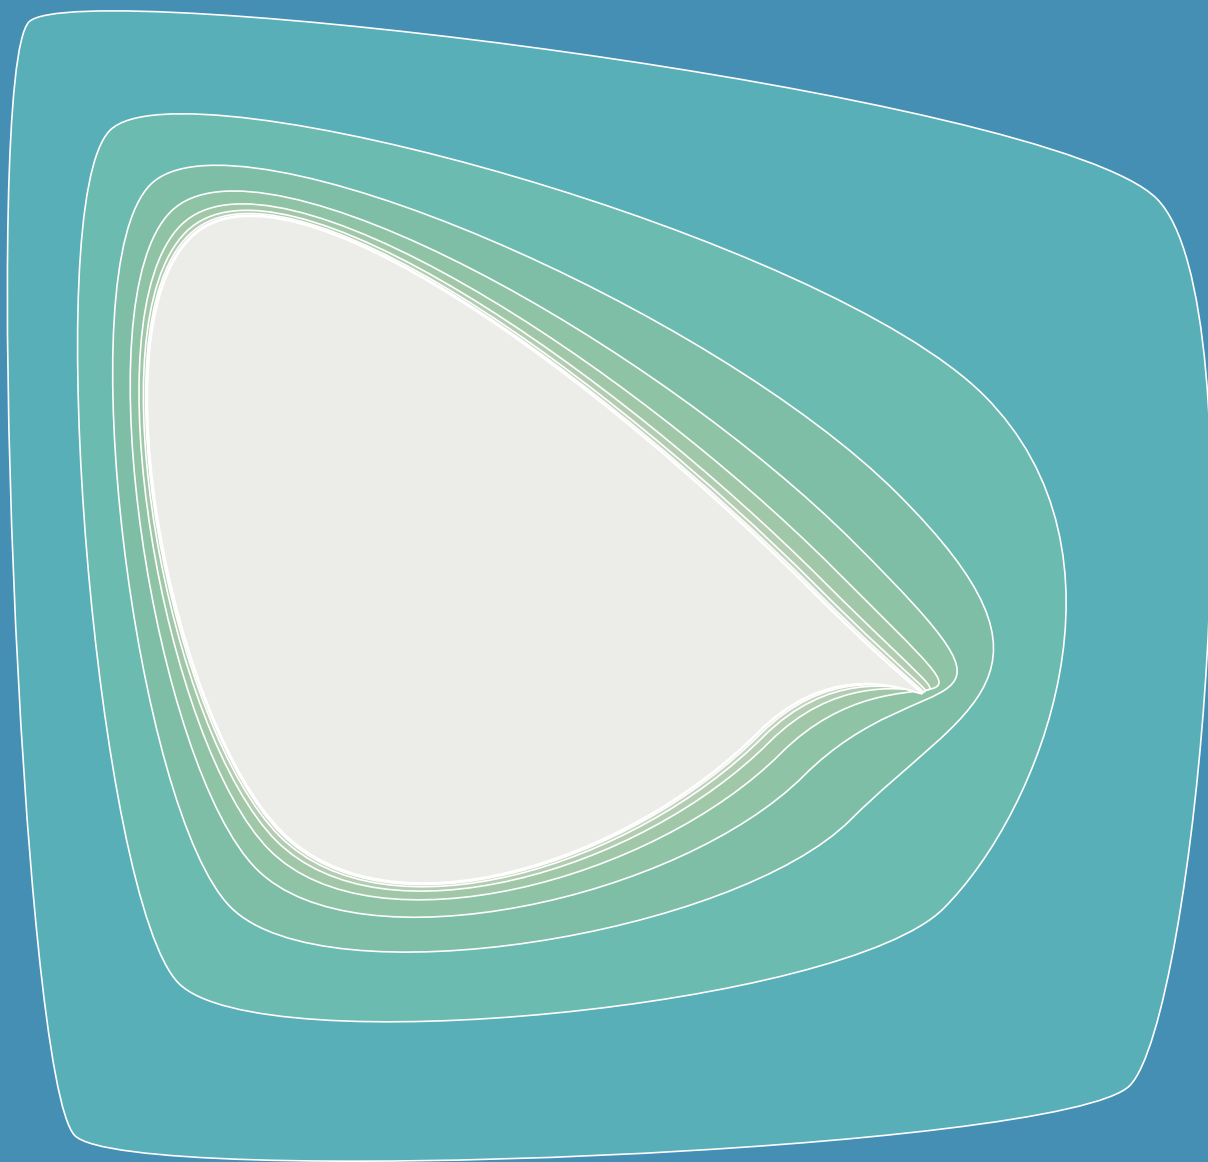

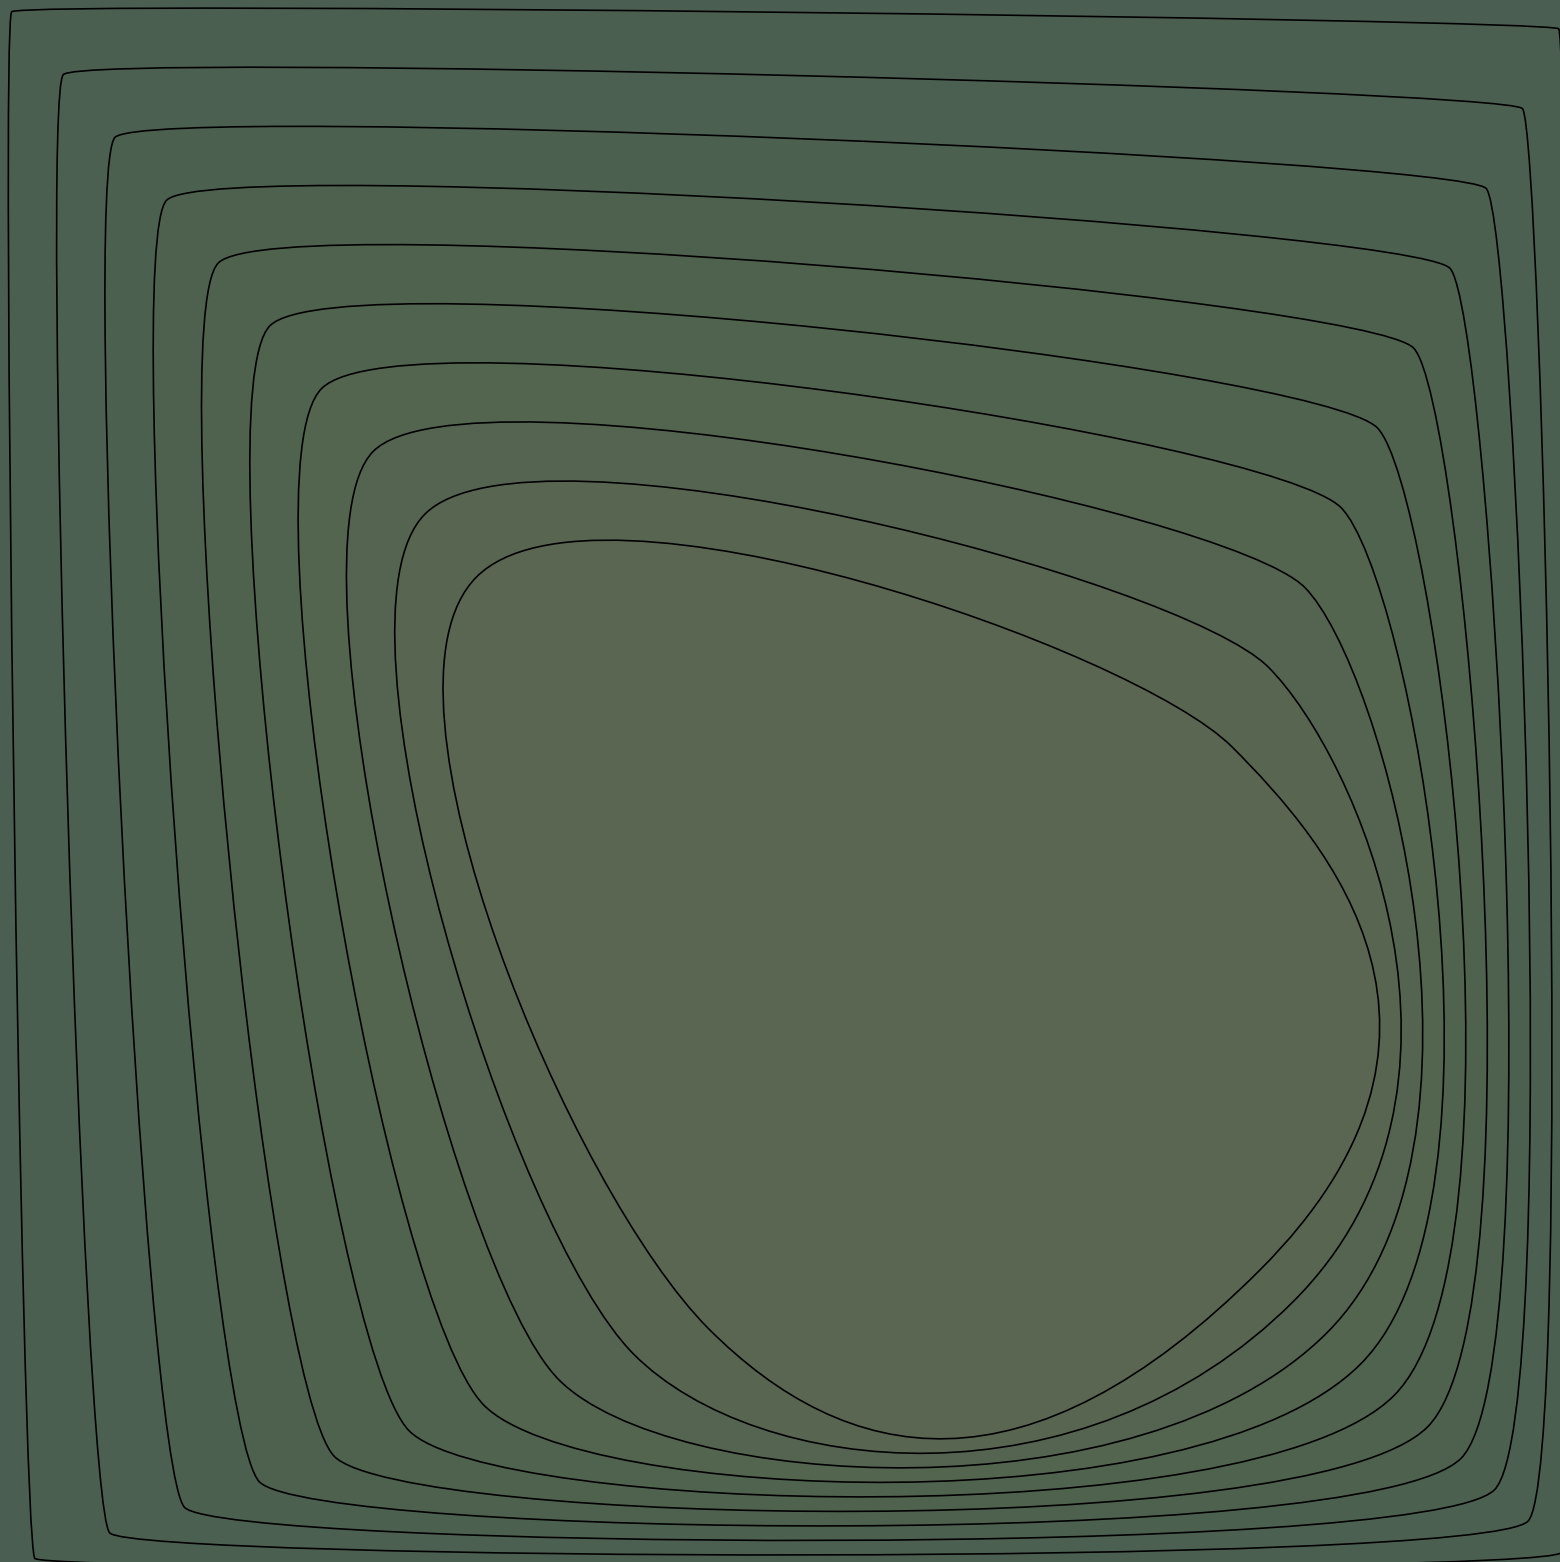

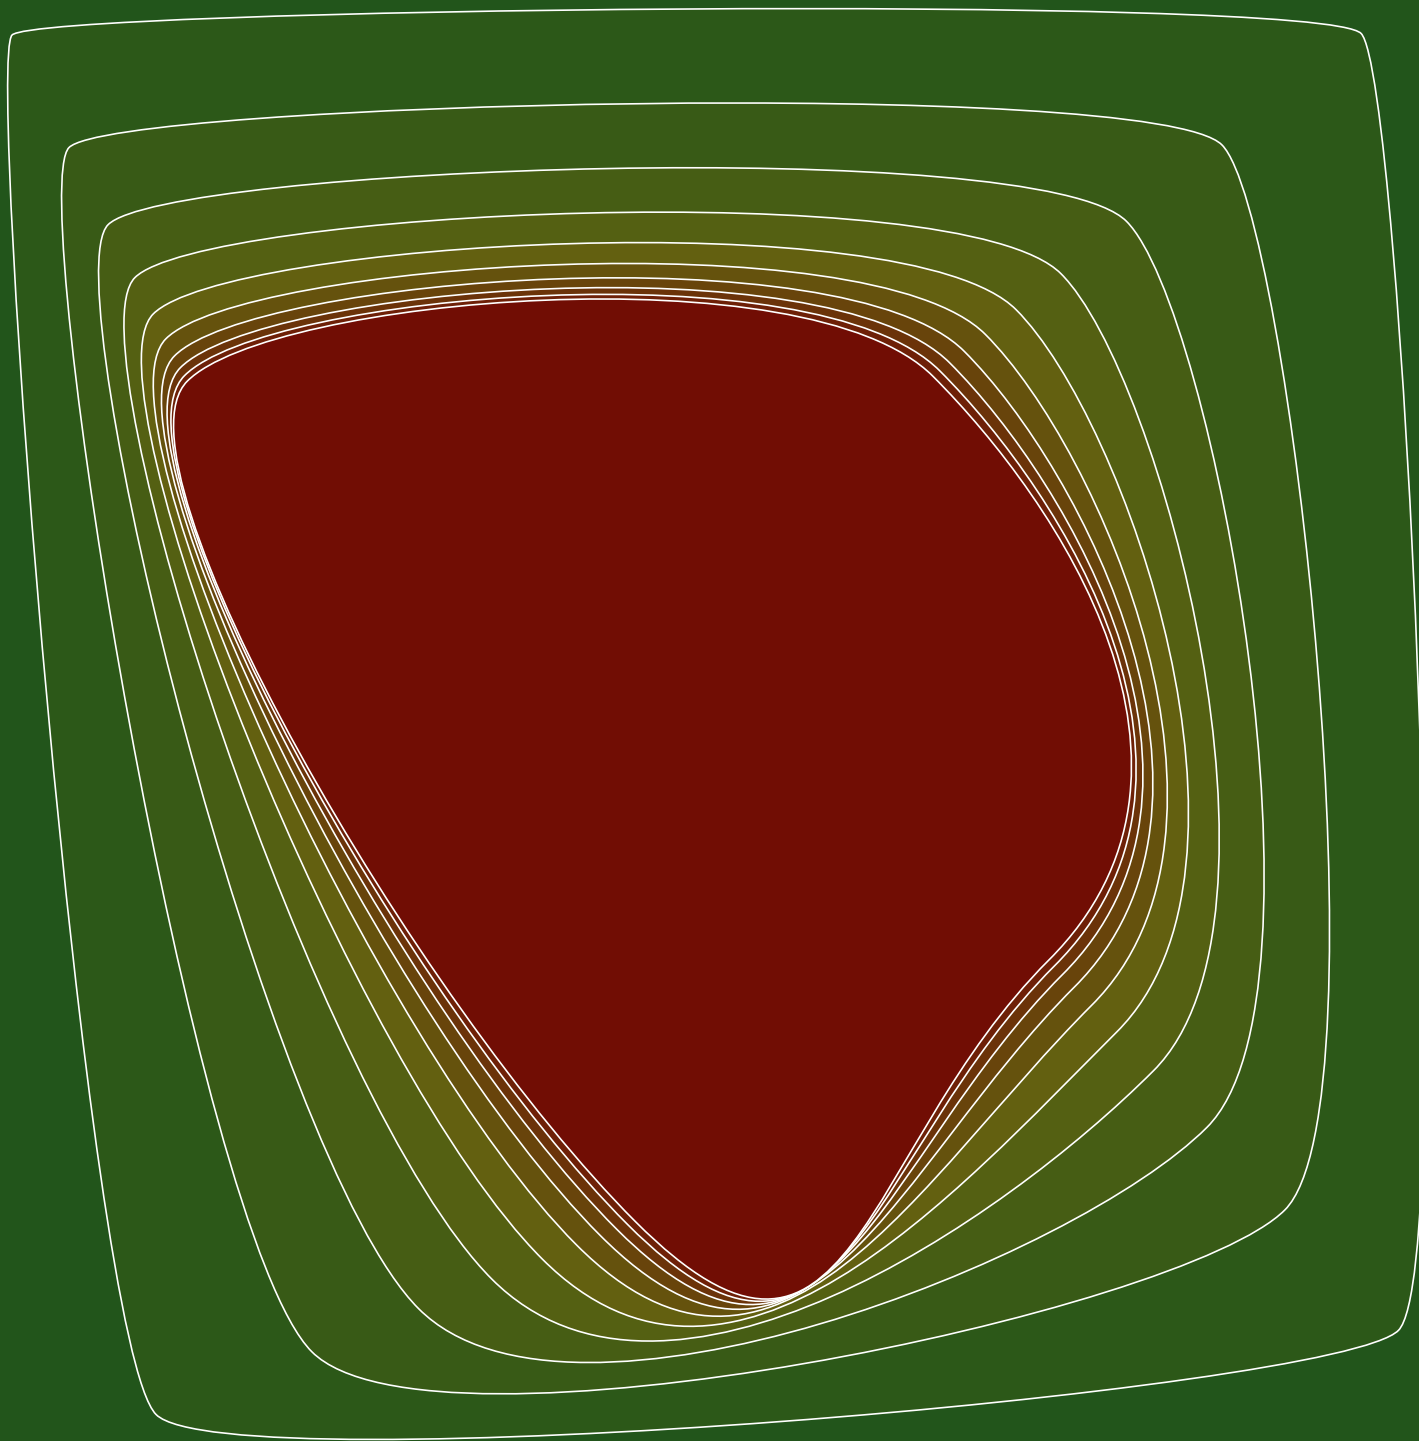

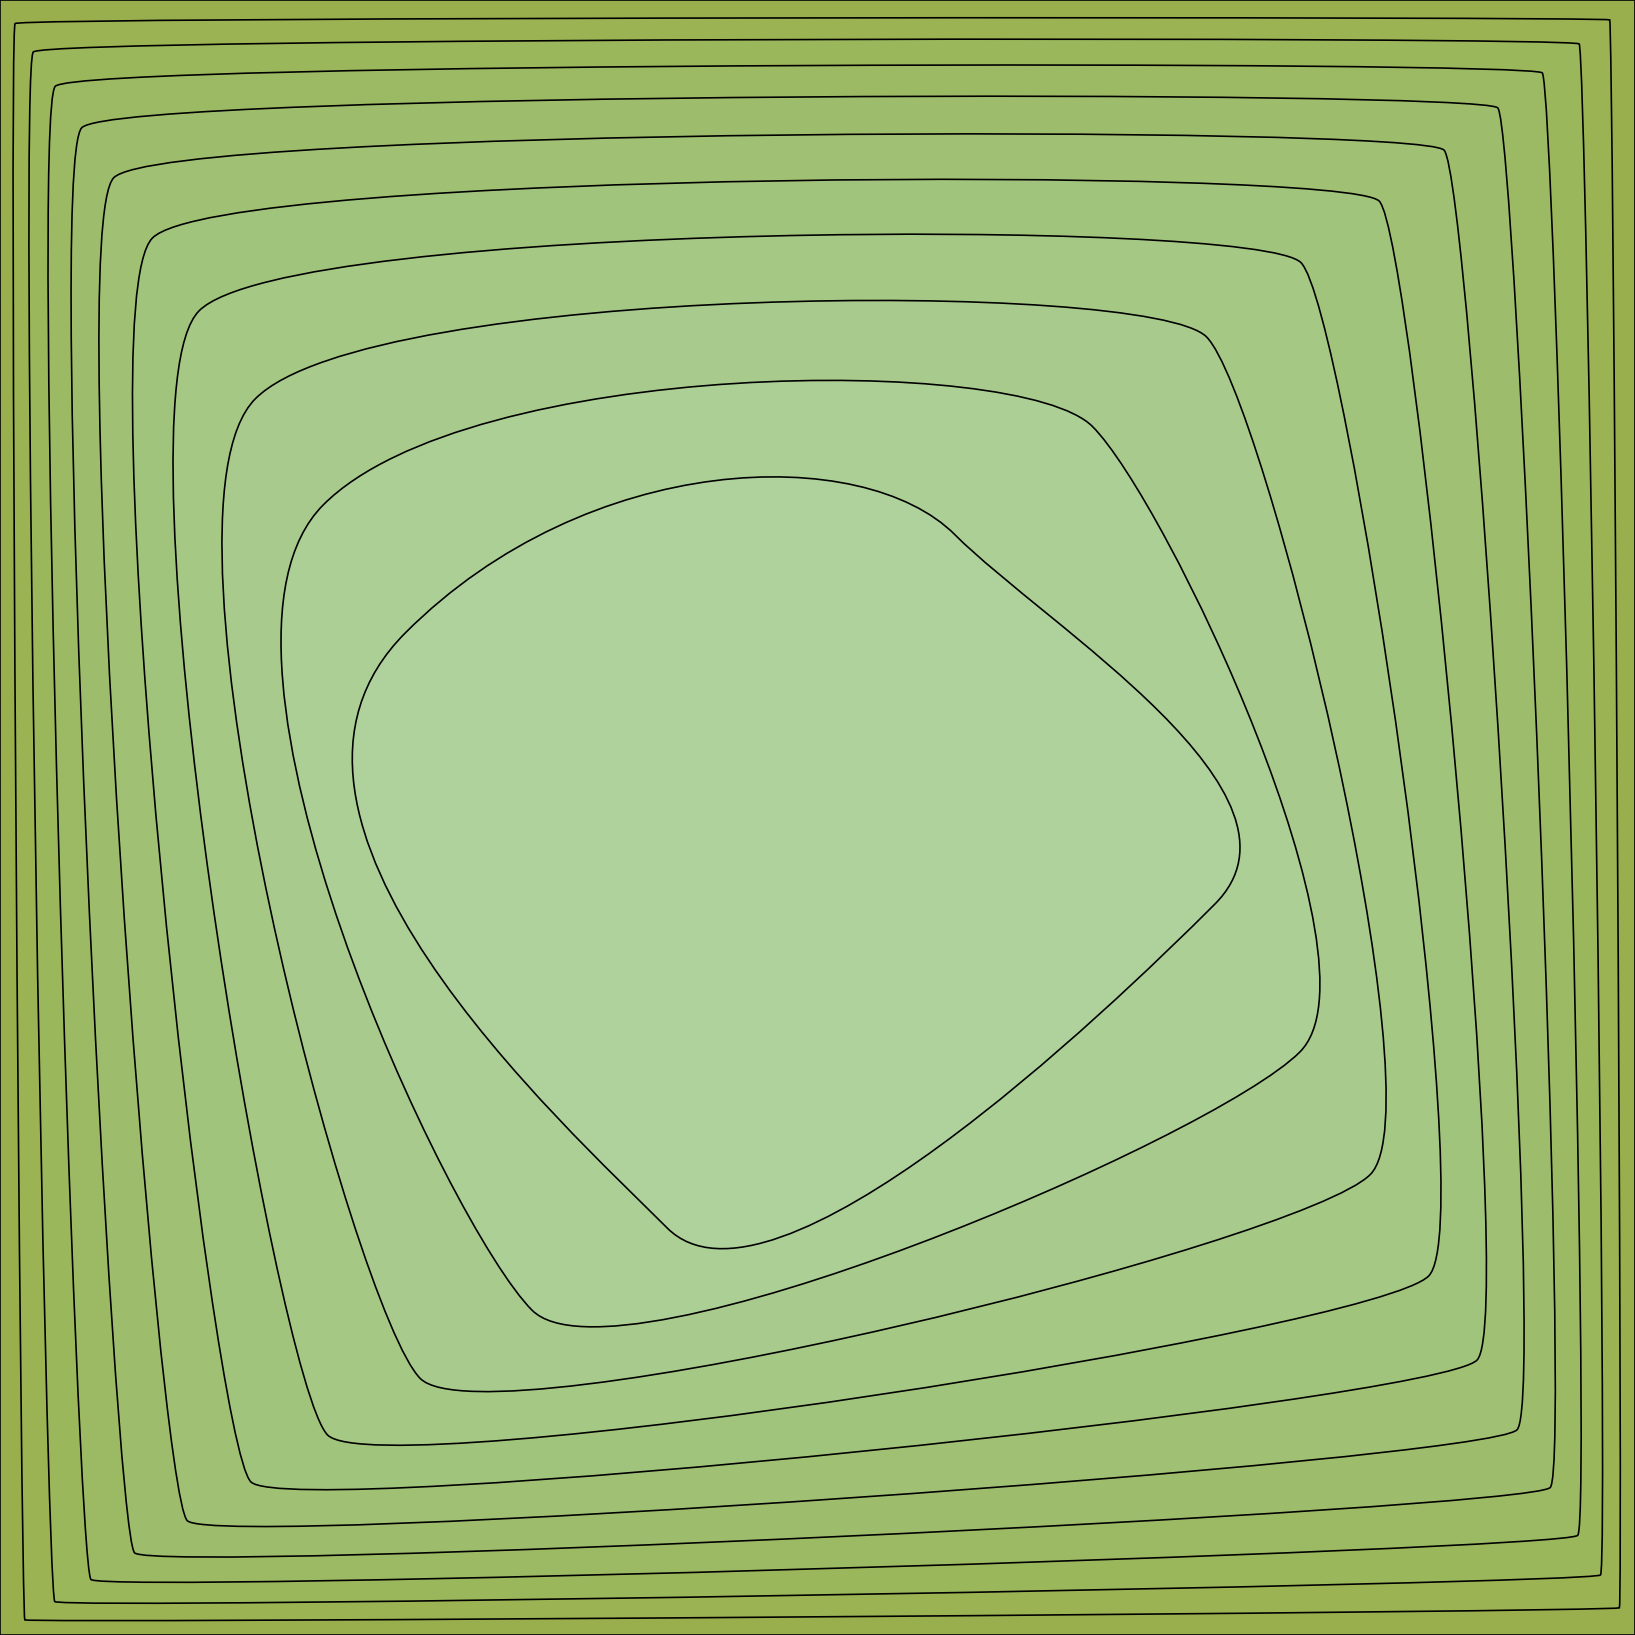

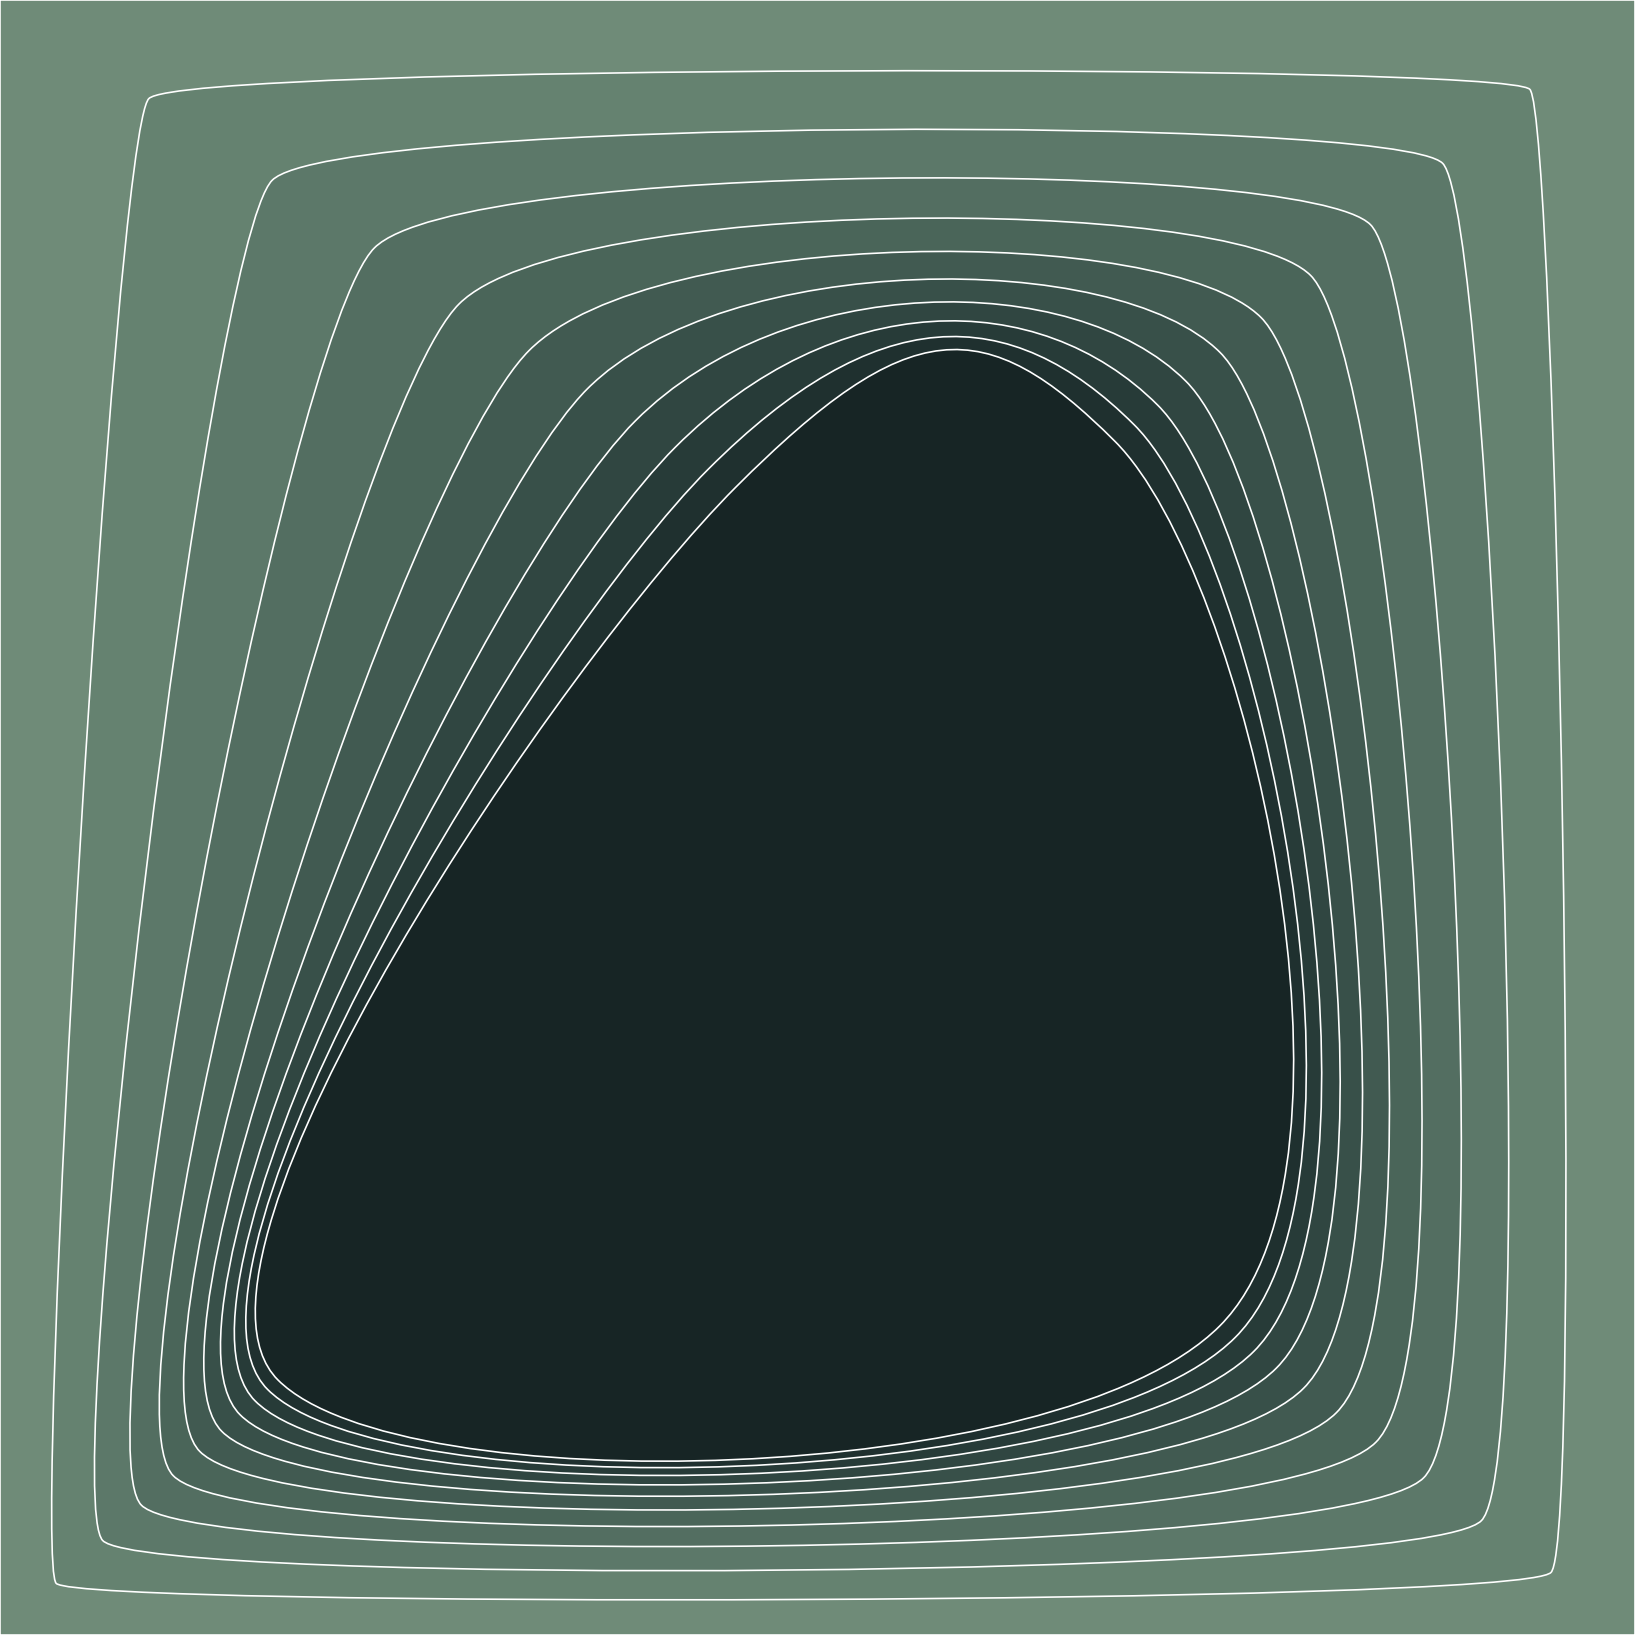

Every day my webserver generates a new book, filled with blobs of a random colour that turn into rectangles in ten steps. The blobs might have a border, and this border, if it exists, is either black or white. The ten steps follow a certain ratio. This ratio is one of the twelve so called excellent orthogons: The Quadrat, the Hemidiagon, the Trion, the Quadriagon, the Biauron, the Penton, the Diagon, the Bipenton, the Hemiolion, the Auron, the Hecton, and the Doppelquadrat.

Created for Vasilis van Gemert — and you — by his webserver.
